1.1 General questions on Appendix I bird species

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I bird species: <ul style="list-style-type: none"> • Ministry of Environmental Protection and Physical Planning • Institute of Ornithology
2	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I bird species: Hunting represents problem, specially for waterbirds. Conservation awareness in hunters is not high, they are often breaking the law. In the coastal area, tradition of bird hunting is also a problem.
3a	What actions are being undertaken to overcome these obstacles? Establishing protected areas. Education and awareness-raising actions for hunters, but not systematically. Control and inspection are still rather weak, mostly because of the lack of inspectors and their adequate education.
3b	What assistance, if any, does your country require in order to overcome these obstacles? Technical and financial support for related conservation actions and projects (saving carp fishponds, hunting, awareness raising)
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)©)? <ul style="list-style-type: none"> • Preparation of new legislation (Nature Protection Bill, to be enacted in 2002) • Establishing protected areas • Drafting Emerald as well as national ecological network (ongoing) • Project to support carp fishponds as parts of ecological network (starting)
4a	Describe any factors that may limit action being taken in this regard: <ul style="list-style-type: none"> • Lack of human and financial resources • Lack of the State support for carp fishponds
4b	What assistance, if any, does your country require to overcome these factors? Technical and financial support for related conservation actions and projects
