

Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

1.1 General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:	
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):	
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch <input checked="" type="checkbox"/> Electrocution <input type="checkbox"/> Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/> Pollution <input type="checkbox"/> Other (please provide details)	
2a	What actions are being undertaken to overcome these obstacles? Hunting prohibition, building of artificial habitats	
2b	Please report on the progress / success of the actions taken. With the ranger service foundation, there has been improvement in stopping of the illegal hunting in national parks; artificial breeding rafts are successfully adopted by terns, and hopefully pelicans; Information centres in national parks are providing essential information.	
2c	What assistance, if any, does your country require in order to overcome these obstacles? Material support in strengthening human capacities (administrative and fieldwork) through education and pursue of ecological funds establishment.	
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade <input type="checkbox"/> Poaching <input checked="" type="checkbox"/> Other (please specify): Habitat loss, disturbance	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? Except administrative effort in adoption of different conventions and agreements, no coordinated actions have been performed.	
3b	Please report on the progress / success of the actions taken.	
3c	Describe any factors that may limit action being taken in this regard: Notorious factors are the lack of human capacity in the field, and weak legal mechanism in conduction of environmental policy.	
3d	What assistance, if any, does your country require to overcome these factors? Strengthening legal mechanism by means of providing essential environment knowledge to clerks through workshops and practical examples; foundation of ecological fund to hire rangers throughout Montenegro, and their training.

Miscellaneous information or comments on Appendix I birds in general:

There is total of 12 bird species from Appendix 1 of CMS registered in Montenegro. There are no other specific researches regarding other species than Dalmatian pelican to be mentioned in this table form. Integral monitoring exists regularly on several objects in Montenegro, and protection is provided to some extent by the warden services within national parks. Integration of these activities and research projects into CMS reporting is not yet fully functional.

Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP9 in 2008 and Parties which did not submit a National Report in 2008 are requested to complete the entire form.

Parties that did submit a report in 2008 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8 and COP9).
