UNEP/CMS/MIKT3/Inf.8

**RESOLUTION 11.16 (Rev.COP12)  
THE PREVENTION OF ILLEGAL KILLING, TAKING AND TRADE OF MIGRATORY BIRDS**

The European Commission were recognized as Champion Plus for their generous support and commitment towards addressing Illegal Killing, Taking and Trade of Migratory Birds in the Mediterranean for the period 2019-2020. This activity has been funded with the contribution granted by the European Commission under the Migratory Species Champion Programme and through the Global Public Goods and Challenges (GPGC Programme) Cooperation Agreements with UNEP.

## CONVENTION ON MIGRATORY SPECIES

Distribution: General

UNEP/CMS/Resolution 11.16 (Rev.COP12)

Original: English

### THE PREVENTION OF ILLEGAL KILLING, TAKING AND TRADE OF MIGRATORY BIRDS

Adopted by the Conference of the Parties at its 12<sup>th</sup> Meeting (Manila, October 2017)

*Recalling* Article III (5) of the Convention which provides for Parties that are Range States to prohibit the taking of species included in Appendix I, and Article V (5) (k) on Guidelines for AGREEMENTS which suggests, where appropriate and feasible, each Agreement should prepare for procedures for co-ordinating action to suppress illegal taking,

*Further recalling* that the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA), the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia (Raptors MOU), the Action Plan for the Conservation of African-Eurasian Migratory Landbirds (AEMLAP) as adopted through Resolution 11.17, and most other bird-related MOUs and action plans under CMS include measures related to the protection of birds,

*Acknowledging* the collaborative effort of the International Consortium on Combating Wildlife Crime working to bring coordinated support to national wildlife law enforcement agencies and regional networks, and the need to establish a coordination mechanism between the Consortium and CMS in relation to the mandates laid out in this Resolution on illegal killing, taking and trade of migratory birds,

*Noting* the Guidelines to Prevent Poisoning of Migratory Birds as adopted through Resolution 11.15, and the AEMLAP,

*Regretting* that illegal killing, taking and trade of migratory birds still represent important factors against the achievement and maintenance of the favourable conservation status of bird populations in all major flyways, negatively affecting conservation actions undertaken by States and resulting in adverse impacts on the conservation, legal hunting, agriculture and tourism sectors,

*Concerned* that there are continued and intensified illegal killing, taking and trade of migratory birds in some areas, although also with significant reductions in others, and that the risk remains high that this is contributing to population declines of a number of species including some that are listed on CMS Appendix I and globally threatened with extinction (e.g., Spoon-billed Sandpiper *Eurynorhynchus pygmeus*, Yellow-breasted Bunting *Emberiza aureola* and Marsh Seedeater *Sporophila palustris*),

*Aware* that subsistence uses, recreational activities and organized crime are key drivers of such illegal killing, taking and trade for, *inter alia*, supply of food, trophies, cage birds, and support of traditional practices,

*Aware* that such illegal killing, taking and trade are a cause of great national and international public concern along each flyway,

*Welcoming* the practical responses by several Parties and Signatories to CMS instruments to international concern about illegal killing, taking and trade of migratory birds,

*Welcoming* the recent enhanced focus on tackling the illegal killing, taking and trade of migratory birds in the Mediterranean region including through:

- Recommendation No 164 (2013) of the Bern Convention Standing Committee on the implementation of the Tunis Action Plan 2013-2020 for the eradication of illegal killing, trapping and trade of wild birds;
- The Roadmap towards eliminating illegal killing, trapping and trade of birds (12/2012) developed in relation to Directive 2009/147/EC of the European Parliament and Council on the Conservation of Wild Birds;
- The formerly AEWA-led, multi-stakeholder Plan of Action to address bird trapping along the Mediterranean coasts of Egypt and Libya (UNEP/CMS/ScC18/Inf.10.12), the development of which was funded by the Government of Germany and which was integrated into the Intergovernmental Task Force to Address Illegal Killing, Taking and Trade of Migratory Birds in the Mediterranean (MIKT); and
- The BirdLife International-led 2014/2015 review of the scale and extent of illegal killing and taking in the Mediterranean, the current work to extend this review to Northern and Central Europe, the Caucasus and to the Arabian Peninsula, Iran and Iraq and its development of guidance for monitoring the extent of such illegal activities.

*Recognizing* the role of the Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) as the principal international instrument for ensuring that international trade in specimens of wild animals and plants does not threaten the species' survival,

*Welcoming* the Declaration of the London Conference on the Illegal Wildlife Trade which states that “*action to tackle the illegal trade in elephants and rhinoceroses will strengthen our effectiveness in tackling the illegal trade in other endangered species*”,

*Acknowledging* the role of legal and sustainable hunting of birds in sustainable livelihoods and conservation of habitats and the role of the hunting community in promoting and encouraging compliance with the law and sustainable hunting practices,

*Welcoming* the recent synergies on actions to prevent illegal killing created between the Bern Convention, the EU, the Convention on Migratory Species (CMS), AEWA and the Raptors MOU and encouraging the continuation of their cooperation on the conservation of migratory birds,

*Noting* the Cairo Declaration supporting a zero-tolerance approach on Illegal Killing, Taking and Trade of Migratory Birds in the Mediterranean Region as well as the Programme of Work (POW) of MIKT for the period 2016-2020 developed at its first meeting,

*Acknowledging* the efforts of the Secretariat to build a sustainable line of cooperation with INTERPOL and EUROPOL within the framework of MIKT, towards effective law enforcement responses in the Mediterranean and serving as a basis to support other task forces established to address the illegal killing, taking and trade of migratory birds in other regions, when appropriate,

*Welcoming* the support from the Bern Convention Standing Committee on its 36<sup>th</sup> meeting to the organization of a back-to-back meeting of the Bern SFPs Network and MIKT in 2017 and *acknowledging* the productive cooperation established between both networks in the fight against illegal killing, taking and trade of wild birds,

*Acknowledging* the need to establish lines of action and co-operation on criminal matters affecting the environment in order to harmonize the national legislations,

*Welcoming* the support of the Criminal Justice Programme of the EU and the efforts of European BirdLife partners to assess levels of implementation and enforcement of Directive 2008/99/EC on the Protection of the Environment through Criminal Law by EU Member States, and *welcoming* also the creation of a European Network of Environmental Crime as a coordination mechanism between legal and other practitioners which works to prevent and prosecute illegal bird killing and capture, facilitate information exchange, as well as builds communication channels with other networks and MEA Secretariats,

*Recognizing* the work of the East Asian-Australasian Flyways Partnership (EAAFP) to prevent illegal hunting<sup>1</sup> and unsustainable harvest of migratory waterbirds, particularly the initiative to establish a task force on illegal hunting, taking and trade of migratory birds along the flyway, modelled on MIKT,

*Noting* the European Commission Communication COM (2016), 710 final, *Commission Work Programme 2017 “Delivering a Europe that protects, empowers and defends”*, and *welcoming* the initiative under Priority 10 envisaging an Action Plan on Environmental Compliance Assurance to support Member States on the promotion, monitoring and compliance enforcement by duty-holders with EU environmental law,

Noting the European Commission Communication COM (2017) 198 final, “An Action Plan for nature, people the economy” and the associated Commission Staff Working Document (2017) 139 final, “Factsheet providing details of actions in the Action Plan for Nature, people and the economy and the Council Conclusions of 19 June 2017,

*Having regard* to the Strategic Plan of the Convention on Biological Diversity 2011-2020, and its Aichi targets, and *welcoming* the international partnership launched to support Parties to achieve Aichi Biodiversity Target 12,

*Referring* to the Strategic Plan for Migratory Species 2015-2023 (UNEP/CMS/COP11/Doc.15.2) and in particular Target 6 that “fisheries and hunting have no significant direct or indirect adverse impacts on migratory species, their habitats or their migration routes, and impacts of fisheries and hunting be within safe ecological limits”,

*Having regard* to the Strategic Plan of AEWA, especially Target 2.3 “Measures to reduce and, as far as possible, eliminate, illegal taking of waterbirds, the use of poison baits and non-selective methods of taking are developed and implemented” and the Action Plan of the Raptors MoU, especially Priority Action 4a “Protecting all species from unlawful killing, including poisoning, shooting, persecution, and exploitation”, and

*Acknowledging* the widespread adoption of the zero-tolerance approach, as well as progress at the Party level towards the monitoring of illegal activities and the adoption of a coordinated approach covering each stage of the chain of activities related to illegal killing, taking or trade,

---

<sup>1</sup> There are regional differences in the agreed terminology, in English, for the problem of the illegal removal of birds from the wild; in Europe and the Mediterranean, the agreed term is “illegal killing and taking” to avoid confusion with legitimate hunting practices whereas in Asia-Australasia, the agreed term is “illegal hunting and taking” due to cultural sensitivities.

*The Conference of the Parties to the  
Convention on the Conservation of Migratory Species of Wild Animals*

1. *Calls on* Parties, non-Parties and other stakeholders, including non-governmental organizations, to engage in immediate cooperation to address the illegal killing, taking and trade of migratory birds through support of, and collaboration with, existing international initiatives and mechanisms to address these issues, as well as establishing (as appropriate and where added value can be assured) Task Forces targeted at facilitating concerted action to eliminate illegal killing, taking and trade of shared populations of migratory birds in those areas where such problems are prevalent;
2. *Calls on* the Secretariat to convene an Intergovernmental Task Force to Address Illegal Killing, Taking and Trade of Migratory Birds in the Mediterranean<sup>2</sup> in conjunction with the Secretariats of AEWA, the Raptors MOU, the AEMLAP and the Bern Convention, involving the Mediterranean Parties, including the European Union, other interested Parties, including from outside the region, and other stakeholders such as BirdLife International and the Federation of Associations for Hunting and Conservation of the EU (FACE), to facilitate the implementation of that existing guidelines and action plans, any necessary new guidelines and action plans relating to the Mediterranean (particularly the Tunis Action Plan) and to consider whether any new guidelines, action plans or other recommendations to respond to specific problems are necessary;
3. *Acknowledges* the work of MIKT in developing the scoreboard and promotes its use as a voluntary tool for Parties to assess their own progress in combating illegal killing, taking and trade of wild birds included in Annex 1 to this Resolution;
4. *Notes* that experience from the practical use of the scoreboard should be gathered for its potential further development;
5. *Decides* to establish, subject to the availability of resources, an Intergovernmental Task Force on Illegal Hunting, Taking and Trade of Migratory Birds in the East Asian-Australasian Flyway (ITTEA) and adopts the Terms of Reference included in Annex 2 to this Resolution;
6. *Calls also on* the Secretariat actively to work with Parties and non-Party Range States and others in South and Central America and the Caribbean to conduct an assessment of Illegal Killing, Taking and Trade of Migratory Birds in that region;
7. *Urges* Parties and *encourages* non-Parties, to ensure adequate national legislation to protect migratory species is in place and properly implemented and enforced, in line with CMS and its relevant associated instruments and other international instruments;
8. *Urges* Parties and *invites* non-Parties to promote and ensure synergies between work to implement the Guidelines to Prevent Poisoning of Migratory Birds as adopted through Resolution 11.15, in particular in relation to poisoned baits, and to prevent illegal killing of birds;
9. *Requests* the Task Force to encourage monitoring of the trends in illegal killing, taking and trade of migratory birds using comparable methodologies internationally and to facilitate the exchange of best practice experience in combating these activities, especially between particular trouble spots around the globe, building on the experience gained in the Mediterranean;

---

<sup>2</sup> The Task Force was established after COP11.

10. *Instructs* the Secretariat, in collaboration with Parties and relevant international organizations, subject to the availability of funds, and building on the experience in the Mediterranean to support efforts to address illegal killing, taking and trade of migratory birds elsewhere in the world, including through the organization of workshops, as appropriate;
11. *Calls on* Parties and *invites* non-Parties and stakeholders, with the support of the Secretariat, to strengthen national and local capacity for addressing illegal killing, taking and trade of migratory birds, *inter alia*, by developing training courses, translating and disseminating relevant materials and examples of best practice, sharing protocols and regulations, transferring technology, and promoting the use of online tools and other tools to address specific issues;
12. *Urges* Parties and *invites* the United Nations Environment Programme and other relevant international organizations, bilateral and multilateral donors to support financially the operations of the Task Force to Address Illegal Killing, Taking and Trade of Migratory Birds in the Mediterranean, including through funding for its coordination, and subject to the results of monitoring mentioned in paragraph 5, the development of equivalent Task Forces at other trouble spots, including through the provision of financial assistance to developing countries for relevant capacity building;
13. *Calls on* the Secretariat to report progress, on behalf of the Task Force to Address Illegal Killing, Taking and Trade of Migratory Birds in the Mediterranean and other similar initiatives elsewhere in the world, on implementation and, as much as possible, on assessment of the efficacy of measures taken, at each meeting of the Conference of the Parties; and
14. *Calls* also on the Secretariat to ensure in conjunction with the Secretariats of the EAAFP and the Arctic Migratory Birds Initiative (AMBI) the undertaking and completion, subject to available funding, of a situation analysis on the illegal hunting of migratory birds in South-East Asia for reporting to Parties at COP13 by Birdlife International, using comparable methodology to the Birdlife International reviews already undertaken on this issue for the Mediterranean region, the rest of Europe and the Middle East.
