

Convention on the Conservation of Migratory Species of Wild Animals

Format for reports of Parties on implementation of the Convention on the Conservation of Migratory Species of Wild Animals (revision of June 2003)

Reporting format agreed by the Standing Committee at its 26th Meeting (Bonn, June 2003) for mandatory use by Parties, for reports submitted to the Eighth Meeting of the Conference of the Parties (COP8) (Nairobi, 2005).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

<u>Please refer to the separate instructions on completing the report.</u> Parties are encouraged to respond to all questions, since it cannot be assumed that the absence of a response indicates that no activities taken have place in the current reporting period. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Which agency has been primarily responsible for the preparation of this report?		
List any other agencies that have provided input:		

I(a). General Information

Please complete any unfilled boxes and amend and/or update as appropriate the information provided in the table below:

Reports submitted:	1988, 1991, 1994, 1997, 1999
Period covered by this report:	
Date of entry into force of the Convention in Sweden:	1 November 1983
Territory to which the Convention applies:	Sweden
Reservations (against species listings):	None
Designated Focal Point: Dr Klas Allander Swedish Environmental Protection Agency (SEPA) Blekholmsterrassen 36 10648 Stockholm Sweden Tel.: (+46 8) 698 85 39 Fax: (+46 8) 698 1402 E-mail: klas.allander@naturvardsverket.se	Appointment to the Scientific Council: Ph.D. Torbjörn Ebenhard Scientific Research Director The Swedish Biodiversity Centre P.O. Box 7007 75007 Uppsala Sweden Tel.: (+46 18) 67 22 68 Fax: (+46 18) 67 35 37 E-mail: torbjorn.ebenhard@cbm.slu.se

I(b). Additional General Information

1	Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)
	National Board of Fisheries
	County administrative Boards
1a	If more than one government department is involved, describe the interaction/relationship between these government departments:
	National Board of Fisheries, Swedish Environmental Protection Agency, collaborating on the action plan for the common porpoise.
2	List the main non-governmental organizations actively involved in initiatives for the conservation of migratory species in your country, and describe their involvement:
	Swedish Association for Hunting and Wildlife Management, Swedish Ornitological Society, Swedish Society for nature Conservation, WWF
3	Describe any involvement of the private sector in the conservation of migratory species in your country:
	Private land owners build waters for waterfowl, Private companies engage in crane migration around Lake Hornborgarsjön.
4	Note any interactions between these sectors in the conservation of migratory species in your country:
	Environmental monitoring, a lot of volunteers engaging in birds counts and monitoring of breeding birds. Collaboration between SEPA, the Swedish Ornitological Society and Swedish Society for Nature Conservation in the protection of species and management of protected areas. A compensation system to farmers for damage made by migratory geese and cranes on crops.

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I bird species:
	Swedish Environmental Protection Agency Swedish Ornithological Society, Swedish Society for Nature Conservation, Swedish Association for Hunting and Wildlife Management
2	Is the taking of all Appendix I bird species prohibited by the national implementing Yes No legislation cited in Table I(a) (General Information)?
	If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I bird species is prohibited by law, have any exceptions Yes No been granted to the prohibition?
	If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I bird species:
	Discharge of oil in the Baltic sea
3a	What actions are being undertaken to overcome these obstacles?
	Increased supervision by the coast guard, the prosecution of violators have been facilitated.
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
	Hunting of Ruddy duck is now allowed through out the whole year and information on the genetic problem have been spread
4a	Describe any factors that may limit action being taken in this regard:
	Some people oppose the killing of alien birds
4b	What assistance, if any, does your country require to overcome these factors?

1.2 Questions on specific Appendix I bird species

The following section contains a table for each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

Spe	Species Haliaeetus albicilla – Common Name(s) White-tailed Eagle		
1	Is your country a Range State for this species?	☐ No	
2	Please provide published distribution reference: Swedish atlas of birds, 1999. Birds in Europe 2004. Series 12.	Birdlife International,	
3	Summarise information on population size, trends and distribution (if known):		
	260-280 pairs, increasing		

4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Project White-tailed eagle. Swedish Society for Nature Conservation att: Björn Helander
	⊠ Research
	Monitoring
	⊠ Species protection
	Species restoration
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spec	cies Aquila clanga – Common Name(s) Greater Spotted Eagle
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
	Vagrants are observed annually, but no breeding or regularly migrating population.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	☐ Species protection
	☐ Species restoration
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spec	cies Anser erythropus - Common Name(s) Lesser White-fronted Goose
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
	Total population 80-90 individuals, breeding population 10-15 pairs, stable or slowly increasing. Re-introduced in former breeding area in Northern Sweden
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) Research

	Habitat restoration
	☐ Other Breeding in captivity for future release
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
	A national Action Plan is being prepared. Efforts are taken to import Russian wild birds as a new population in captivity for future release-
Spec	cies Aythya nyroca – Common Name(s) Ferruginous Pochard, Ferruginous Duck
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
	Vagrants are observed annually, but no breeding or regularly migrating population.
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) Research
	☐ Species protection
	☐ Species restoration
	☐ Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
6	Describe any future activities that are planned for this species:
Spec	cies Polysticta stelleri – Common Name(s) Steller's Eider
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
	5-20 winter population

4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)	
	Research	
	Monitoring Bird watchers	
	☐ Species protection	
	☐ Species restoration	
	Habitat protection Increased supervision by the coast guard for oil discharge	
	Habitat restoration	
	Other	
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?	
6	Describe any future activities that are planned for this species:	
listed specie		
	cies name, Common Name(s): Branta ruficollis – Common name: Red-breasted goose	
1	Please provide published distribution reference: Birds in Europe 2004. Birdlife International, Series 12.	
2	Summarise information on population size, trends and distribution (if known):	
	Vagrants are observed annually, but no breeding or regularly migrating population.	
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.) Research	
	Species protection	
	☐ Species restoration	
	Habitat protection	
	Habitat restoration	
	☐ Other	
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?	
5	Describe any future activities that are planned for this species:	
1		
Misc	cellaneous information or comments on Appendix I birds in general:	
	Isolated specimens of Aquatic Warbler (<i>Acrocephalus paludicola</i>), Imperial Eagle (<i>Aquila heliaca</i>)., Lesser Kestrel (<i>Falco naumanni</i>), Steppe Eagle (<i>Aquila nipalensis</i>) have been recorded.	

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed

2	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? If at an legislation is relevant release provide details:
	If other legislation is relevant, please provide details:
2a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions Yes No been granted to the prohibition?
	If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I marine mammals:
	No obstacles
3a	What actions are being undertaken to overcome these obstacles?
	Not applicable
3b	What assistance, if any, does your country require in order to overcome these obstacles?
	Not applicable
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?
2.2 Questions on specific Appendix I marine mammals The following section contains a table for each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)	
Spec	cies Balaenoptera musculus – Common Name(s) Blue Whale
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
	Vagrant

marine mammals:

4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)
	Research
	☐ Monitoring
	Species protection
	Species restoration
	Habitat protection
	Habitat restoration
	Other
5	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
3	If no activities have been earlied out for this species in the reporting period, what has prevented such action being taken.
6	Describe any future activities that are planned for this species:
C	-i Magantana wawanaka Camman Nama(a) Humahash Whala
	cies Megaptera novaeangliae – Common Name(s) Humpback Whale
1	Is your country a Range State for this species?
2	Please provide published distribution reference:
3	Summarise information on population size, trends and distribution (if known):
4	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available.)

	☐ Habitat restoration	
	Other	
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?	
5	Describe any future activities that are planned for this species:	
•		
Misc	Miscellaneous information or comments on Appendix I marine mammals in general:	
Baleen whales are very rare in Swedish waters		

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed marine turtles:	
	Not applicable	
2	Is the taking of all Appendix I marine turtles prohibited by the national implementing Yes No legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	
2a	If the taking of Appendix I marine turtles is prohibited by law, have any exceptions Yes No been granted to the prohibition?	
	If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	
3	Identify any obstacles to migration that exist in relation to Appendix I marine turtles:	
3a	What actions are being undertaken to overcome these obstacles?	
3b	What assistance, if any, does your country require in order to overcome these obstacles?	
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?	
4a	Describe any factors that may limit action being taken in this regard:	
4b	What assistance, if any, does your country require to overcome these factors?	
3.2 Questions on specific Appendix I marine turtles If you have information indicating that your country should be considered a Range State for any marine turtle species that is listed in CMS Appendix I, please complete a table (provided below) for each species.		
Spec	cies name, Common name(s):	
1	Please provide published distribution reference:	
2	Summarise information on population size, trends and distribution (if known):	
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):	

ResearchMonitoring

	☐ Species protection
	☐ Species restoration
	Habitat protection
	☐ Habitat restoration

Miscenaneous information of confinents on Appendix I bats in general.		

6 OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above:
	Not applicable
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? If other legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition?
	If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above:
3a	What actions are being undertaken to overcome these obstacles?
3b	What assistance, if any, does your country require in order to overcome these obstacles?
4	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above, including strictly controlling the introduction of, or controlling or eliminating, already introduced exotic species (Article III(4)(c))?
4a	Describe any factors that may limit action being taken in this regard:
4b	What assistance, if any, does your country require to overcome these factors?
	6.2 Questions on specific Appendix I species belonging to other taxa

If you have information indicating that your country should be considered a Range State for any Appendix I listed species that belongs to taxa not included in sections 1-5 above, please complete a table (provided below) for each species.

Species name, Common name(s):				
1	Please provide published distribution reference:			
2	Summarise information on population size, trends and distribution (if known):			
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research			
	☐ Monitoring			

	☐ Species protection	
	☐ Species restoration	
	Habitat protection	
	Habitat restoration	
	☐ Other	
4	If no activities have been carried out for this species in the reporting period, what has pr	evented such action being taken?
5	Describe any future activities that are planned for this species?	
Misc	cellaneous information or comments on Appendix I species that belong to taxa not include	d in sections 1-5 above:
	7 LISTING OF OTHER ENDANGERED MIGRATORY SPECI	ES IN APPENDIX I
1	Is your country a Range State for any other endangered migratory species not currently listed in Appendix I? If Yes, please provide details:	☐ Yes ⊠ No
1a	Is your country taking any steps to propose listing any of these species?	☐ Yes ⊠ No
	If Yes, please provide details:	
1b	What assistance, if any, does your country require to initiate the listing of these species?	,

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the secretariat each of the Agreement/MoUs to which your country is a Party.

EU	ROBATS (1994)		
Date	e of last report: april 2004	Period covered: 2001-2004	
ASC	COBANS (1994)		
Date	e of last report: 2005-03-30	Period covered: 2004	
AE	WA (1999)		
Date	e of last report: 2005-03-18	Period covered: 2002-2004	
	2. Questions on	QUESTIONS ON CMS AGREEMENT the development of new CMS Agreement	
1		-	☐ Yes ⊠ No
2		s your country participated in the development g Memoranda of Understanding, which address ix II bird species?	☐ Yes ⊠ No
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS A Understanding, planned by your countries of the standard of th	greement for birds, including Memoranda of ountry in the foreseeable future?	☐ Yes ⊠ No
	2.2 Questions on the development of new CMS Agreements relating to marine mammals		
1		•	☐ Yes ⊠ No
2	In the current reporting period, has	s your country participated in the development g Memoranda of Understanding, which address	☐ Yes ⊠ No

If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?

4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future?	Yes	⊠ No
	If Yes, please provide details:		
	2.3 Questions on the development of new CMS Agreements relatin	g to mari	ine turtles
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles?	☐ Yes	⊠ No
	If Yes, what is the current state of development?		
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles?	☐ Yes	⊠ No
	If Yes, please provide details:		
3	If your country has initiated or is participating in the development of an Agreement or Mem what assistance, if any, does your country require in order to initiate or participate in the instance.		
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	☐ Yes	⊠ No
	/1 1		
	2.4 Questions on the development of new CMS Agreements relating mammals (other than bats)	ting to ter	restrial
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)?	Yes	⊠ No

4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future?	
	If Yes, please provide details:	
	2.6 Questions on the development of new CMS Agreements relating to other taxa	
1	In the current reporting period, has your country initiated the development of any CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above?	
	If Yes, what is the current state of development?	
2	In the current reporting period, has your country participated in the development of any CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above?	
	If Yes, please provide details:	
3	If your country has initiated or is participating in the development of an Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	
3. LISTING OF MIGRATORY SPECIES IN APPENDIX II		
1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? If Yes, please provide details:	
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? Yes No	
	If Yes, please provide details:	
1b	What assistance, if any, does your country require to initiate the listing of this/these species?	

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues?									
2	Are migratory species and their habitats addressed by your country's national Yes No									
	biodiversity strategy or action plan?									
	National Environmental Objectives, National species action plans, EU Natura 2000 network,									
	If Yes, please indicate and briefly describe the extent to which it addresses the following issues:									
	X Conservation, sustainable use and/or restoration of migratory species. Project concerning <i>Anser erythropus</i> – Lesser White-fronted Goose									
	Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas									
	Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch) Hunting of Ruddy duck (<i>Oxyura jamaicensis</i>), protective measures for by-catch of the common porpoise (<i>Phocoena phocoena</i>)									
	Minimising or eliminating barriers or obstacles to migration									
	Research and monitoring of migratory species									
	Transboundary co-operation									
3	Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements) If Yes, please provide details:									
	EU Natura 2000 network									
3a	Do these policies/plans cover the following areas (if Yes, please provide details):									
	Yes No									
	Exploitation of natural resources (e.g. fisheries, hunting, etc.)									
	☐ Land-use planning									
	□ Pollution control									
	□ Designation and development of protected areas									
	□ Development of ecological networks									
	☐ ☐ Planning of powerlines									
	☐ ☐ Planning of fences									
	☐ Planning of dams									
	Other									
	V. Protected Areas									
1	Are migratory species taken into account in the selection, establishment and management of protected areas in your country?									
	If Yes, please provide details: EU Natura 2000 network, marine reserves,									
1a	Do these protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas):									
	Yes No									
	☐ Terrestrial									

	Aquatic Aquatic
	Marine Marine
1b	Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency, County administrative boards
	VI. Policies on Satellite Telemetry
1	In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry?
	If Yes, please provide details (Indicate <i>inter alia</i> the scientific justification for the research, describe briefly the measures taken to ensure that risks to the welfare of individual animals and – in the case of severely depleted populations – to the species are minimised, and summarise the results obtained): Introduction of seals from captivity
2	Are any future conservation/research projects planned that will use
2	satellite telemetry? If Yes, please provide details (including the expected timeframe for these projects):
	If No, please explain any impediments or requirements in this regard:
	VII. Membership
1	Have actions been taken by your country to encourage non-Parties
1	to join CMS and its related Agreements?
1	
1 1a	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by
	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)
	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country:
	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency
1a	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency VIII. Global and National Importance of CMS Have actions been taken by your country to increase national, regional
1a	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency VIII. Global and National Importance of CMS Have actions been taken by your country to increase national, regional
1a	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency VIII. Global and National Importance of CMS Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? If Yes, please provide details: Identify the agency, department or organization responsible for leading on this action in your country:
1a	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency VIII. Global and National Importance of CMS Have actions been taken by your country to increase national, regional
1a 1 2	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency VIII. Global and National Importance of CMS Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? If Yes, please provide details: Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency IX. Mobilization of Resources Has your country made financial resources available for conservation activities having Yes No direct benefits for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
1a 1 2	to join CMS and its related Agreements? If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Identify the agency, department or organization responsible for leading on this action in your country: Swedish Environmental Protection Agency VIII. Global and National Importance of CMS Have actions been taken by your country to increase national, regional

	If Yes, please provide details:
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)?
	If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
	Swedish International Development Cooperation Agency. All work financed by Swedish International Development Cooperation Agency has to take the environment into account
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species?
	If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country?
	If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
6	Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country?
	If Yes, please provide details (Indicate the migratory species that have benefited from these activities):

X. Implementation of COP Resolutions and Recommendations

Please summarize the measures undertaken by your country to implement the substantive, operational Resolutions and Recommendations adopted by the Conference of the Parties, where these have not been mentioned elsewhere in this report, giving particular emphasis to those identified below (as appropriate).

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch:

Pilot studies on pingers to scare away Common porpoises from fishing gears. Tests of alternative fishing gears.

Resolution 6.3 – Southern Hemisphere Albatross Conservation:

Not applicable

Resolution 7.2 – Impact Assessment and Migratory Species:

In general, biological diversity is poorly covered in the Swedish EIA process, which has been highlighted in a recent government enquiry. There are however a number of high-profile cases in which migrating bird species have been extensively covered, including the construction of a new railway line close to the city of Umeå.

Resolution 7.3 – Oil Pollution and Migratory Species:

Increased supervision by the coast guard, the prosecution of violators have been facilitated

Resolution 7.4 – Electrocution of Migratory Birds:

Resolution 7.5 – Wind Turbines and Migratory Species:

Several ongoing studies

Resolution 7.9 – Cooperation with Other Bodies and Processes:

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species:

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (Dugong dugon) Conservation:

Not applicable

Recommendation 7.6 - Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*):

Not applicable

Recommendation 7.7 – America Pacific Flyway Programme:

Not applicable

Other resolutions/recommendations:

Other remarks:

Annex: Questions on specific Appendix II species

The tables below contain the list of all species listed in Appendix II. Boxes have been checked to indicate the species for which your country is considered to be a Range State. Please amend the boxes where appropriate. (If you wish to provide further information on any of these species, please attach as an annex.) Please also provide published distribution references where available.

All species of each of	the Families b	oelow are listed	l in Appendix	II. If your cou	intry is a Range State for

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex.)
