

"Sustainable energies" seminar

Program & Speakers

- 8h30 : Welcome
- 9h00 : Opening and presentation of the Energy Task Force work
 - French environment Ambassador (Yann Wehring) ;
 - BirdLife International (Ashton Berry), National Museum of natural History (Bruno David), Energy Task Force (Osama El Gebaly), Convention on Migratory Species (Amy Fraenkel), ORÉE (Patricia Savin), German Federal Ministry of the Environment, Nature Conservation and Nuclear Safety (Rudolf Specht).
- 10h00 : Panel on data sharing and standardization of monitoring protocols
 - French Ministry of the Environment (Michel Perret): Framework of the conciliation between biodiversity, climate and renewable energies by the French State ;
 - European Bank for Reconstruction and Development (Robert Adamczyk) and International Finance Corporation (Lori Conzo): International Financial Institutions requirements for Project Development and monitoring standard. Experience to date, standardization and way forward ;
 - Report of the Working Group on standardization of monitoring protocols, cumulative impacts, data sharing and research (ETF Vice Chair, James Pearce-Higgins).
- 11h00 : Multi-actor round table on strategic planning
 - BirdLife International (Tristram Allinson) : Strategic planning and sensitivity mapping ;
 - LPO (Geoffroy Marx) : The national Wind Energy and Biodiversity Program ;
 - Report of the ETF Working Group on Strategic Planning and NDCs (ETF Coordinator, Ashton Berry).

- 12h00 – 14h00 : Lunch – networking
- 14h00 : Round-table on global changes, energies and migratory species
 - **French Agency for Biodiversity (Sylvain Michel)** : Marine migratory species and renewable energies ;
 - **EDF (Etienne Bérille)** : Photovoltaic energy, migratory species and biodiversity ;
 - **Jordan Royal Society for the Protection of Nature (RSCN) (Tareq Quaneer)** : Cumulative impact and coordination of different wind farms in the same region ;
 - **French Agency for Biodiversity - UMS PatriNat (Romain Sordello)** : Luminous pollution and migration.
- 15h00 : Round-table on renewable energies and the new face of the landscape
 - **CDC Biodiversité (Caroline Giradière) and Vert-Tige (Yann Dusza)** : Photovoltaic panels and green roofs in urban locations ;
 - **CNR (Franck Pressiat)** : Hydraulic energy and life in rivers ;
 - **wpd (Guillaume Wendling)** : Territorial development and wind energy ;
 - **Robin Radar (Sybille Giraud) and Strix (Miguel Repas Goncalves)** : Mitigation technologies for wind farms.
- 16h00 : Round-table on decision-making processes for renewable energies
 - **European Bank for Reconstruction and Development (Robert Adamczyk) and International Finance Corporation (Lori Conzo)** : Case study on project development and monitoring standardization ;
 - **Federation for Regional Natural Parks of France (Philippe Moutet)** : Local approach of renewable energies in regional natural parks ;
 - **Séché Environnement (Audrey Mejdoubi)** : Recovery energies, other renewable energies ;
 - **IUCN Mediterranean (Violeta Barrios)** : IUCN Guidelines for renewable energy and biodiversity.
- 17h15 : Launch of the sustainable energies platform
 - **ORÉE (Hélène Leriche)**
- 17h20 : Conclusions of the seminar
 - **ORÉE (Hélène Leriche) and BirdLife International (Noa Steiner)**
