

Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000 -2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006 -2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

5	Bats	Department of Conservation
6	Other Taxa	Department of Conservation, Ministry of Fisheries

II. Appendix I species
1. BIRDS
1.1 General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7): Incidental take in fishing operations is not an offence, provided that any required mitigation measures have been deployed and that the take is reported in timely fashion
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch <input checked="" type="checkbox"/> Electrocution <input type="checkbox"/> Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/> Pollution <input type="checkbox"/> Other (please provide details) Invasive species in remote island breeding sites
2a	What actions are being undertaken to overcome these obstacles? Commercial fishing vessels in New Zealand are required to implement measures to avoid, remedy or mitigate seabird by-catch. Wind turbines are not proposed for establishment in any critical habitat for Appendix I species, and consideration is given in the permissions process to environmental effects, including any effects on migratory species (flight pathways). Mammalian pest eradication programmes have been implemented on offshore islands that are important breeding areas for Appendix I species and pest surveillance/biosecurity programmes are in place to avoid new introductions of pests to the islands.
2b	Please report on the progress / success of the actions taken. Invasive species have been successfully removed from several important breeding sites on offshore islands
2c	What assistance, if any, does your country require in order to overcome these obstacles? Liaison with other CMS members and the cooperation of the global fishing industry to implement best international practice
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade <input type="checkbox"/> Poaching <input type="checkbox"/> Other (please specify) Impact of invasive species on breeding success
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? Eradication of mammalian pests from critical habitat
3b	Please report on the progress / success of the actions taken. Invasive species have been successfully removed from several important breeding sites on offshore islands
3c	Describe any factors that may limit action being taken in this regard: Logistics (for remote subantarctic islands) and public resistance to the use of toxins to control invasive species
3d	What assistance, if any, does your country require to overcome these factors? Regular liaison with other CMS members and NGOs to establish best international practice and explore opportunities for collaborative funding to support pest eradications from critical habitat for Appendix I species

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): The incidental take of marine mammals in fishing operations is not an offence, provided that the fishing gear was not illegally deployed, any required mitigation measures had been adopted, and that the take is reported in timely fashion
2	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: By-catch <input checked="" type="checkbox"/> Collision with fishing traffic <input type="checkbox"/> Pollution <input type="checkbox"/> Illegal hunting <input type="checkbox"/> Other threats to migration (please provide details) Collision with shipping
2a	What actions are being undertaken to overcome these obstacles? The Department of Conservation administers a Conservation Services Programme, partially funded by levies charged to commercial fishers, which is focused on mitigating the impacts of commercial fishing on protected species, including Appendix I species. The use of gillnets is prohibited in large areas of coastal waters. A liaison group has been established to review ship strike of whales in the approaches to Auckland Harbour. An expert group has been formed to remove debris such as rope or netting from entangled whales in coastal waters.
2b	Please report on the progress / success of the actions taken. Appendix I species of marine mammals are rarely caught in fishing gear in New Zealand waters. Humpback whales have been successfully disentangled by the expert group.
2c	What assistance, if any, does your country require in order to overcome these obstacles? Liaison with other CMS members to share information on best international practice on mitigating vessel collisions and fishing gear interactions with Appendix I marine mammal species
3	What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> By-catch <input type="checkbox"/> Other (please specify) Entanglement/marine debris
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour? Whale-watching operations in New Zealand are subject to the provisions of the Marine Mammals Protection Regulations, 1992, and are regularly monitored.
3b	Please report on the progress / success of the actions taken. Few prosecutions taken for breaching the Marine Mammals Protection Regulations
3c	Describe any factors that may limit action being taken in this regard:
3d	What assistance, if any, does your country require to overcome these factors?

2	Identify any obstacles to migration that exist in relation to Appendix I marine turtles: By-catch <input type="checkbox"/> Pollution <input checked="" type="checkbox"/> Other threats to migration (please provide details)
2a	What actions are being undertaken to overcome these obstacles? Public awareness campaigns for boat owners to bring all litter back to shore, especially plastic litter
2b	Please report on the progress / success of the actions taken. Few turtles beachcast with ingested plastic
2c	What assistance, if any, does your country require in order to overcome these obstacles? None
3	What are the major pressures on Appendix I marine turtles (transcending mere obstacles to migration)? Collection of eggs <input type="checkbox"/> Predation of eggs <input type="checkbox"/> Destruction of nesting beaches <input type="checkbox"/> Other (please specify)
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles beyond actions to prevent disruption to migrating behaviour? Code of Practice for releasing hooked turtles in longline fisheries
3b	Please report on the progress / success of the actions taken. Few turtles reported taken as by-catch
3c	Describe any factors that may limit action being taken in this regard: Low level of observer coverage
3d	What assistance, if any, does your country require to overcome these factors? None

6. OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above: Department of Conservation, Ministry of Fisheries
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: Amendments to the Wildlife and Fisheries Acts to absolutely protect basking sharks within New Zealand's EEZ and aboard New Zealand flagged vessels fishing on the High Seas have recently come into effect. Directed take of this species is already prohibited under the Fisheries Act but it may be landed if taken as accidental bycatch.
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): The incidental take of great white shark in the course of legitimate commercial fishing operations is not an offence, provided the animal is released immediately and the required reporting procedures are followed. The same defence provisions will apply to basking shark.
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above: Lack of legislation <input type="checkbox"/> Other threats to migration (please provide details)
3a	What actions are being undertaken to overcome these obstacles? Legislation recently passed to absolutely protect basking sharks within New Zealand waters and prohibit their take by New Zealand fishing vessels elsewhere. Great white sharks are already protected. Research on regional population connectivity of great white sharks is ongoing. Aerial survey of basking sharks undertaken off Banks Peninsula in Jan-March 2010, will be repeated in 2011. Time series data for observed basking shark bycatch in middle-depth and deepwater trawl fisheries has been reviewed and total catch in New Zealand waters estimated.
3b	Please report on the progress / success of the actions taken. Changes to Wildlife and Fisheries Acts approved by the Ministers of Conservation and Fisheries. Total catch and trends in bycatch of basking sharks estimated. No basking sharks observed during Banks Peninsula aerial survey. Satellite tagging of white sharks has revealed regular migration of white sharks between New Zealand aggregation sites and the Coral Sea (Australia, New Caledonia and Vanuatu) and Kingdom of Tonga.
3c	What assistance, if any, does your country require in order to overcome these obstacles? Collaboration with other CMS members, through the CMS Sharks MoU and with Pacific Island states and territories through the Pacific Islands Regional Plan of Action for Sharks, to prohibit the directed take of Appendix I sharks anywhere within their range.
4	What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify) Directed and incidental take in commercial fishing operations. White sharks are also vulnerable to bycatch in recreational set net fisheries.
4a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour? Extensive bans on commercial and recreational set (gill) netting to protect endangered Hector's and Maui's dolphin have been introduced in inshore waters of South Island and northwest North Island. These bans will also serve to reduce incidental mortality of great white and basking sharks. Protocols established for scientific observers to record and sample bycatch of all protected species.

4b	<p>Please report on the progress / success of the actions taken.</p> <p>Set net bans established over large areas where great white and basking sharks are known to occur. Observer coverage on inshore fishing vessels and policing of set net bans established.</p>
4c	<p>Describe any factors that may limit action being taken in this regard:</p> <p>Legal challenge to extent of set net bans. Pressure to reduce observer coverage due to cost and/or small size of most inshore fishing vessels.</p>
4d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>None</p>

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details: Participated in consultations leading to adoption of the CMS Sharks MoU	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? None		
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: Ministers will be briefed on the Sharks MoU and invited to consider NZ's signature	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	<p>Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p> <p>N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.</p>
1a	<p>Is your country taking any steps to propose the listing of this/these species in Appendix II? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p>
1b	<p>What assistance, if any, does your country require to initiate the listing of this/these species?</p>

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues	<input type="checkbox"/> Low <input type="checkbox"/> Medium <input checked="" type="checkbox"/> High																																	
2	Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

V. Protected Areas

1	Are migratory species taken into account in the selection, establishment and management of protected areas in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: Auckland Islands Marine Mammal Sanctuary established to protect the breeding population of Southern Right Whales.
1a	Please identify the most important national sites for migratory species and their protection status: Farewell Spit and Firth of Thames are important national sites for shorebird conservation.
1b	Do these protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas): Yes No <input checked="" type="checkbox"/> <input type="checkbox"/> Terrestrial 30% of New Zealand land cover has some form of protection that may be beneficial for migratory species. <input checked="" type="checkbox"/> <input type="checkbox"/> Aquatic Farewell Spit and Firth of Thames and numerous wetland reserves are important national sites for shorebird conservation. <input checked="" type="checkbox"/> <input type="checkbox"/> Marine There is a network of marine reserves around New Zealand and many breeding sites for seabirds, especially in the subantarctic islands, are protected.
1c	Identify the agency, department or organization responsible for leading on this action in your country: Department of Conservation
2	Results – please describe the positive outcomes of any actions taken Improved protection and conservation of biodiversity; greater public awareness of conservation issues.

VI. Policies on Satellite Telemetry

1	In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> In preparation <input checked="" type="checkbox"/> on-going <input checked="" type="checkbox"/> completed
2	Are any future conservation/research projects planned that will use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (including the expected timeframe for these projects): Regional population connectivity of great white sharks: commenced in 2005, anticipated conclusion in 2014. Long-distance movements of basking sharks - pilot tagging study (4 animals) scheduled for October 2010 - February 2011. If No, please explain any impediments or requirements in this regard:
3	Results – please describe the positive outcomes of any actions taken Satellite tagging of white sharks has revealed regular migration of white sharks between New Zealand aggregation sites and the Coral Sea (Australia, New Caledonia and Vanuatu) and Kingdom of Tonga, with one shark passing through and close to the EEZs of Niue and Cook Islands respectively.

VII. Membership

1	Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
---	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) New Zealand continues to encourage Pacific Island countries to join CMS
1a	Identify the agency, department or organization responsible for leading on this action in your country: Ministry of Foreign Affairs and Trade, Department of Conservation
2	Results – please describe the positive outcomes of any actions taken The Cook Islands, Samoa and Palau are all CMS members.

VIII. Global and National Importance of CMS

1	Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? If Yes, please provide details: Promotion of work of ACAP and publicity around the PI Cetaceans MoU.	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
2	Identify the agency, department or organization responsible for leading on this action in your country: Department of Conservation		
3	Results – please describe the positive outcomes of any actions taken CMS is recognised by government agencies in New Zealand as an important player in the global conservation of migratory species.		

IX. Mobilization of Resources

1	Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these activities): Annual census of humpback whales migrating through Cook Strait; pest control programmes on seabird breeding islands, collaborated with Australia on a whale research cruise (2009) to Ross Sea/Balleny Islands.	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? If Yes, please provide details (Indicate the migratory species that have benefited from these activities): The NZ Government, through its overseas assistance programme, has made significant contributions to a number of conservation activities having direct benefits for migratory species, including the eradication of rats and rabbits from the Phoenix Islands in Kiribati, and a capacity-building programme on large marine species in Tuvalu.	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP8 in 2005 and Parties which did not submit a National Report in 2005 are requested to complete the entire form.

Parties that did submit a report in 2005 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8).

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).
