

# Convention on the Conservation of Migratory Species of Wild Animals

## FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**Reporting format agreed by the Standing Committee at its 32<sup>nd</sup> Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).**

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

**COP Resolution 9.4** adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

2	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>These agencies participate/collaborates in reporting species by-catch and strandings (especially marine species) and also on law enforcement.</p>
3	<p>Has a national liaison system or committee been established in your country? Please provide contact information</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p><b>Although there is no existing committee, DENR has jurisdiction over marine turtles and dugong among marine wildlife. This is based on Wildlife Act of 2001 (RA 9147) . Within the DENR system, PAWB (through the Pawikan Conservation Project) at the national level and the Protected Areas Wildlife Divisions at the regional level are the main offices responsible for policy recommendation and in implementation of policies. However, this year, a technical/advisory committee on marine turtles and dugongs is planned to be established. The distribution of marine turtles and dugong in the Philippines makes a national liaison system necessary</b></p>
4	<p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>Conservation International Philippines (CI-P) – collaborates with government agencies, local governments and enforcement agencies on conservation and protection of marine species and dugong in their focal areas.</p> <p>WWF Philippines – same as CI-P; conducts research on the local population of the Irrawaddy dolphin</p> <p>CERD (Center for Empowerment and Resource Development) – collaborates with the DENR particularly in Hinatuan, Surigao del Sur on dugong and marine turtle conservation activities</p> <p>SIKAT (Sentro sa Ikaunlad ng Katutubong Agham at Teknolohiya) – collaborates with the DENR on marine turtles conservation activities particularly in the province of Romblon</p> <p>Bantay Pawikan, Inc. - collaborates with DENR on marine turtle conservation activities particularly in Morong, Bataan</p> <p>PRRM (Philippine Rural Reconstruction Movement-Bataan Chapter) – collaborates with DENR on marine turtle conservation activities particularly in Morong, Bataan</p> <p>Montemar Beach Club – collaborates with the DENR on marine turtles conservation activities particularly in Bagac, Bataan</p> <p>Phoenix Petroterminal Industrial Park - collaborates with the DENR on marine turtles conservation activities particularly in Calaca, Batangas</p> <p>Marine Wildlife Watch - collaborates with the DENR on marine turtles and dugong conservation activities in Mindanao and Palawan</p> <p>Davao Light and Power Company, Inc. – collaborates with the DENR on marine turtles in Davao City</p> <p>Wild Bird Club of the Philippines – regularly conducts bird watching tours for conservation and conducts advocacy campaigns. ### 1. BIRDS

#### 1.1 General questions on Appendix I bird species

1	<p>Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <span style="float: right;">x Yes <input type="checkbox"/> No</span></p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <span style="float: right;"><input type="checkbox"/> Yes x No</span></p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I bird species:</p> <p>By-catch <span style="margin-left: 100px;">x</span> <span style="margin-left: 100px;">Electrocution</span> <span style="float: right;"><input type="checkbox"/></span></p> <p>Habitat destruction <span style="margin-left: 100px;">x</span> <span style="margin-left: 100px;">Wind turbines</span> <span style="float: right;"><input type="checkbox"/></span></p> <p>Pollution <span style="margin-left: 100px;"><input type="checkbox"/></span></p> <p>Other (please provide details)</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>The tufted duck (<i>Aythya fuligula</i>) is a by-catch in lake fishery where they are caught in gill nets for fish. Dialogues with fisherfolks have been conducted to minimize if not eradicate the problem. Marine turtles have been the target of foreign fishing vessels. Their fishing boats are confiscated when apprehended. Dugong by catch is more problematic because of the involvement of poor fisherfolks</p>
2b	<p>Please report on the progress / success of the actions taken.</p> <p>Some progress is being attained as reported above.</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>Gentle pressure on the government not to implement or to discontinue projects that would have a negative impact on migratory species.</p>
3	<p>What are the major threats to Appendix I bird species (transcending mere obstacles to migration)?</p> <p>Illegal trade <span style="margin-left: 100px;"><input type="checkbox"/></span> <span style="margin-left: 100px;">Poaching</span> <span style="float: right;"><input type="checkbox"/></span></p> <p>Other (please specify)</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?</p> <p>Appendix I birds are mainly threatened by obstacles to migration</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>n/a</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <p>n/a</p>

## 2. MARINE MAMMALS

### 2.1 General questions on Appendix I marine mammals (the answers refer both to marine mammals in general and the dugong in particular)

1	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	xYes <input type="checkbox"/> No
1a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	<input type="checkbox"/> Yes    x No
2	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: By-catch                    x                    Collision with fishing traffic <input type="checkbox"/> Pollution <input type="checkbox"/> Illegal hunting                    x Other threats to migration (please provide details)	
2a	What actions are being undertaken to overcome these obstacles? For illegal hunting, filing case against the hunters but because most of the dugong by-catch are caused by fish corrals, the trapped dugong do not die and are released, unless the animal is killed by the fish corral owner or keeper.	
2b	Please report on the progress / success of the actions taken. At present, only very few cases have been filed in court, the perpetrators have not been identified in most of the incidents.	
2c	What assistance, if any, does your country require in order to overcome these obstacles? The Philippines has submitted a proposal to UNEP/CMS-MOU Secretariat based in Abu Dhabi, UAE for funding regarding the use of standardized survey questionnaire in one of the important areas in the country. Part of the proposal is the conduct of information campaign to enhance the awareness of the need to conserve and protect the species. This activity will be focused in the southern part of Mindanao.
