RECREATIONAL IN-WATER INTERACTION WITH AQUATIC MAMMALS
UNEP/CMS/COP12/DOC.24.2.5

RECOMMENDATIONS TO COP12

- Recommended for adoption.

GENERAL COMMENTS ON THE DOCUMENT

- The Council agrees this is an emerging issue, important that it is brought to the attention of Parties.
- With reference to paragraph 41 of the report (Annex 1), in addition, it should be noted that the ACCOBAMS High Quality Whale Watching label is only given to operators that don't offer in-water interactions.
- Potential gap: swim-with programmes operating in international waters
- The spreadsheet gathering information on such programmes should be updated as information becomes available.
