

Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7): Mozambique has been doing so since the law nr10/99 has been in force. however, has not notified the CMS because first needs to develop specific regulation under the AEWA, which just signed the convention a year ago
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch <input checked="" type="checkbox"/> Electrocutation <input checked="" type="checkbox"/> Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input checked="" type="checkbox"/> Pollution <input checked="" type="checkbox"/> Other (please provide details) Lack of information to public in relation to birds protection; poaching; birds business and trade in and outside the country
2a	What actions are being undertaken to overcome these obstacles? Law enforcement application in the Mozambique Protected Areas Network
2b	Please report on the progress / success of the actions taken. So far the progress is fair within these areas
2c	What assistance, if any, does your country require in order to overcome these obstacles? Funding on bird migratory species need to provided for the establishment of specific birds species project management , within the National directorate of conservation areas of the Ministry of tourism
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade <input checked="" type="checkbox"/> Poaching <input type="checkbox"/> Other (please specify) Food source
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? Within the context of Mozambique Protected areas Network, , management activities have been carried out including awareness of local communities resident in these areas
3b	Please report on the progress / success of the actions taken. So far habitat fragmentation, poaching activities within the protected areas network have been reduced greatly
3c	Describe any factors that may limit action being taken in this regard: Increasing number of households inside protected areas network and lack of funding in these specific case in order to expand action activities may undermine the efforts of migratory bird species in these areas
3d	What assistance, if any, does your country require to overcome these factors? Sufficient funds for migratory bird species management
