

Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

Ministry of Agriculture and Fisheries (MAF) (Fisheries Division) 2. Ministry of Women and Community Development (MWCD) (Internal Affairs Division) 3. Samoa Tourism Authority (STA)
2	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <ol style="list-style-type: none"> 1. The MAF is more directly involved with the fisheries and fisheries management aspect in terms of cetaceans and turtle interaction with the longline and other fishing methods. 2. MWCD mainly deals with community awareness, encouraging the local communities to take responsibility and report incidences affecting migratory species such as cetaceans and marine turtles in their waters. 3. The STA encourages sustainable tourism activities one of which involves ad hoc cetacean watching which is done according to the national cetacean watching Guidelines. <p>These departments are all represented to the National Marine Species Committee and all are responsible for reporting, data collection and through the Committee, responding to stranding incidences involving migratory species.</p>
3	<p>Has a national liaison system or committee been established in your country? Please provide contact information</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>c/- Ministry of Natural Resources and Environment, Private Bag, Apia. DBS Building, Level 5.</p>
4	<p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>The Samoa Hotels Association which comprises of local hotel and marine tour operators mainly contributes by reporting incidences and sighting of cetaceans in the areas of tourism operations.</p> <p>2. Aleipata and Safata Marine Protected Area Trust Society Inc. – The Society implements a MPA Management Plan which bans any activity involving whales, dolphins and marine turtles in the MPA waters.</p>
4a	<p>Please provide detail on any devolved government/overseas territory authorities involved.</p> <p>None</p>
5	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>As in 4 above, the local hotel operators are the main point of contacts who help through the collection of related information (using a prescribed template) and reporting incidences and sighting of cetaceans in the areas of tourism operations.</p>
6	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>Coordination between and among the sectors especially in terms of reporting is quite good. The STA has mainstreamed environment conservation (includes conservation of marine species) into its sector plan.</p>
