## FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**Reporting format agreed by the Standing Committee at its 32<sup>nd</sup> Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).**

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

**COP Resolution 9.4** adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch <input checked="" type="checkbox"/> Electrocutation <input checked="" type="checkbox"/> Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/> Pollution <input checked="" type="checkbox"/> Other (please provide details)
2a	What actions are being undertaken to overcome these obstacles? Establishment of protected areas in key sites, pollution control and monitoring, other ways to address these factors
2b	Please report on the progress / success of the actions taken. Most key bird sites on the Azov-Black Sea coastline are protected areas and/or wetlands of international importance (Ramsar sites)

3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? The spring hunting was forbidden at legislative level, the Red Data Book of Ukraine has been revised, enforcement has been enhanced
3b	Please report on the progress / success of the actions taken. New edition of the Red Data Book is published in 2009

## 2. MARINE MAMMALS

### 2.1 General questions on Appendix I marine mammals

1	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <span style="float: right;"><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</span> If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <span style="float: right;"><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</span> If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
2	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: By-catch <input checked="" type="checkbox"/> Collision with fishing traffic <input type="checkbox"/> Pollution <input checked="" type="checkbox"/> Illegal hunting <input type="checkbox"/> Other threats to migration (please provide details) Disturbance (marine traffic, seismic reconnaissance, etc.)
2a	What actions are being undertaken to overcome these obstacles? Three projects were implemented in 2008-2009 to address and mitigate cetacean bycatch problem in Ukraine.
2b	Please report on the progress / success of the actions taken. New knowledge on the magnitude of cetacean bycatch has been obtained.
2c	What assistance, if any, does your country require in order to overcome these obstacles? Activities for the development of marine protected areas for cetaceans and their habitats.
3	What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> By-catch <input checked="" type="checkbox"/> Other (please specify)
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour? Mentioned in 2a above.
3b	Please report on the progress / success of the actions taken. Mentioned in 2b above.
3c	Describe any factors that may limit action being taken in this regard: Cetacean bycatches are usually even not reported by fishermen and inspectorates. There is no national statistics on cetacean bycatch in Ukraine.
3d	What assistance, if any, does your country require to overcome these factors? Relevant authorities of different level should be trained on how to ensure this kind of national statistics.

There are at least three actual difficulties in Ukraine:

- lack of legal instrument and administrative mechanism for shifting CMS and ACCOBAMS provisions and COP/MOP resolutions, agreed and adopted on the international level, to real day-to-day activities on-site;
- lack of due information about CMS and ACCOBAMS as well as relevant guidelines and training for authorities operating at the local level;
- lack of adequate funds to implement the Conservation Plan for Black Sea Cetaceans which is already translated into Ukrainian and available from the ACCOBAMS web site.
