

CONVENTION SUR ESPÈCES MIGRATRICES

Distr.
GENERAL

PNUE/CMS/Inf. 8.2
31 Octobre 2005

FRANÇAIS
ORIGINAL: ANGLAIS

HUITIEME SESSION DE LA
CONFERENCE DES PARTIES
Nairobi, 20-25 Novembre 2005

LISTE DES ETATS DE L'AIRE DE REPARTITION DES ESPECES MIGRATRICES APPARTENANT A LA FAUNE SAUVAGE FIGURANT AUX ANNEXES DE LA CMS

1. La présente liste a été établie par le Secrétariat au sens de l'Article IX, paragraphe 4f), de la Convention sur la base d'informations fournis par les Parties et complétée par d'autres sources. Elle comprend les espèces ajoutées par la Conférence des Parties lors de sa première, sa deuxième, sa troisième, sa quatrième et sa cinquième session (Bonn : 1985, Genève : 1988, 1991, Nairobi : 1994, Genève : 1997, et Le Cap : 1999), respectivement.
2. Conformément aux instructions pertinentes de la 10ème réunion du Conseil scientifique de la CMS, une version provisoire de cette liste a été envoyée à tous les membres du Conseil en juin 2002, en sollicitant son examen et des commentaires éventuels.
3. Dans le présent contexte, l'expression "Etat de l'aire de répartition" s'entend au sens précisé au paragraphe 1 de l'Article I de la Convention :

"..."

f) "Aire de répartition" signifie l'ensemble des surfaces terrestres ou aquatiques qu'une espèce migratrice habite, fréquente temporairement, traverse ou survole à un moment quelconque le long de son itinéraire habituel de migration;

...

h) "Etat de l'aire de répartition" signifie, pour une espèce migratrice donnée, tout Etat et, le cas échéant, toute autre Partie visée au sous-paragraphe k) ci-dessous qui exerce sa juridiction sur une partie quelconque de l'aire de répartition de cette espèce migratrice, ou encore un Etat dont les navires battant son pavillon procèdent à des prélèvements sur cette espèce en dehors des limites de juridiction nationale;

...

k) "Partie" signifie un Etat ou toute organisation d'intégration économique régionale constituée par des Etats riverains et ayant compétence pour négocier, conclure et appliquer des accords internationaux dans les matières couvertes par la présente Convention, à l'égard desquels la présente Convention est en vigueur".

4. La présente liste est soumise à la Conférence afin :

- d'aider les Parties à déterminer si elles sont des Etats de l'aire de répartition au sens défini ci-dessus;
- d'aider la Conférence des Parties à faire des recommandations aux Parties afin d'améliorer l'état de conservation des espèces migratrices et à passer en revue les progrès réalisés en vertu d'Accords; et
- de fournir les renseignements de base nécessaires au Comité scientifique pour qu'il puisse envisager les mesures de conservation appropriées pour les espèces énumérées aux Annexes I et II, recommander de telles mesures à la Conférence des Parties ou coordonner leur application.

5. Afin que la liste soit tenue à jour, les Parties tiennent, en vertu du paragraphe 2 de l'Article VI de la Convention, le Secrétariat informé des espèces migratrices figurant aux Annexes I et II à l'égard desquelles elles se considèrent Etats de l'aire de répartition et fournissent, entre autres, des informations sur les navires battant leur pavillon qui, en dehors des limites de juridiction nationale, se livrent à des prélèvements sur les espèces migratrices concernées et, dans la mesure du possible, sur leurs projets relatifs à ces prélèvements.

Notes

1. Les noms de places figurant sur la liste correspondent à ceux utilisés au Bulletin de Terminologie No. 347/Rev.1 (Organisation des Nations Unies, 1997) tels qu'amendés, et à la Norme Internationale ISO 3166 (Organisation internationale de normalisation, 1988), tels qu'amendés. Les noms de plusieurs pays ont été inversés pour faciliter la référence, comme suit: Congo, République démocratique du; Corée, République de; Corée, République démocratique populaire de; Macédoine, l'ex-République yougoslave de; et Tanzanie, République-Unie de. Conformément à ce qui précède, il y a, dans la liste, certains noms abrégés, notamment: Royaume-Uni de Grande-Bretagne et d'Irlande du Nord (Royaume-Uni); et Etats-Unis d'Amérique (Etats-Unis).
2. Les appellations employées dans la présente liste et la présentation des données qui y figurent n'impliquent, de la part du Secrétariat, aucune prise de position quant au statut juridique de tel ou tel pays, territoire ou région ou de ses autorités, ni quant au tracé de ses frontières ou limites.
3. Les noms des Etats de l'aire de répartition étant Parties à la Convention à partir du 1er octobre 2002, sont indiqués en caractères majuscules, comme par exemple "**ARGENTINE**". Au cas où une Partie à la Convention aurait fait une réserve à l'égard d'une espèce donnée, le nom de cette même Partie est indiqué en caractères normaux et souligné, comme par exemple "Norvège".
4. Le cas échéant, les territoires dépendants, les départements d'outre-mer, les provinces et les états sont placés entre parenthèses après le nom du pays dont il s'agit selon l'usage suivant. La mention "**ROYAUME-UNI** (Montserrat)" signifie que seulement cette île de Montserrat mais non la Grande-Bretagne métropolitaine doit être considérée comme constituant une partie de l'aire de répartition d'une espèce particulière, alors que la mention "**ROYAUME-UNI** (y compris Montserrat)" signifie que l'aire de répartition englobe aussi bien la Grande-Bretagne métropolitaine que l'île de Montserrat. Dans le cas où la Convention ne se rapporterait pas à un territoire dépendant, un département d'outre-mer d'une Partie, etc., la mention figure en caractères normaux, comme par exemple "Danemark (Groenland)".
5. "(?)" after a country listing denotes unconfirmed sightings
6. La mention "(Ex)" après le nom d'un pays signifie que le taxon est éteint dans ce pays. Quelques espèces ne sont que disparues récemment dans ces pays; au cas où elles se rétabliraient en nombre il est possible qu'elles retournent dans certaines régions de leur ancienne aire de répartition. Pour cette raison, le nom de ces pays figure également sur la liste.
7. La mention "eaux internationales" indique qu'une espèce migre dans les mers ou océans ou au-dessus des mers ou océans situés au-delà des limites de juridiction nationale, espace qui relève de la portée de la Convention au sens de l'Article I, paragraphe 1f) et h), de la Convention. Le texte figurant entre parenthèses indique les régions de ces eaux où a lieu la migration.
8. Il n'est fait aucune distinction dans la présente liste entre les différentes catégories d'utilisation et de fréquentation connues des sites. Par conséquent, nombre des pays qui sont énumérés en tant qu'Etats de l'aire de répartition pour une espèce donnée, par ex. *Numenius tenuirostris*, ont été identifiés comme tels en se basant sur des observations d'individus errants plutôt que sur des comportements migratoires établis, selon les renseignements disponibles.
9. En ce qui concerne les oiseaux dont les noms figurent à l'Annexe II, la présente liste ne comporte que des espèces individuelles et des taxons qui comptent un nombre restreint d'espèces. Il est envisagé de préciser des Etats de l'aire de répartition pour des taxons englobant un nombre important d'espèces en connexion avec des négociations sur des Accords relatifs à des espèces données ou des groupes d'espèces.
