

HUNGARY / HONGRIE / HUNGRÍA

Convention on the Conservation of Migratory Species of Wild Animals

Format for reports of Parties on implementation of the Convention on the Conservation of Migratory Species of Wild Animals (revision of January 2002)

Reporting format agreed by the Standing Committee at its 23rd meeting (Bonn, December 2001) for voluntary use by Parties, on a trial basis, for reports submitted to COP7. Refer to separate instructions on completing the report.

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Which agency has been primarily responsible for the preparation of this report?

Authority for Nature Conservation of the Hungarian Ministry for Environment

List any other agencies that have provided input: National Park Directorates

I(a). General Information

Please complete any unfilled boxes and amend and/or update as appropriate the information provided in the table below:

Reports submitted:	1997, 1999, 2002
Period covered by this report:	1999-2002
Date of entry into force of the Convention in Hungary:	1 November 1983
Territory to which the Convention applies:	Hungary
Reservations (against species listings):	None
Designated Focal Point: Ms. Louise Lakos Ministry for Environment Fő u. 44-50 1011 Budapest Hungary Tel.: (+36 1) 201 2891 Fax: (+36 1) 201 2846 E-mail: lakosne@mail.ktm.hu	Appointment to the Scientific Council: Dr. Attila Bankovics Hungarian Natural History Museum Baross u. 13 1088 Budapest Hungary Tel.: (+36 1) 210 1075 ext 5044 Fax: (+36 1) 334 2785 E-mail: bankovics@zoo.zoo.nhmus.hu
Membership of the Standing Committee:	Not applicable
Competent authority:	Authority for Nature Conservation of the Hungarian Ministry for Environment, National Park Directorates
Implementing legislation:	Decree No. 13/2001 (V. 9.) KöM on protected species of plants and animals, and on protected caves Act LIII of 1996 on Nature Conservation (entered into force on 1 st January 1997)
Other relevant conventions/agreements (apart from CMS) to which Hungary is a Party:	Bern, CITES, Ramsar, CBD

National policy instruments (e.g. national biodiversity conservation strategy, etc.):	
Great Bustard MoU: <input checked="" type="checkbox"/> Party <input type="checkbox"/> Signed but not yet entered force <input type="checkbox"/> Non-party	
National Contact Point	Name: András Böhm Address: Authority for Nature Conservation Költő u. 21. Budapest 1121 Hungary Tel.: (36-1) 395-7458 Fax: (36-1) 395-7458 E-mail: böhm@mail2.ktm.hu
Slender-billed Curlew MoU: <input checked="" type="checkbox"/> Party <input type="checkbox"/> Signed but not yet entered force <input type="checkbox"/> Non-party	
Competent Authority	Name: Gábor Magyar Address: Authority for Nature Conservation Költő u. 21. Budapest 1121 Hungary Tel.: (36-1) 395-7458 Fax: (36-1) 395-7458 E-mail: magyar@mail2.ktm.hu
EUROBATS: <input checked="" type="checkbox"/> Party <input type="checkbox"/> Signed but not yet entered force <input type="checkbox"/> Non-party

I(b). Additional General Information

1	<p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p>Ministry for Agriculture regarding migratory game species</p>
1a	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>The Ministry for Environment can express it's opinion on any issue related to migratory game species (mainly waterfowl), but the leading role in conservation belongs to the Ministry for Environment.</p>
2	<p>List the main non-governmental organizations actively involved in initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>BirdLife Hungary, WWF Hungary, Hungarian Bat Conservation Foundation, Bat Researchers' Association: active conservation management (installing bat-friendly cave closures, raptor nest guarding, etc.) and monitoring, census works and university scientific departments in research.</p>
3	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>Sponsoring of NGOs</p>
4	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>Waterfowl monitoring organised by the Sopron University with the participation of volunteers and funded by the Ministry of Environment and the Ministry for Agriculture.</p>

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I bird species: Authority for Nature Conservation of the Hungarian Ministry for Environment
2	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I bird species: Occasional, mostly accidental shooting of protected migratory birds. Habitat loss. Purposeful illegal hunting of migratory species, mostly passerines, is on the rise by foreign hunters.
3a	What actions are being undertaken to overcome these obstacles? Education of hunters, regular controlling of hunts, habitat restoration and protection.
3b	What assistance, if any, does your country require in order to overcome these obstacles? International action on prosecution of illegal hunters in their home country. Financial.
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? At this point, there is no exotic species in Hungary endangering native migratory bird species.
4a	Describe any factors that may limit action being taken in this regard: n.a.
4b	What assistance, if any, does your country require to overcome these factors? n.a.

1.2 Questions on specific Appendix I bird species

The following section contains a table for each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species Haliaeetus albicilla</i> – Common Name(s) White-tailed Eagle	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A. 1998: Nomenclator Avium Hungariae. An annotated list of the bird species of Hungary.
3	Summarise information on population size, trends and distribution (if known): Population size of the species has been constantly growing in the last years, rising from cca. 55-65 breeding pairs to about 100 pairs, most of which (58 pairs) breeds in the south-western part of the country, within the competence area of the Duna-Dráva National Park Directorate. The majority of the nests is located in protected areas, thus their conservation

	seems to be secured. The number of overwintering individuals is also growing reaching a total of about 300-400 birds, with a high concentration in the Hortobágy region and the south-eastern part of the country.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring. regular censuses conducted by national park directorates <input checked="" type="checkbox"/> Habitat protection. most of the nests and feeding grounds are found in protected areas <input type="checkbox"/> Habitat restoration <input checked="" type="checkbox"/> Other: nest guarding, supervising forestry management plans, winter feeding
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued and further consideration of conservation aspects in forestry management plans is expected.

<i>Species Aquila clanga</i> – Common Name(s) Greater Spotted Eagle	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A. 1998: Nomenclator Avium Hungariae. An annotated list of the bird species of Hungary.
3	Summarise information on population size, trends and distribution (if known): The species is rare on passage during autumn and sometimes during spring predominantly to open steppe, as well as wetland areas. Occasionally overwinters. Now annual in very low numbers, increase of records is due to better network of observers.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular synchrony census for birds of prey <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There is sufficient habitat for overwintering or migrating individuals with appropriate protection, the low number of individuals does not warrant further action in Hungary.
6	Describe any future activities that are planned for this species: No further action is necessary for the conservation of the species in Hungary, as long as numbers remain low.

<i>Species Aquila heliaca</i> – Common Name(s) Imperial Eagle	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A. 1998: Nomenclator Avium Hungariae. An annotated list of the bird species of Hungary.
3	Summarise information on population size, trends and distribution (if known): There is a stable or slightly increasing population of about 55-60 pairs breeding in the country, concentrating in Northeast Hungary, mainly in the Bükk and Zemplén Mountains. There are reports on a few dozen of migrating immature birds every year all around the country. Most of the juveniles and immature birds migrate, while the majority of adults are resident.

4	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)</p> <p><input checked="" type="checkbox"/> Research: Horváth, M. 2000: Nesting habitat selection of the Eastern Imperial Eagle (<i>Aquila heliaca</i>) in Northeast Hungary. Thesis. Szent István University.</p> <p>Solt, Sz. 2000: National report on the research activities performed in the competence area of the Hortobágy National Park Directorate on nestling mortality of raptors.</p> <p><input checked="" type="checkbox"/> Monitoring: regular censuses conducted by national park directorates</p> <p><input checked="" type="checkbox"/> Habitat protection: most of the nests and feeding grounds are found in protected areas</p> <p><input checked="" type="checkbox"/> Habitat restoration: souslik reintroduction in potential feeding grounds for the Imperial Eagle</p> <p><input checked="" type="checkbox"/> Other: nest guarding, supervising forestry management plans, consulting with hunters' organisations</p>
5	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>n.a.</p>
6	<p>Describe any future activities that are planned for this species:</p> <p>Current activities are to be continued, including research. A LIFE Nature project is planned, which would also include research and habitat management. The tagging of individuals with radio and satellite transmitters will form part of this research, for which permissions of the authority are expected to be issued.</p>

<i>Species Anser erythropus</i> – Common Name(s) Lesser White-fronted Goose	
1	<p>Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
2	<p>Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A. 1998: Nomenclator Avium Hungariae. An annotated list of the bird species of Hungary.</p>
3	<p>Summarise information on population size, trends and distribution (if known):</p> <p>Hungary is only a staging ground during autumn and spring migration of the species. A total of 50-100 individuals are seen each year with a slightly declining number in the Hortobágy, and a slightly increasing number in the north-western part. Latter increase is, at least in part, due to more frequent surveys.</p>
4	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)</p> <p><input type="checkbox"/> Research</p> <p><input checked="" type="checkbox"/> Monitoring: regular waterbird census</p> <p><input checked="" type="checkbox"/> Habitat protection: most of the staging grounds are situated in protected areas</p> <p><input checked="" type="checkbox"/> Habitat restoration: during autumn migration artificial shallow flooding of a fishpond is specially conducted for staging Lesser Whitefronts and Cranes on the Hortobágy.</p> <p><input type="checkbox"/> Other</p>
5	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>n.a.</p>
6	<p>Describe any future activities that are planned for this species:</p> <p>Activities mentioned above are to be continued in the future.</p>

<i>Species Branta ruficollis</i> – Common Name(s) Red-breasted Goose	
1	<p>Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p>
2	<p>Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A. 1998: Nomenclator Avium Hungariae. An annotated list of the bird species of Hungary.</p>
3	<p>Summarise information on population size, trends and distribution (if known):</p> <p>Individuals of smaller flocks occur sporadically during migration, sometimes during winter. The number of individuals is slightly increasing. A total of cca. 150 individuals were estimated to appear in Hungary during the winter of 2000/01 being the highest number ever identified. The birds mainly concentrate in the Hortobágy region (cca. 70 birds), the Kiskunság (30-40 individuals) and the Fertő-lake (22 birds, as a maximum).</p>

4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the staging grounds are situated in protected areas <input checked="" type="checkbox"/> Habitat restoration: occasionally artificial shallow flooding near feeding grounds is performed <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

Species Aythya nyroca – Common Name(s) Ferruginous Pochard, Ferruginous Duck

1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): About 500-600 pairs breed in Hungary that may be slightly underestimated. The main populations are those of the Hortobágy (around 100 pairs), Pacsmag (60 pairs), southern Danube, Gemenc (50 pairs), Mórídhely (45 pairs), Kis-Sárrét (40 pairs) and the Pusztaszer Landscape Protection Area (40-50 pairs). The overall Hungarian population seems stable, with increasing bird numbers in some areas and declining in others (this latter mainly in the Kis-Balaton region due to serious unsolved management problems of the lake system). Occasional killing of birds through illegal hunting, which cause the death of cca. 30 birds annually.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the habitats lie in protected areas <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future. Those habitats which possess large flocks and are not yet protected, as for example the Mórídhely-lake, are considered for protection in the near future. For designation of Special Protected Areas as part of Natura 2000, Ferruginous Duck populations are taken into distinguished consideration.

Species Oxyura leucocephala – Common Name(s) White-headed Duck

1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): An irregular vagrant to fishponds in spring and autumn, occasionally during winter. Records are slightly more numerous than in previous years, partly due to better coverage of areas by bird watchers.

4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the potential habitats for the species lie in protected areas <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future, occurring individuals are reported predominantly from protected areas.

<i>Species Pelecanus crispus</i> – Common Name(s) Dalmatian Pelican	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): A rare spring and summer vagrant (May-July) on the Great Plain.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the potential habitats for the species lie in protected areas <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

<i>Species Pelecanus onocrotalus</i> – Common Name(s) White Pelican	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): A rare vagrant mainly at fishponds on the Great Plain, solitarily or in small flocks (April-September).
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the potential habitats for the species lie in protected areas <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other

5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

<i>Species Otis tarda</i> – Common Name(s) Great Bustard	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): The Hungarian population consists of about 1000-1200 individuals. The largest flocks are found in the Kiskunság (cca. 400 ind.), Dévaványa (cca. 380 ind.) and the Hortobágy (cca. 110 ind.). The population seems now stable or very slightly increasing, though many factors threaten the survival of the species. The number of native predators (crows, magpies, martens, stone martens and foxes) is extremely high. Fox population has been growing steeply in the last few years due to recent alimentary vaccination against rabies.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input checked="" type="checkbox"/> Research: continuous research has been going on since many years to improve the success of nestling repatriation <input checked="" type="checkbox"/> Monitoring: synchronised census is organised twice a year by all national park directorates <input checked="" type="checkbox"/> Habitat protection: rutting grounds are protected, nests are protected by bufferzones in agricultural lands, temporal and spatial limitation of reaping <input checked="" type="checkbox"/> Habitat restoration: winter rape-growing, <input checked="" type="checkbox"/> Other: predator control, collecting eggs of abandoned nests and repatriating artificially raised nestlings
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future. a second generation repatriation program is launched this year. Natura 2000 sites will be designated for the protection of the Bustard habitats.

<i>Species Numenius tenuirostris</i> – Common Name(s) Slender-billed Curlew	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): Very rare visitor during spring (March –April) and autumn (September-November). During the reporting period 1, yet unverified record from 2001. Record is scrutinised by the Hungarian Rarities Commit tee.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the potential habitats for the species lie in protected areas <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species:

	Activities mentioned above are to be continued in the future.
--	---

<i>Species Acrocephalus paludicola</i> – Common Name(s) Aquatic Warbler	
1	Is your country a Range State for this species? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
3	Summarise information on population size, trends and distribution (if known): It's breeding in the Hortobágy region was first reported in 1971. Since then the number of individuals reached 700 singing males. It is rare on passage in other regions of the country.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: co-ordinated by the Hortobágyi National Park Directorate <input checked="" type="checkbox"/> Habitat protection: the majority of the population breeds within the boundaries of protected areas; those breeding grounds that are yet unprotected are subject to future protection <input checked="" type="checkbox"/> Habitat restoration: shallow artificial spring flooding of habitats <input type="checkbox"/> Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
6	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future. The Hungarian population will all be included in Natura 2000 as Special Protection Area.

If you have information indicating that your country should be considered a Range State for any other bird species that is listed in CMS Appendix I, but which is not included in the tables above, please complete a table (provided below) for each species.

<i>Species Vanellus gregarius</i> , Common Name(s): Sociable Lapwing	
1	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae.
2	Summarise information on population size, trends and distribution (if known): Very rare vagrant. About one record every three years.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input checked="" type="checkbox"/> Monitoring: regular waterbird census <input checked="" type="checkbox"/> Habitat protection: most of the potential habitats for the species are within the boundaries of protected areas <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
5	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

<i>Species Geronticus eremita</i> , Common Name(s):	
---	--

1	Please provide published distribution reference: -
2	Summarise information on population size, trends and distribution (if known): 3 individuals were reported from Tótvázsony in October 1998, proven escapes from a zoo.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring: <input type="checkbox"/> Habitat protection: most of the potential habitats for the species are within the boundaries of protected areas <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
5	Describe any future activities that are planned for this species: None.

Species Marmaronetta angustirostris Common Name(s): Marbled Teal

1	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
2	Summarise information on population size, trends and distribution (if known): Very rare vagrant. 6 accepted records, the last from 1981.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring: <input checked="" type="checkbox"/> Habitat protection: most of the potential habitats for the species are within the boundaries of protected areas <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
5	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

Species Falco neumannii Common Name(s): Lesser Kestrel

1	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
2	Summarise information on population size, trends and distribution (if known): Bred in Hungary until the 19 th . century, now only a vagrant (April-September)
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring: <input checked="" type="checkbox"/> Habitat protection: potential habitats for the species are ensured <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other

4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
5	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.
<i>Species Tryngites subruficollis</i> Common Name(s): Buff-breasted Sandpiper	
1	Please provide published distribution reference: Magyar, G., Hadarics, T., Waliczky, Z., Schmidt, A., Nagy, T., Bankovics, A., 1998. Nomenclator Avium Hungariae
2	Summarise information on population size, trends and distribution (if known): Very rare vagrant, three accepted records, all of them in the last decade.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring: <input checked="" type="checkbox"/> Habitat protection: potential habitats for the species are ensured <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n. a.
5	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine mammals: n. a. Hungary is not a range state for any marine mammal species.
2	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I marine mammals:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

2.2 Questions on specific Appendix I marine mammals

If you have information indicating that your country should be considered a Range State for any marine mammal species that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i>	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration

	<input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine turtles: n. a. Hungary is not a range state for any marine turtle species.
2	Is the taking of all Appendix I marine turtles prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I marine turtles is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I marine turtles:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

3.2 Questions on specific Appendix I marine turtles

If you have information indicating that your country should be considered a Range State for any marine turtle species that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i>	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration

	<input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

4.1 General questions on Appendix I terrestrial mammals (other than bats)

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed terrestrial mammals (other than bats): n. a. Hungary is not a range state for any Appendix I. terrestrial mammal species (other than bats).
2	Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats):
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats), including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors which limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

If you have information indicating that your country should be considered a Range State for any terrestrial mammal species (other than bats) that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i>	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration

	<input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

5 BATS

5.1 General questions on Appendix I bats

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed bats: n.a. Hungary is not a range state for any Appendix I. bat species.
2	Is the taking of all Appendix I bats prohibited by the national implementing Legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bats is prohibited by law, have any exceptions Been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I bats:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

5.2 Questions on specific Appendix I bat species

If you have information indicating that your country should be considered a Range State for any bat species that is listed in CMS Appendix I, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i>	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration

	<input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

6 OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above: n.a. Hungary is not a range state for any Appendix I. bat species.
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?

6.2 Questions on specific Appendix I species belonging to other taxa

If you have information indicating that your country should be considered a Range State for any Appendix I listed species that belongs to taxa not included in sections 1-5 above, please complete a table (provided below) for each species.

<i>Species name, Common name(s):</i>	
1	Please provide published distribution reference:
2	Summarise information on population size, trends and distribution (if known):
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <input type="checkbox"/> Research <input type="checkbox"/> Monitoring

	<input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species not currently listed in Appendix I? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:
1a	Is your country taking any steps to propose listing any of these species? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
1b	What assistance, if any, does your country require to initiate the listing of these species?

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the secretariat each of the Agreement/MoUs to which your country is a Party.

GREAT BUSTARD MoU (2001)	
Date of last report:	Period covered:
SLENDER-BILLED CURLEW MoU (1994)	
Date of last report: October 1995	Period covered: - 1995
EUROBATS (1994)	
Date of last report: 2001	Period covered: January 2000 – February 2001
AEWA (not party yet)	
Date of last report: -	Period covered: -

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the Conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development Of any CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II bird species? If Yes, please provide details: MoU concerning conservation measures for the Aquatic Warbler (<i>Acrocephalus paludicola</i>)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? No assistance is needed.	
4	Is the development of any CMS Agreement for birds, including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.2 Questions on CMS Agreements relating to marine mammals

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the Conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development Of any CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II marine mammal species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	

	n.a.	
4	Is the development of any CMS Agreement for marine mammals, including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.3 Questions on CMS Agreements relating to marine turtles

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the Conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development Of any CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II marine turtles? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? n. a.	
4	Is the development of any CMS Agreement for marine turtles, including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.4 Questions on CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation Needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development Of any CMS Agreements, including Memoranda of Understanding, which address The conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? n. a.	
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), Including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.5 Questions on CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? n. a.	

4	Is the development of any CMS Agreement for bats, including Memorandum of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
---	--	------------------------------	--

2.6 Questions on CMS Agreements relating to other taxa

1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? n. a.		
4	Is the development of any CMS Agreement for other taxa, including Memorandum of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
1b	What assistance, if any, does your country require to initiate the listing of this/these species? n. a.		

IV. National and Regional Priorities

1	Does the conservation of migratory species currently feature in any national or regional policies/plans (apart from CMS Agreements) <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:																											
1a	Do these policies/plans cover the following areas (if yes, please provide details): <table style="width: 100%; border: none;"> <thead> <tr> <th style="text-align: left; width: 10%;">Yes</th> <th style="text-align: left; width: 10%;">No</th> <th style="width: 80%;"></th> </tr> </thead> <tbody> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Economic development</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Land-use planning</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Designation and development of reserves</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Development of ecological networks</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Planning of powerlines</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Planning of fences</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Planning of dams</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Other</td> </tr> </tbody> </table>	Yes	No		<input type="checkbox"/>	<input type="checkbox"/>	Economic development	<input type="checkbox"/>	<input type="checkbox"/>	Land-use planning	<input type="checkbox"/>	<input type="checkbox"/>	Designation and development of reserves	<input type="checkbox"/>	<input type="checkbox"/>	Development of ecological networks	<input type="checkbox"/>	<input type="checkbox"/>	Planning of powerlines	<input type="checkbox"/>	<input type="checkbox"/>	Planning of fences	<input type="checkbox"/>	<input type="checkbox"/>	Planning of dams	<input type="checkbox"/>	<input type="checkbox"/>	Other
Yes	No																											
<input type="checkbox"/>	<input type="checkbox"/>	Economic development																										
<input type="checkbox"/>	<input type="checkbox"/>	Land-use planning																										
<input type="checkbox"/>	<input type="checkbox"/>	Designation and development of reserves																										
<input type="checkbox"/>	<input type="checkbox"/>	Development of ecological networks																										
<input type="checkbox"/>	<input type="checkbox"/>	Planning of powerlines																										
<input type="checkbox"/>	<input type="checkbox"/>	Planning of fences																										
<input type="checkbox"/>	<input type="checkbox"/>	Planning of dams																										
<input type="checkbox"/>	<input type="checkbox"/>	Other																										

V. Policies on Satellite Telemetry

1	In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Indicate inter alia the scientific justification for the research, describe briefly the measures taken to ensure that risks to the welfare of individual animals and – in the case of severely depleted populations – to the species are minimised, and summarise the results obtained):
2	Are any future conservation/research projects planned that will use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (including the expected timeframe for these projects): A LIFE Nature application is submitted to the European Commission, which is likely to be awarded. It would be a complex nature conservation research of the Imperial Eagle (<i>Aquila heliaca</i>) and would use satellite and radio telemetry as well. The timeframe of the project is 2002-2005. If No, please explain any impediments or requirements in this regard:

VI. Membership

1	Have actions been taken by your country to encourage non-Parties to join CMS and its related Agreements? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)
1a	Identify the agency, department or organization responsible for leading on this action in your country: Authority for Nature Conservation of the Hungarian Ministry for Environment

VII. Global and National Importance of CMS

1	Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	Identify the agency, department or organization responsible for leading on this action in your country: Authority for Nature Conservation of the Hungarian Ministry for Environment	

VIII. Mobilization of Resources

1	Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? If Yes, please provide details: A Conservation Program for the Great Bustard has been launched partly with governmental funding. A certain proportion of the national park directorates' budget is used for the conservation of protected and strictly protected species and their habitats, including most of the Annex I. and II. migratory species. There have been many projects funded from the Central Environmental Fund in the reporting period for the restoration of habitats for Annex II. bat and bird species and the protection of the species themselves (e.g. national survey of artificial underground pits to identify important bat habitats; bat-friendly closure of certain caves and underground pits; wetland restoration; monitoring of Lesser White-fronted Goose on the Hortobágy; etc.)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
6	Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

IX. Implementation of COP Resolutions and Recommendations

Please summarize the measures undertaken by your country to implement the substantive, operational Resolutions and Recommendations adopted by the Conference of the Parties, where these have not been mentioned elsewhere in this report, giving particular emphasis to those adopted by at the Sixth Meeting (Cape Town, November 1999).

None, apart from those mentioned previously.

Other remarks: None.

Annex: Questions on specific Appendix II species

The tables below contain the list of all species listed in Appendix II. Boxes have been checked to indicate the species for which your country is considered to be a Range State. Please amend the boxes where appropriate. (If you wish to provide further information on any of these species, please attach as an annex.) Please also provide published distribution references where available.

Species	Range State	Not a Range State	Extinct	No information available	Published distribution reference
CHIROPTERA					
<i>Rhinolophus ferrumequinum</i> (only European populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Rhinolophus hipposideros</i> (only European populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Rhinolophus euryale</i> (only European populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Rhinolophus mehelyi</i> (only European populations)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex.)
