

**7th Meeting of the CMS
Multi-Stakeholder Energy Task Force**

24-26 April 2024, Madrid, Spain and online

ETF7/Doc.1

PROVISIONAL AGENDA

(as of 29 February 2024)

The Government of India, through the Ministry of Environment, Forest and Climate Change were recognized as Champion Plus for their generous support and commitment towards Making energy safe for wildlife for the period 2020-2023. The operations of the Energy Task Force have been funded with the contribution granted by India under the Migratory Species Champion Programme.

INTRODUCTION AND OBJECTIVES

The Convention on Migratory Species (CMS) Energy Task Force (ETF) was established in 2016 to work towards reconciling renewable energy developments with the conservation of migratory species.

The ETF facilitates the use of best-practice guidance and promotes concrete action on the ground by bringing together governments, multi-lateral environment agreements, non-government organisations, financial and investment institutions, and researchers.

Following on the approval of the [ETF workplan 2021-2024](#), the 7th meeting of the ETF represents a unique opportunity to jointly revise its gaps, agree on the shared priorities and discuss the next steps towards our goal: a just transition to renewables that does not harm migratory species.

The meeting specific objectives are:

- a) review the outcomes of the 14th Meeting of the Conference of the Parties of the CMS, as included in document UNEP/CMS/COP14/CRP30.3.2/Rev.1;
- b) discuss and approve three strategic documents presented at the interim meeting of the ETF held in October 2023;
- c) review progress in the implementation of the ETF Work Plan;
- d) discuss next steps towards the development of a follow-up ETF Work Plan beyond 2024; and,
- e) advance on the understanding of emerging issues linked to the sustainable planning of energy infrastructures.
