1a	If more than one government department is involved, describe the interaction/relationship between these government departments: All institutions are under the Ministry of Natural Resources & Tourism, and there is an appointed committee to work on migratory Species
2	List the main non-governmental organizations actively involved in initiatives for the conservation of migratory species in your country, and describe their involvement: Wildlife Conservation Society of Tanzania (WCST), World Wide Fund for Nature (WWF). WCST is working with the Important Bird Areas (IBAs) and their conservation as well as being engaged with the international efforts to draw up an action plan for Blue Swallow. WWF is involved in a number of conservation activities in Tanzania including site management and policy issues. Of particular interest in relation to the marine turtles is the marine turtle and Dugong program linked up with the WWF-Mafia project.
3	Describe any involvement of the private sector in the conservation of migratory species in your country: Neil & Liz Baker are compiling information for a Tanzanian Bird Atlas and members to the AEWA Sub-Committee in Tanzania.
4	Note any interactions between these sectors in the conservation of migratory species in your country: A Wetlands Working Group has been formed, which draws all important stakeholders in the wetland sector and a AEWA Sub-Committee has been formed under the group by different institutions and the private sector. Furthermore, a Marine Turtle Committee has been formed under Marine Parks and Reserves.

3	Identify any obstacles to migration that exist in relation to Appendix I bird species: Habitat fragmentation and loss of habitat.
3a	What actions are being undertaken to overcome these obstacles? Tanzania is participating in the development of an international species action plan for Blue Swallow and a National Action Plan will be developed in 2003. Local people are encouraged by the law to aside land for conservation purposes. A benefit sharing mechanism is being developed

4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))? Regular enforcement of the wildlife law on importation and exportation of birds 1998 wildlife policy prohibit introduction of exotic species. The wildlife law is being reviewed to take on board policy aspirations.
4a	Describe any factors that may limit action being taken in this regard: Persistent lack of human resources amid low or inferior technology
4b	What assistance, if any, does your country require to overcome these factors? Provision of advanced technology in monitoring to off set shortage or the need for large number of human resources
