

# Convention on the Conservation of Migratory Species -of Wild Animals

## FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**Reporting format agreed by the Standing Committee at its 32<sup>nd</sup> Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).**

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

**COP Resolution 9.4** adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

## II. Appendix I species

### 1. BIRDS

#### 1.1 General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch <input type="checkbox"/> Electrocution <input type="checkbox"/> Habitat destruction <input type="checkbox"/> Wind turbines <input checked="" type="checkbox"/> Pollution <input type="checkbox"/> Other (please provide details) <b>Three species are concerned; <i>Anser erythropus</i>, <i>Polysticta stelleri</i> (small numbers) and <i>Haliaeetus albicilla</i>.. The increasing number of wind turbines may locally be a threat to <i>Haliaeetus albicilla</i>..</b>	
2a	What actions are being undertaken to overcome these obstacles? <b>Occurrence of <i>Haliaeetus albicilla</i> is taken into account when adapting the position of wind power turbines</b>	
2b	Please report on the progress / success of the actions taken. <b>So far the problem is limited and very localized and the <i>Haliaeetus albicilla</i> population still increases.</b>	
2c	What assistance, if any, does your country require in order to overcome these obstacles? <b>None, but perhaps international guidelines would give added strength to the importance of taking account of species like eagles.</b>	
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade <input type="checkbox"/> Poaching <input type="checkbox"/> Other (please specify) <b><i>Anser erythropus</i>: Too small population, in need of reinforcement, <i>Polysticta stelleri</i>: possibly future problems related to oil spill through shipping and gas pipeline being built within or near important wintering habitats in the Baltic Sea</b>	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? <b>Legislation. Protection of – or management agreements to conserve – valuable breeding habitats, breeding sites, staging and feeding sites.</b>	
3b	Please report on the progress / success of the actions taken.	
3c	Describe any factors that may limit action being taken in this regard: <b>Budget, difficulties in finding farmers with grazing animals, rules in the agricultural environmental schemes that require grazing pressure which is not optimal for the birds.</b>	
3d	What assistance, if any, does your country require to overcome these factors? <b>For species covered by a national action plan, the farmer can obtain economical compensation for a management suitable for the species.</b>
