

CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/SA-2/Doc/6
23 August 2010

Original: English

SECOND MEETING OF THE SIGNATORIES TO THE
MEMORANDUM OF UNDERSTANDING CONCERNING
CONSERVATION, RESTORATION AND SUSTAINABLE
USE OF THE SAIGA ANTELOPE (*Saiga tatarica tatarica*)
Ulaanbaatar, Mongolia, 7-10 September 2010
Agenda Item 9.0

REVIEW OF MOU AND ACTION PLAN IMPLEMENTATION

(Note prepared by the CMS Secretariat)

1. Every meeting of the Signatories is to review the conservation status of the Saiga Antelope and the implementation of the Action Plan, taking into consideration national reports submitted by the Signatories, the Secretariat's Overview Report, other sources of available information as well as any recommendation or scientific advice relating to the Saiga Antelope that may have been made by the CMS Conference of the Parties or the Scientific Council (CMS Articles III (6), VII (5) (e) and VIII (5) (a)).
2. Pursuant to MoU paragraph 6, and with the assistance of the Antelope Specialist Group (ASG) of the IUCN Species Survival Commission and the Saiga conservation Alliance (SCA), the Secretariat has prepared an overview report compiled on the basis of information available. The Overview Report is provided as document CMS/SA-2/Doc/6/Add.1.
3. The Secretariat has made available the Overview Report to all Signatories, the cooperating organisations that have signed the MoU and to all other non-signatory Range States.
4. Agenda item 9.0 will be considered in two parts during the meeting: (1) conservation status of the Saiga Antelope and (2) status of implementation of the MoU and Medium-Term International Work Programme.

Conservation Status of the Saiga Antelope

5. The Overview Report provides a brief summary of the Saiga Antelope's conservation status within the agreement area.
6. "Conservation status" is not defined in the MoU. But it is defined in the Convention as "the sum of influences acting on the migratory species that may affect its long-term distribution and abundance" (CMS Article I (1)(b)).
7. The meeting is invited to consider the Overview Report's treatment of the Saiga Antelope's conservation status and provide comments or any other additional information.

Action requested:

The Signatories, and where appropriate other meeting participants, are requested to *inter alia*:

- (a) Take note of that section of the Secretariat's Overview Report addressing the conservation status of the Saiga antelope and provide additional information not yet reflected, as well as guidance on how the report could be improved if necessary.

Status of Implementation of the MoU and Action Plan

8. The MoU and Action Plan provide the general substantive framework for action within the agreement area. The MoU's substantive provisions are found in paragraph 1 (provide effective protection for the Saiga Antelope and conserve, restore and sustainably use habitats and ecosystems important for its long-term survival), paragraph 2 (implement the Action Plan subject to the availability of resources), and paragraph 4 (facilitate exchange of scientific, technical and legal information to coordinate conservation measures; co-operate with other states, inter-governmental and non-governmental organisations).

9. The Action Plan has three objectives. Each Signatory should have reported in its national report on the status of implementing those actions associated with the objectives that are most relevant to its national circumstances. A national report format (CMS/SA-2/Inf/8) had been provided to facilitate this.

10. The Secretariat's Overview Report summarizes the information received and available from the national reports. This information was supplemented by information generally available to the ASG and the Secretariat, through their networks, as well as project-related information compiled from a survey undertaken and summarised in document UNEP/CMS/SA-2/Inf/15. The Overview Report attempts to create a general picture of the status of the MoU and Action Plan's implementation and, where possible, their effectiveness. More detailed information on activities carried out against specific action points is provided in a report on progress towards implementation of the Medium Term International Work Programme, made available as document UNEP/CMS/SA-2/Doc/5/Rev.2).

Action requested:

The Signatories, and where appropriate other meeting participants, are requested to *inter alia*:

- (b) Share additional information on the status of the MoU and Action Plan's implementation.
- (c) Identify implementation gaps by country and the possible means to fill the gaps.
- (d) Identify country-level priorities for the next 5-10 years.
- (e) Indicate whether the Overview Report and the Summary of Saiga-related Project Activities are useful and appropriate and/or need to be improved.
