

*Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Tenth Meeting of the Conference of the Parties (COP10) (Norway, 2011).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

COP Resolution 9.4 adopted at Rome called upon the Secretariats and Parties of CMS Agreements to collaborate in the implementation and harmonization of online reporting implementation. If the development of an online reporting system advances sufficiently, Parties may have the option of reporting in this manner. There are however no guarantees at this stage that this will be the case.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country: **Islamic Republic of IRAN**

Which agency has been primarily responsible for the preparation of this report?

Department of Environment

Please list any other agencies that have provided input:

I(a). General Information

Please enter the required information in the table below:

Party	Islamic Republic of IRAN
Date of entry into force of the Convention in Islamic Republic of IRAN	10th June 2007
Period covered	2008 –2010
Territories to which the Convention applies	Islamic Republic of IRAN
DESIGNATED NATIONAL FOCAL POINT	
Full name of the institution	Ministry of Foreign Affairs
Name and title of designated Focal Point	Mr. Mahmoud Barimani Director General for International Economics Affairs & Specialized Agencies
Mailing address	Ministry of Foreign Affairs, No. 45, Koushk Mesri St., Ferdosi Av.Tehran
Telephone	(+98 21) 611 54475
Fax	(+98 21) 667 04176
E-mail	
APPOINTMENT TO THE SCIENTIFIC COUNCIL	
Full name of the institution	Department of Environment
Name and title of contact officer	Bahareh Shahriari
Mailing address	Biodiversity and Wildlife Bureau Natural Environment Division Department of Environment Pardisan Park, Hakim Highway, Tehran 14155-7383 Islamic Republic of Iran

4	<p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p><u>Iranian Cheetah Society(ICS)</u> is a non-governmental, non-profitable organization in order to save the biodiversity with the Asiatic cheetah as flagship species which is left only in Iran. The ICS is a sophisticated NGO devoted to save the Iranian “Big Five” Carnivores which are normally in conflict with local communities. It has been established in 2001 (registration number 13640) and hopes to celebrate its first decade of biodiversity conservation soon. http://www.wildlife.ir/</p> <p><u>Plan 4 the Land Society</u>: is a non-governmental non-profitable organization for the conservation of wildlife and biodiversity in Iran. The main activities in this society are in one of the following four categories:</p> <ol style="list-style-type: none"> 1. Direct conservation field projects, including data gathering on latest status of the endangered species. 2. Indirect conservation through promotion of sustainable livelihood and ecotourism reception in human societies in the surroundings of protected areas. 3. Increasing public awareness on the importance of biodiversity and environmental conservation through educational programs for the residents of big cities; more focused on adolescents and children. 4. Stirring up the innate sense of biophilia, through publication of artworks by nature photographers and illustrators on the beauty and charisma of our adored biodiversity. <p>http://www.plan4land.org/english/</p> <p><u>Tarlan Birdwatching Club</u> is a local bird-watching club whose members meet regularly to discuss local sightings and enjoy presentations from guest speakers on a variety of interesting bird and wildlife topics in Tehran, Iran.They are active in observing and recording the birdlife of the Club Area in and around Tehran and every year publish their own report "Birds in Iran".http://www.birdwatching.ir/</p> <p><u>Mazandaran Crane Conservation Association</u></p> <p><u>Green Front of IRAN(GFI)</u> was established in 1989 by four medical students in Tehran . After initial establishment, GFI members started negotiation with many scholars, university professors and distinguished individuals in order to use their experiences to lighten the way for future. This led to the point where GFI considered public awareness on environmental issues as its first and primary goal and started several programs in that way. http://www.greenfront.org/E_index.asp</p> <p><u>Padydey-e-Nou</u> is a new-established NGO works in the field of Marin Turtles Conservation</p> <p><u>Persians Wildlife Foundation</u> is supervised by a Board of Trustees which formulates and approves goals, objectives and strategic plans, develops financial resources for the achievements of these objectives. They will fund programmes for management, increased vigilance of protected areas, better tools for surveillance and programs aimed to reduce and eliminate the illegal killing of wildlife or destruction of their habitat.</p> <p>http://www.persianwildlife.org/</p>
4a	Please provide detail on any devolved government/overseas territory authorities involved.
5	Describe any involvement of the private sector in the conservation of migratory species in your country:
6	Note any interactions between these sectors in the conservation of migratory species in your country:

I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1	Birds	Department of Environment
2	Marine Mammals	Department of Environment
3	Marine Turtles	Department of Environment
4	Terrestrial Mammals	Department of Environment
5	Bats	Department of Environment
6	Other Taxa	Department of Environment

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	<p>Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I bird species:</p> <p>By-catch <input checked="" type="checkbox"/> Electrocutation <input checked="" type="checkbox"/> Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/> Pollution <input checked="" type="checkbox"/> Other (please provide details) Poaching <input checked="" type="checkbox"/> (specially in the staging areas)</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>To improve the protected areas network (number, size and condition); to increase penalty rates on illegal shooting;</p>
2b	<p>Please report on the progress / success of the actions taken.</p> <p>The number of the protected areas increased from 191 to 209 (area from 12,000,000 ha. to 13,000,000ha.); the penalty rates gets twice (generally, for all wildlife species);</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>Training; New technology like PTT and GIS images; Financing conservation projects;</p>
3	<p>What are the major threats to Appendix I bird species (transcending mere obstacles to migration)?</p> <p>Illegal trade <input type="checkbox"/> Poaching <input checked="" type="checkbox"/> Other (please specify) Habitat destruction (urban and industrial development, land diversion to agriculture), bird trapping; agrochemical overuse ...</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?</p> <p>Implementation of UNEP/GEF Siberian Crane Wetlands Project;</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>The project ended on December 2009 with notable success on conservation of Siberian Crane's wetland habitats. These habitats also conserve a wide range of other internationally important waterbirds.</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <p>Inadequate public cooperation and participation on site management; in adequate follow up after completion of the project</p>
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>Consultancy on public participation.</p>

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> White-tailed Eagle <i>Haliaeetus albicilla</i>

4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>																														
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>																														

<i>Species name – Common Name(s)</i> Spotted Redshank <i>Tringa erythropus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 2377; 2009: 263 and 2010: 269. Therefore, population size for this species is decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter counts the numbers of sites which cover this species are: 2008: 22 sites; 2009: 25 sites and 2010: 12 sites. Therefore distribution of this species is almost stable.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> White-eyed Gull <i>Larus leucophthalmus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/> According to the Mid-winter count results that no bird has been counted for the period of 2008-2010. Therefore population size for this species is unclear and somehow decreasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input checked="" type="checkbox"/> According to the Mid-winter counts, as no bird counted during 2008-2010, therefore, distribution of this species is unknown.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Annual mid winter count Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures Species protection <input checked="" type="checkbox"/> Increase on penalty rate Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Improve protected area network Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.
5	Describe any future activities that are planned for this species: No specific action for species as described above.

<i>Species name – Common Name(s)</i> Red Knot <i>Calidris canutus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/> According to the Mid-winter count results that no bird has been counted for the period of 2008-2010. Therefore population size for this species is unclear and somehow decreasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input checked="" type="checkbox"/> According to the Mid-winter counts, as no bird counted during 2008-2010, therefore, distribution of this species is unknown.

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> <i>Numenius tenuirostris- Slender-billed Curlew</i>	
1	<p>Please provide published distribution reference: http://www.rspb.org.uk/Images/sbcleaflet_tcm9-203901.pdf (this link is RSPB's webpage on Slender-billed Curlew: "<i>A toolkit for finding Slender-billed Curlews</i>", which this toolkit has been translated to Farsi and distributed among the stakeholders.</p> <p>http://www.rspb.org.uk/ourwork/projects/details.aspx?id=198450 (this link is RSPB's webpage on Slender-billed Curlew, including huge amount of information and projects relating to this species)</p>
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/></p> <p>According to the Mid-winter count results that no bird has been counted for the period of 2008-2010. Therefore population size for this species is unclear and somehow decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input checked="" type="checkbox"/></p> <p>According to the Mid-winter counts, as no bird counted during 2008-2010, therefore, distribution of this species is unknown.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> Site survey to find the species across country</p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> RSPB toolkit translated to Farsi + Site brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>

4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>An specific survey for the species has been failed to find this bird during winter season of 2009-2010. A project under RSPB's Threatened Species Small Grant Fund has been done.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>Specific survey for winter season of 2010-2011 has been planned for the species.</p>

<i>Species name – Common Name(s)</i> Acrocephalus griseldis- Basra Reed Warbler	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/></p> <p>According to the Mid-winter count results that no bird has been counted for the period of 2008-2010. Therefore population size for this species is unclear and somehow decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input checked="" type="checkbox"/></p> <p>According to the Mid-winter counts, as no bird counted during 2008-2010, therefore, distribution of this species is unknown.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. 4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> Vanellus gregarius -Sociable Lapwing	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter count results the number of counted for this species for the following years are as: shows that: 2008: 1; 2009: 2 and 2010: 0. Therefore population size for this species is stable to decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter counts the numbers of sites which cover this species are: 2008: 1 sites; 2009: 1 sites and 2010: 0 sites. Therefore distribution of this species is stable to decreasing.</p>

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

Species name – Common Name(s) *Grus leucogeranus*- Siberian Crane

1	Please provide published distribution reference: http://www.scwp.info/ & http://www.sibeflyway.org/
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 1; 2009: 1 and 2010: 0. Therefore population size for this species is decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter counts the numbers of sites with cover species are: 2008: 1 sites; 2009: 1 sites and 2010: 0 sites. Therefore distribution of this species is decreasing.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> Several university thesis</p> <p>Identification and establishment of protected areas <input checked="" type="checkbox"/> Fereydoon Kenar Non-Shooting Area & Ramsar Site</p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count, daily monitoring by guards</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Many education and awareness by the GEF Project</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate, establish new guard stations</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guarding system</p> <p>Species restoration <input checked="" type="checkbox"/> Several captive reared bird release programs in FDK</p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input checked="" type="checkbox"/> restore the native trees in the wintering areas</p> <p>Other <input checked="" type="checkbox"/> CMS MoU on conservation of the Siberian Crane</p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>7th meeting of the range states of the CMS MoU on conservation of the Siberian Crane approved 2010-2012 Conservation Plan for the species. See CMS website.</p>

<i>Species name – Common Name(s) Falco nomanni- Lesser Kestrel</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the annual counts, the numbers of this species for the following years are as: 2008: 2904 and 2009: 1577. Therefore, population trend for this species looks increasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the annual counts, the numbers of sites for the species within the following years are as: 2008: 86 sites and 2009: 53 sites. Therefore, distribution of this species is reducing.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Annual count Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures Species protection <input checked="" type="checkbox"/> Increase on penalty rate Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Improve protected area network Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.
5	Describe any future activities that are planned for this species: No specific action for species as described above.

<i>Species name – Common Name(s) Neophron pernopterus- Egyptian Vulture</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the annual counts, the numbers of this species for the following years are as: 2008: 468 and 2009: 146. Therefore, population trend for this species looks decreasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the annual counts, the numbers of sites for the species within the following years are as: 2008: 22 sites and 2009: 15 sites. Therefore, distribution of this species is stable to decreasing.

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

Species name – Common Name(s) **Eastern Imperial Eagle *Aquila heliaca***

1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the annual counts, the numbers of this species for the following years are as: 2008: 119 and 2009: 86. Therefore, population trend for this species looks stable to decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the annual counts, the numbers of sites for the species within the following years are as: 2008: 28 sites and 2009: 21 sites. Therefore, distribution of this species is stable to decreasing.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> Greater Spotted Eagle <i>Aquila clanga</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 41; 2009: 65 and 2010: 104. Therefore population size for this species is stable to increasing.
2b	Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter counts the numbers of sites with cover species are: 2008: 16 sites; 2009: 15 sites and 2010: 28 sites. Therefore distribution of this species is almost stable to increasing.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Annual mid winter count Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures Species protection <input checked="" type="checkbox"/> Increase on penalty rate Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Improve protected area network Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.
5	Describe any future activities that are planned for this species: No specific action for species as described above.

<i>Species name – Common Name(s)</i> Pallas's Fish Eagle <i>Haliaeetus leucoryphus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 4; 2009: 0 and 2010: 2. Therefore population size for this species is stable.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter counts the numbers of sites with cover species are: 2008: 1 sites; 2009: 0 sites and 2010: 2 sites. Therefore distribution of this species is stable.

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. 5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> Ferruginous Duck <i>Aythya nyroca</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 197; 2009: 360 and 2010: 622. Therefore population size for this species is increasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter counts the numbers of sites which cover the species are: 2008: 11 sites; 2009: 16 sites and 2010: 14 sites. Therefore distribution of this species is stable.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Annual mid winter count Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures Species protection <input checked="" type="checkbox"/> Increase on penalty rate Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Improve protected area network Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.
5	Describe any future activities that are planned for this species: No specific action for species as described above.

<i>Species name – Common Name(s)</i> Marbled Teal <i>Marmaronetta angustirostris</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 210; 2009: 204 and 2010: 447. Therefore population size for this species is increasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter counts the numbers of sites which cover the species are: 2008: 9 sites; 2009: 5 sites and 2010: 6 sites. Therefore distribution of this species is stable.

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> Red-breasted Goose <i>Branta ruficollis</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 5; 2009: 0 and 2010: 0. Therefore population size for this species is decreasing.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter counts the numbers of sites which cover the species are: 2008: 1 sites; 2009: 0 sites and 2010: 0 sites. Therefore distribution of this species is decreasing.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> Lesser White-fronted Goose <i>Anser erythropus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 0; 2009: 0 and 2010: 0. Therefore population size for this species is decreasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter counts the numbers of sites which cover the species are: 2008: 0 sites; 2009: 0 sites and 2010: 0 sites. Therefore distribution of this species is decreasing.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Annual mid winter count Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures Species protection <input checked="" type="checkbox"/> Increase on penalty rate Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Improve protected area network Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.
5	Describe any future activities that are planned for this species: No specific action for species as described above.

<i>Species name – Common Name(s)</i> Dalmatian Pelican <i>Pelecanus crispus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 8585; 2009: 4643 and 2010: 4719. Therefore population size for this species is decreasing.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> According to the Mid-winter counts the numbers of sites which cover this species are: 2008: 83 sites; 2009: 55 sites and 2010: 61 sites. Therefore distribution of this species is almost stable.

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

<i>Species name – Common Name(s)</i> Great White Pelican <i>Pelecanus onocrotalus</i>	
1	Please provide published distribution reference: Mansoori, J. 2008. A guide to the birds of Iran, Farzaneh Publishing, Tehran.
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter count results the number of counted for this species for the following years are as: 2008: 38; 2009: 12 and 2010: 85. Therefore population size for this species is stable.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>According to the Mid-winter counts the numbers of sites which cover this species are: 2008: 7 sites; 2009: 5 sites and 2010: 5 sites. Therefore distribution of this species is stable.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Annual mid winter count</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Site leaflets and brochures</p> <p>Species protection <input checked="" type="checkbox"/> Increase on penalty rate</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Improve guard system</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Improve protected area network</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>There was not any specific activity for this species as this species is among a group of birds which named "endangered and protected species", with a high consideration and protection through site conservation approach.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>No specific action for species as described above.</p>

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
1a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: By-catch <input checked="" type="checkbox"/> Collision with fishing traffic <input type="checkbox"/> Pollution <input checked="" type="checkbox"/> Illegal hunting <input type="checkbox"/> Other threats to migration (please provide details)	
2a	What actions are being undertaken to overcome these obstacles?	
2b	Please report on the progress / success of the actions taken.	
2c	What assistance, if any, does your country require in order to overcome these obstacles?	
3	What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)? Pollution <input checked="" type="checkbox"/> By-catch <input checked="" type="checkbox"/> Other (please specify)	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour?	
3b	Please report on the progress / success of the actions taken.	
3c	Describe any factors that may limit action being taken in this regard:	
3d	What assistance, if any, does your country require to overcome these factors?	

2.2 Questions on specific Appendix I marine mammals

In the following section, using the table format below, please fill in each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> <i>Physeter macrocephalus</i> - Sperm Whale	
1	Please provide published distribution reference: Nabavi, M & Sedghi, O & Nourbakhsh, S. Marine Mammals of the Persian Gulf and Sea of Oman.DOE Publishing,2009
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input checked="" type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input checked="" type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

<i>Species name – Common Name(s)</i> <i>Tursiops truncatus</i> - Common Bottlenose Dolphin	
1	Please provide published distribution reference: Nabavi, M & Sedghi, O & Nourbakhsh, S. Marine Mammals of the Persian Gulf and Sea of Oman.DOE Publishing,2009
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input type="checkbox"/></p> <p>Education / awareness rising <input checked="" type="checkbox"/></p> <p>Species protection <input type="checkbox"/></p> <p>Control hunting / poaching <input checked="" type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

<i>Species name – Common Name(s) Balaenoptera physalus - Fin Whale</i>	
1	<p>Please provide published distribution reference:</p> <p>Nabavi, M & Sedghi, O & Nourbakhsh, S. Marine Mammals of the Persian Gulf and Sea of Oman.DOE Publishing,2009</p>
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/></p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/></p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input type="checkbox"/></p> <p>Education / awareness rising <input checked="" type="checkbox"/></p> <p>Species protection <input type="checkbox"/></p> <p>Control hunting / poaching <input checked="" type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

<i>Species name – Common Name(s) Balaenoptera musculus -Blue Whale</i>	
1	Please provide published distribution reference: Nabavi, M & Sedghi, O & Nourbakhsh, S. Marine Mammals of the Persian Gulf and Sea of Oman.DOE Publishing,2009
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input checked="" type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input checked="" type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

<i>Species name – Common Name(s) Megaptera novaeangliae -Humpback Whale</i>	
1	Please provide published distribution reference: Nabavi, M & Sedghi, O & Nourbakhsh, S. Marine Mammals of the Persian Gulf and Sea of Oman.DOE Publishing,2009
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input type="checkbox"/></p> <p>Education / awareness rising <input checked="" type="checkbox"/></p> <p>Species protection <input type="checkbox"/></p> <p>Control hunting / poaching <input checked="" type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p>
5	<p>Describe any future activities that are planned for this species:</p>

<p>Miscellaneous information or comments on Appendix I marine mammals in general:</p>

3.2 Questions on specific Appendix I marine turtles

In the following section, using the table format below, please fill in each Appendix I marine turtle species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s) Chelonia mydas- Green sea turtle	
1	Please provide published distribution reference: Miller 1989, Mobaraki 2004,
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> studying of nesting sites, tagging</p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> monitoring of nesting sites at low level</p> <p>Education / awareness rising local fishermen and people, <input checked="" type="checkbox"/> conducting some public awareness activities for</p> <p>Species protection country <input checked="" type="checkbox"/> they are legally as the "protected species" of the</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> It is legly prohibited and subject to fine.</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection through legislations of "protected areas". <input checked="" type="checkbox"/> management and protection of important habitats</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	<p>Describe any future activities that are planned for this species:</p> <p>We hope to could conduct some conservation activities in the remaining nesting sites as well as some regional cooperation for the conservation of the species at regional level.</p>

Miscellaneous information or comments on Appendix I marine turtles in general:

The most part of the existing populations of the Green turtle consist of foraging populations which benefit from existing feeding grounds in different life stages. Very small nesting populations do exist which are faced to habitat destruction caused by natural factors, mainly.

<i>Species name</i> – Common Name(s) Eretmochelys imbricata - Hawksbill Sea turtle	
1	Please provide published distribution reference: Miller 1989, Mobaraki 2004, 2005, 2007, logmani 2008,
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> annual research on nesting populations in the main nesting sites</p> <p>Identification and establishment of protected areas <input checked="" type="checkbox"/> some of the most important sites are nominated as "protected areas, national parks and wildlife refuge" with specific legislations</p> <p>Monitoring <input checked="" type="checkbox"/> conducting monitoring activities during the nesting season</p> <p>Education / awareness rising with participation of local people and fishermen <input checked="" type="checkbox"/> some activities like beach cleaning up programs</p> <p>Species protection <input checked="" type="checkbox"/> they are legally nominated as the "protected species" of the country and any harvest is subject to fine.</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> any harvest and poaching is subject to fine</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> based on the regulations of protected areas the habitats are legally under protection and most activities prohibited there.</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>Tagging, satellite tracking and genetic studies are the most important parts.</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>We are focusing on some international agreements and treaties for more cooperation at regional level.</p>

<i>Species name</i> – Common Name(s) Lepidochelys olivacea- Olive Ridley sea turtle	
1	Please provide published distribution reference: Kami 1997, Mobaraki 2003,
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/>

3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input type="checkbox"/></p> <p>Education / awareness rising <input type="checkbox"/></p> <p>Species protection <input type="checkbox"/></p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p>
5	<p>Describe any future activities that are planned for this species:</p>

Miscellaneous information or comments on Appendix I marine turtles in general:

There are very few records on the existing of Olive Ridley in Iranian waters and the only 2 references confirming the species which both reported some dead turtles washed ashore in different life stages. It indicates that they use the habitats as their feeding grounds rather than having any nesting sites. We had no records on its nesting.

<i>Species name</i> – Common Name(s) Caretta caretta- Loggerhead sea turtle	
1	Please provide published distribution reference:
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input type="checkbox"/></p> <p>Education / awareness rising <input type="checkbox"/></p> <p>Species protection <input type="checkbox"/></p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>

4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I marine turtles in general:
Based on the one skull found and results of tracking in Oman, we suppose that Caretta enters to Iranian waters but not any confirmed records about the nesting as well as the populations.

<i>Species name</i> – Common Name(s) Dermochelys coriacea- Leatherback Sea Turtle	
1	Please provide published distribution reference: Dakhte 2007
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I marine turtles in general:
The only record of the Leatherback in the country is based on 2 dead turtles found washed ashore. But it could be the result of by catch in international waters or out of the national boundaries.

3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats) beyond actions to prevent disruption to migrating behaviour?</p> <ul style="list-style-type: none"> • Creation of Protected Area System ,identifying and designating of new protected areas and improving of conservation status of the existing protected area • Implementation of Conservation of Asiatic Cheetah Project (CACP) which is the first project addressing conservation of an species in Iran that started from September 2001, as a partnership between Department of Environment of Iran (DOE), Global Environment Facilities (GEF) United Nations Development Programme (UNDP)Wildlife Conservation Society (WCS), International union for conservation of Nature and Natural resources (IUCN) and Cheetah Conservation fund (CCF). • Activities related to knowing Asiatic\Iranian Cheetah and reach to baseline information on it. • Identification of corridors between habitats • Raising public awareness, educational programme and strengthening local communities' involvement • Providing equipment and human resources
3b	<p>Please report on the progress / success of the actions taken.</p> <ul style="list-style-type: none"> • Increase of cheetah population is tangible. • Effective activities have been successfully carried out in order to raising public awareness, educational programme and strengthening local communities' involvement. • Habitat managers and guards are well trained.
3c	<p>Describe any factors which limit action being taken in this regard: Limited human and financial resources, equipment, new tools and guidelines.</p>
3d	<p>What assistance/measures, if any, does your country require to overcome these factors? Financial and technical support.</p>

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

In the following section, using the table format below, please fill in each Appendix I terrestrial mammal species (other than bats) for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> Acinonyx jubatus – Common Name(s) Cheetah																																																	
1	Please provide published distribution reference: - Ziaie, Hooshang (1996). "MAMMALS of IRAN"																																																
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>																																																
2b	Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>																																																
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 50%;">Research</td> <td style="width: 50%; text-align: right;"><input checked="" type="checkbox"/> Several university thesis</td> </tr> <tr> <td>Identification and establishment of protected areas</td> <td style="text-align: right;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Monitoring</td> <td style="text-align: right;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Education / awareness rising</td> <td style="text-align: right;"><input checked="" type="checkbox"/> Site leaflets and brochures</td> </tr> <tr> <td>Species protection</td> <td style="text-align: right;"><input checked="" type="checkbox"/> Increase on penalty rate</td> </tr> <tr> <td>Control hunting / poaching</td> <td style="text-align: right;"><input checked="" type="checkbox"/> Improve guard system</td> </tr> <tr> <td>Species restoration</td> <td style="text-align: right;"><input type="checkbox"/></td> </tr> <tr> <td>Habitat protection</td> <td style="text-align: right;"><input checked="" type="checkbox"/> Improve protected area network</td> </tr> <tr> <td>Habitat restoration</td> <td style="text-align: right;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Other</td> <td style="text-align: right;"><input type="checkbox"/></td> </tr> </table> <ul style="list-style-type: none"> Conservation of Asiatic Cheetah Project (CACP) which is the first project which is addressing conservation of an species in Iran started from September 2001, as a partnership between Department of Environment of Iran (DOE), Global Environment Facilities (GEF) United Nations Development Programme (UNDP) Wildlife Conservation Society (WCS), International union for conservation of Nature and Natural resources (IUCN) and Cheetah Conservation Fund (CCF). At present, significant data is available on the cheetah in Iran which can support wildlife management and conservation strategies and action plans for the species and its ecosystems. The cheetah's confirmed habitats has increased by around 40% in area and more than 1/3 of area of the country's PAs is under protection by the CACP with support from DoE's provincial offices. Conducting surveys on various aspects of cheetah's ecology and biology in different areas, particularly on food habits, habitat preference, reproduction, etc. Scarce data and information about cheetah ecology has been a major project challenge and collection of reliable information in this regard has received high priority; As a result of project implementation, the number of confirmed cheetah habitats has increased from 5 sites with a total area of 3.8 million hectares to 13 sites with a total area of 5.4 million hectares. In other words, the total expanse of confirmed cheetah sites shows an increase of 40% over the life of the project. In addition, there exist 5 unconfirmed sites with occasional cheetah sighting reports, which shall be the subject of further investigations. Proof of cheetah presence in new areas has the immediate effect of raising sensitivity at the DoE and leads to mobilization of further resources by the DoE. <table border="1" style="width: 100%; border-collapse: collapse; margin-top: 10px;"> <thead> <tr> <th style="width: 15%;">Site</th> <th style="width: 20%;">Protection level before CACP</th> <th style="width: 20%;">Protection level during CACP</th> <th style="width: 45%;">Area (ha)</th> </tr> </thead> <tbody> <tr> <td>Naybandan</td> <td>Hunting Prohibited Area</td> <td>Wildlife Refuge</td> <td>1/520/000</td> </tr> <tr> <td>Turan</td> <td>Wildlife Refuge</td> <td>National Park</td> <td>140/000</td> </tr> <tr> <td>Siahkouh</td> <td>Hunting Prohibited Area</td> <td>National Park</td> <td>150/000</td> </tr> <tr> <td>Dare Anjir</td> <td>Hunting Prohibited Area</td> <td>Wildlife Refuge</td> <td>150/000</td> </tr> <tr> <td>Abbas Abad</td> <td>Free Area</td> <td>Wildlife Refuge</td> <td>300/000</td> </tr> <tr> <td>Miandasht</td> <td>Wildlife Refuge</td> <td>Core zone established</td> <td>85/000</td> </tr> </tbody> </table>	Research	<input checked="" type="checkbox"/> Several university thesis	Identification and establishment of protected areas	<input checked="" type="checkbox"/>	Monitoring	<input checked="" type="checkbox"/>	Education / awareness rising	<input checked="" type="checkbox"/> Site leaflets and brochures	Species protection	<input checked="" type="checkbox"/> Increase on penalty rate	Control hunting / poaching	<input checked="" type="checkbox"/> Improve guard system	Species restoration	<input type="checkbox"/>	Habitat protection	<input checked="" type="checkbox"/> Improve protected area network	Habitat restoration	<input checked="" type="checkbox"/>	Other	<input type="checkbox"/>	Site	Protection level before CACP	Protection level during CACP	Area (ha)	Naybandan	Hunting Prohibited Area	Wildlife Refuge	1/520/000	Turan	Wildlife Refuge	National Park	140/000	Siahkouh	Hunting Prohibited Area	National Park	150/000	Dare Anjir	Hunting Prohibited Area	Wildlife Refuge	150/000	Abbas Abad	Free Area	Wildlife Refuge	300/000	Miandasht	Wildlife Refuge	Core zone established	85/000

3	<ul style="list-style-type: none"> • Public awareness campaigns were established both nationally and locally in communities inside and around the cheetah habitats to increase people's knowledge about the cheetah and its ecosystem and dispel misconceptions and myths. A number of national and local NGOs and CBOs were engaged and empowered with the support of the UNDP/GEF/SGP. Awareness raising activities implemented by the latter civil society groups are acting as a prelude for collaborative management of cheetah habitats. • Public awareness increasing among local people with active involvement of the civil society through parallel funding provided by the SGP for four NGOs (i.e. Iranian Cheetah Society, Eco-Researchers Society, Plan for the Land Society and Mohitban Society) and with efforts targeted at addressing threats at the local level. • Public awareness campaign through mass media at local, national and international levels. A total of more than 50 topics on IRIB and more than 150 topics through newspapers • Formation of student core groups composed of eligible educated students selected based on 1 year education in Bafq and Turan; • Negotiations with local and regional CBOs and stakeholders (decision-makers, religious leaders, herders, women, etc.) in order to draw their attention toward cheetah conservation; • Designation of conservation strategies/measures and implementation of a law enforcement programme to augment protection • Legislative reforms to increase punitive measures for the direct kill of the cheetahs from 20,000,000 Rials to 200,000,000 Rials. At present, a cheetah kill would impose the highest fine on a violator compared to any other species in Iran ; • The average Cheetah killed per year has declined from 1.5 to 0.5.
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? -</p>
5	<p>Describe any future activities that are planned for this species?</p> <ul style="list-style-type: none"> • Improvement of conservation status of protected areas • Designated new protected areas with taking into accounts corridors between habitats to prevent island effects on the populations • Captive breeding programme • Reintroduction of cheetah to new habitats. • Continuation of cheetah habitats protection and empower the wardens of DOE through: • Continues monitoring of the activities by wardens in the cheetah habitats and the target protected areas • recruiting local people as wardens and proper education of the new wardens for new cheetah conservation site across the country • establishing protection and warden units in the new target areas • Equipping the wardens with necessary materials and technical support

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general:

5. BATS

5.1 General questions on Appendix I bats

1	Is the taking of all Appendix I bats prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No
1a	If the taking of Appendix I bats is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	<input type="checkbox"/> Yes <input type="checkbox"/> No
2	Identify any obstacles to migration that exist in relation to Appendix I bats: Vandalism of bat caves <input type="checkbox"/> Other threats to migration (please provide details)	
2a	What actions are being undertaken to overcome these obstacles?	
2b	Please report on the progress / success of the actions taken.	
2c	What assistance, if any, does your country require in order to overcome these obstacles?	
3	What are the major threats to Appendix I bats (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> Habitat fragmentation and loss <input type="checkbox"/> Other (please specify)	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats beyond actions to prevent disruption to migrating behaviour?	
3b	Please report on the progress / success of the actions taken.	
3c	Describe any factors that may limit action being taken in this regard:	
3d	What assistance/measures, if any, does your country require to overcome these factors?	

5.2 Questions on specific Appendix I bat species

In the following section, using the table format below, please fill in each Appendix I bat species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i>	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on trends (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>

6. OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above:
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above: Lack of legislation <input type="checkbox"/> Other threats to migration (please provide details)
3a	What actions are being undertaken to overcome these obstacles?
3b	Please report on the progress / success of the actions taken.
3c	What assistance, if any, does your country require in order to overcome these obstacles?
4	What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify)
4a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour?
4b	Please report on the progress / success of the actions taken.
4c	Describe any factors that may limit action being taken in this regard:
4d	What assistance, if any, does your country require to overcome these factors?

6.2 Questions on specific Appendix I species belonging to other taxa

In the following section, using the table format below, please fill in each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species ¹ not currently listed in Appendix I? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
1a	Is your country taking any steps to propose listing any of these species? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
1b	What assistance/measures, if any, does your country require to initiate the listing of these species?

¹ according to the latest IUCN red data list

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details: Iran participated in The First Official Signatory State Meeting of the UNEP/CMS Dugong MoU at Abu Dhabi, 4-6 October 2010.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input type="checkbox"/> No

2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input type="checkbox"/> No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	<p>Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p> <p>N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.</p>
1a	<p>Is your country taking any steps to propose the listing of this/these species in Appendix II? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p>
1b	<p>What assistance, if any, does your country require to initiate the listing of this/these species?</p>

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues	<input type="checkbox"/> Low <input checked="" type="checkbox"/> Medium <input type="checkbox"/> High																																	
2	<p>Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?</p> <p style="text-align: right;"> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No </p> <p>If Yes, please indicate and briefly describe the extent to which it addresses the following issues:</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of migratory species <input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas <input checked="" type="checkbox"/> Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch) <input checked="" type="checkbox"/> Minimizing or eliminating barriers or obstacles to migration <input checked="" type="checkbox"/> Research and monitoring of migratory species <input checked="" type="checkbox"/> Transboundary co-operation 																																		
3	<p>Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)</p> <p style="text-align: right;"> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No </p> <p>If Yes, please provide details:</p> <ol style="list-style-type: none"> 1. National Biodiversity Strategy and Action Plan 2. The conservation of migratory species is part of the obligations for the implementation of Game and Fishing Law and its Directives as well as the other relevant Laws which are listed under Chapter I(a) 3. National Conservation Management Programmes 4. Tehran Convention 5. Regional Association for Protection of Marine Environment (ROPME) 6. Economic Cooperation Organization(ECO)

VI. Policies on Satellite Telemetry

1	<p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p style="text-align: right;"><input type="checkbox"/> In preparation <input checked="" type="checkbox"/> on-going <input type="checkbox"/> completed</p> <p>- <u>Participating in the satellite tracking project on Marin Turtles implementing by the Emirates Wildlife Society and the Marine Research Foundation. (2010-2011)</u></p> <p>http://www.wildlifetracking.org/index.shtml?project_id=494</p> <p>- Siberian Crane Capture-Release Program</p> <p>The Siberian Crane was transferred from the OKA Crane Breeding Centre of Russia to Iran. The Siberian Crane was released near wild flock. This program includes attachments of PTT (Platform Transmitter Terminal) which conducted by DoE in wintering grounds of the western population of Siberian Cranes in Fereydoon Kenar dangah, Mazandaran Province, in cooperation with experts of OKA. Mentioned PTT, produced by ARGOS Company, provided by International Crane Foundation (ICF). 2011 planning is under consideration.</p> <p>- Identifying migratory routes of Onager in Bahramgoor PA by satellite telemetry, implementing by Esfahan University of technology, Research Institute of Wildlife Ecology University of Veterinary Medicine And DOE (2010-2012).</p> <p>- Leopard satellite telemetry in the north of Iran the main aim of this project is identifying the corridors between countries.</p>
2	<p>Are any future conservation/research projects planned that will use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects):</p> <p>- DOE is planning to undertake satellite Telemetry for Hubara Bustard, Great Bustard, Birds of Prey and Lesser White-fronted Goose but Difficulties in providing satellite telemetry equipments could be an impediment to these projects.</p> <p>If No, please explain any impediments or requirements in this regard:</p>
3	<p>Results – please describe the positive outcomes of any actions taken</p> <ul style="list-style-type: none"> • 2008 Captive–Bred Siberian Crane Capture-Release Program <ul style="list-style-type: none"> • A total of 9 Siberian Cranes were transferred to Iran during 4 years. The birds were released into FDK Damgah. Almost all of this birds joined wild flock and started spring migration. Released birds were marked with PTT. Unfortunately none of them returned in autumn migration. • The Turtle Tracking Project: <ul style="list-style-type: none"> • Good results have been achieved in identifying foraging grounds and linkages between nesting and feeding population assemblages. • Identifying migratory routes of Onager in Bahramgoor PA by satellite telemetry <ul style="list-style-type: none"> • Baseline studies have been done.

VII. Membership

1	<p>Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)</p>
1a	Identify the agency, department or organization responsible for leading on this action in your country:
2	Results – please describe the positive outcomes of any actions taken

VIII. Global and National Importance of CMS

1	<p>Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p> <p>National level: Participation in Exhibitions, releasing the translated version of CMS brochure, holding a workshop on "Introducing the CMS" for DoE Experts as a training of trainers programme.</p>
2	Identify the agency, department or organization responsible for leading on this action in your country: DOE
3	Results – please describe the positive outcomes of any actions taken

IX. Mobilization of Resources

1	<p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>DoE (as a governmental organization) is charged with research, the control and monitoring of Protected Areas, conservation of wetlands, and conservation of endangered species through its financial and human resources. Some of its most significant Funding having direct benefits for migratory species during 2008-2011 are listed as follow:</p> <p>Funding of Restoration and Rehabilitation of Degraded Ecosystems Plan.</p> <p>Funding of Terrestrial Biomes and Inland Water Conservation Plan.</p> <p>Funding of Conservation of Biodiversity Plan.</p> <p>Funding of Annual January Monitoring and Census of Migratory Waterbirds in Iran</p> <p>Funding of Marin Environment Conservation Plan</p> <p>Funding of comprehensive management plans of protected areas</p> <p>Co-Funding of International Project on Wetlands.</p> <p>Co-Funding of International Project on Siberian Crane Wetlands.</p> <p>Co-Funding of International Project on Conservation of Biodiversity in the Central Zagros.</p>
---	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these activities):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
6	Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? If Yes, please provide details (Indicate the migratory species that have benefited from these activities): - Currently Iranian Wetland Project is ongoing in Iran with financial support of GEF. - CACP is another project which has been supported by GEF - UNDP/GEF Siberian Crane Project - UNDP/GEF Conservation of Biodiversity in the Central Zagros Project - UNDP/SGP Marine Turtles Project	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch

Resolution 6.3 – Southern Hemisphere Albatross Conservation

Resolution 7.2 – Impact Assessment and Migratory Species

Conducting EIA for any developments and projects with consideration to migratory routes and migratory species

Resolution 7.3 – Oil Pollution and Migratory Species

Resolution 7.4 – Electrocutation of Migratory Birds

Documentation of accidents with power lines and cases of electrocution

Resolution 7.5 – Wind Turbines and Migratory Species

Resolution 7.9 – Cooperation with Other Bodies and Processes

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species

Resolution 8.1 – Sustainable Use

Study and development of policies for fair distribution of biodiversity related benefits among local community. Also integrating biodiversity concerns in development plans, development of framework for utilization of biodiversity resources and monitoring this utilization are the main aims of sustainable development approach.

Improvement of environmental laws and regulations especially development of national laws related to biosafety and ecotourism. Since economic motive is one of the main reasons for unsustainable utilization of biodiversity resources, identifying and demonstrating different aspects of the economic values of these resources is very important. Some of the activities conducted are as below:

Developing environmental criteria for utilization of biodiversity related resources(e.g. water resources, wildlife, forest, etc.)

Development of the protected areas system;

Regulation of hunting and fishing;

Raising of public awareness;

Species and habitat protection;

Biodiversity monitoring and the improvement of legislation

Resolution 8.2 – CMS Strategic Plan 2006-2011

- Provided the Secretariat national information on status of species, threats to migratory species,
- Integrated migratory species into the National Strategy on Biological Diversity;
- Participated in relevant Agreements;
- Submitted comprehensive and accurate national report;

Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

Siberian Crane MoU:

Capture-Release Siberian Crane Program, Public awareness, strengthening conservation activities, delivering national reports and participation in the meetings.

Slender-billed Curlew MoU:

Translation of RSPB toolkit to Farsi and releasing information leaflets and brochures, arranging a birdwatchers campaign for finding the species across the country (2010-2011)

Marine Turtle MoU - IOSEA:

Public awareness, strengthening conservation activities, research and monitoring activities, delivering national reports and participation in the meetings

Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity Target

Iran has made some progress towards the 2010 biodiversity targets. From 2008 until the end of August 2010 the coverage of the protected areas has increased by 0.1%. At present, approximately 7.8% of the national territory is under the national protection systems and included in protected areas. These areas have been selected on the basis of being representatives of the world's ecological regions. Conservation of threatened species and their habitats are one of the main concerns of the country.

Iran has conducted research activities, enhanced legal protection of the habitats, increased public awareness and started captive breeding. Also national targets relating to the endangered species; "supporting in situ and ex situ biodiversity emphasizing on endangered plant and animal species" and "conservation of endangered species", have been included in the NBSAP.

However unsustainable consumption continues to be a major cause of biodiversity loss in Iran. There are some laws and regulations, which controls unsustainable consumption of biological resources and their impacts but still not enough. The government of Iran has taken steps to encourage sustainable production and consumption at all levels to keep the use of natural resources within the ecological limits.

Polluting and contamination of the natural habitats are severely prohibited and subject to high penalties. The sewage of the factories is periodically checked and has to meet the standards. However still about 60-70 % of industrial sewage is discharged into the environment. Also the use of chemical fertilizers and pesticides is very high in the agriculture. Only in 2% of the national agricultural lands crops are produced organically. The highest water pollution in the country comes from agricultural activities.

In recent years, Iran has allocated good funds for national and international biodiversity conservation programs and projects. Although these funds have not been enough to address all the critical needs of biodiversity conservation but it has attracted the required attention of high level decision makers and other groups of the public to the issue of biodiversity conservation. Financial and technical international supports have and can help Iran in better implementation of biodiversity projects.¹

Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)

Resolution 8.11 - Co-operation with other Conventions

Within the framework of the implementation of the Ramsar Convention removal of Alagol, Almagol and Ajigol sites (which are important sites for migratory species) from the Montreux Record and extension of Kiashahr Ramsar site to total area of Boujagh National Park has been conducted.

Nomination of New Ramsar Sites (Expansion of Boujagh NP and designation of FDK as a new International Wetland)

The 40th anniversary of signing of the Ramsar Convention on Wetlands was held in Tehran and Ramsar, Islamic Republic of Iran, on 5th and 6th March 2011 respectively.

Regional Centre for Training and Research on Wetlands in West and Central Asia has been established in Ramsar city, in Iran. This centre works under the supervision and guidance of the Ramsar Convention and it was approved to be established at the 8th Conference of Parties to Ramsar Convention held in Valencia. The overall goal of the centre is to enhance the implementation of the Ramsar Convention in the region through training, research, advocacy and public awareness programmes. To date the centre has conducted many regional workshops and meetings. More information on the centre is available at: <http://www.rcc-cwa.org/en/index.php>

The Regional Capacity Development Workshop for Central Asia on National Biodiversity Strategies and Action Plans (NBSAPs) and the Mainstreaming of Biodiversity co-hosted by the Department of the Environment and the Ramsar Regional Center for Central and Western Asia, took place in Ramsar City of Iran from 9 to 12 March 2009. It was organized by the CBD Secretariat, and brought together more than 20 participants including representatives from following member countries of the Economic Cooperation Organization (ECO): Azerbaijan, Iran (Islamic Republic of), Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan and Uzbekistan. The overall purpose of the Workshop was to strengthen national capacities for the development, implementation, reviewing and updating NBSAPs and the integration of biodiversity concerns into relevant sectors, through exchange of experiences; and to provide an opportunity for countries to identify ways and means for overcoming challenges in the implementation of NBSAPs. The field trip of the workshop also provided valuable insights in the link between biodiversity conservation and development.

Recognizing the benefits of synergetic implementation of the three Rio conventions, including integrated reporting, an informal collaboration committee has been established between DoE and MAJ to exploring and enhancing synergies, with due regard to their respective mandates, in the elaboration and implementation of strategies and action plans under the respective conventions.²

Resolution 8.13 - Climate Change and Migratory Species

A study was carried out to assess the impact of climate change on biodiversity of Iran. The draft final report of this section is ready. In addition, in the Climate Change Act, which is under preparation for the 5th National Development Plan to be approved by the Parliament next year, the impact of climate change on biodiversity will be taken into consideration. In addition, Iran has developed some activities in the NBSAP: "Studying on interaction of climate change and biodiversity."³

Resolution 8.14 – By-Catch

Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans

Resolution 8.24 - National Reports for the Eighth and Ninth Meetings of the Conference of the Parties

Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza

Iran has started implementing the Resolution 8.27 by conducting the national research and prudential program including promotion of conservation measures for important migratory birds sites , raising public awareness, holding workshops and training course and publication of articles, brochures and leaflets

Resolution 8.29 - Concerted Actions for Appendix I Species

Resolution 9.1 – Concerted and Cooperative Actions

Resolution 9.2 – Priorities for CMS Agreements

Resolution 9.3 – CMS Information Priorities

Resolution 9.5 – Outreach and Communication Issues

Resolution 9.7 – Climate Change Impacts on Migratory Species

Resolution 9.9 – Migratory Marine Species

Resolution 9.12 – Capacity Building Strategy

Resolution 9.18 – By-catch

Resolution 9.19 – Adverse Anthropogenic Marine/Ocean Noise Impacts on Cetaceans and other Biota

Resolution 9.20 – The Saker Falcon

Terms of the Reference for integrated management plan for conservation of the Saker Falcon has been prepared.

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

Recommendation 7.7 – America Pacific Flyway Programme

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

Recommendation 8.16 – Migratory Sharks

Recommendation 8.17 – Marine Turtles

Recommendation 8.23 - Central Eurasian and Aridland Mammals

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

Recommendation 8.28 - Cooperative Actions for Appendix II Species

Recommendation 9.1 – Central Eurasian Aridland Mammals

Recommendation 9.2 – Sahelo-Saharan Megafauna

Recommendation 9.3 – Tigers and Other Asian Big Cats

Recommendation 9.5 – Cooperative Action for the Elephant (*Loxodonta africana*) in Central Africa

Other resolutions/recommendations:

Other remarks:

Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP9 in 2008 and Parties which did not submit a National Report in 2008 are requested to complete the entire form.

Parties that did submit a report in 2008 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8 and COP9).

Species	Range State	Extinct at National level	No information available	Published distribution reference

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).
