

CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/Inf.9.12.19
1 June 2008

Original: English

NINTH MEETING OF THE
CONFERENCE OF THE PARTIES
Rome, 1-5 December 2008
Agenda Item 10(a)

REVIEW OF IMPLEMENTATION OF THE CONVENTION

National Reports Submitted by Contracting Parties

Report of: **Croatia** (received: 1.06.2008)

The Secretariat is making available, for the information of participants in the Ninth Meeting of the Conference of the Parties to the Convention on Migratory Species, the national reports provided by Contracting Parties. For the most part, the national reports have been reproduced in the form in which they were received, apart from minor formatting.

REVUE DE L'APPLICATION DE LA CONVENTION

Rapports nationaux soumis aux parties contractantes

Rapport de: **Croatie** (reçu: 1.06.2008)

Pour l'information des participants à la Neuvième Réunion de la Conférence des Parties à la Convention sur les Espèces migratrices, le Secrétariat met à leur disposition des rapports nationaux fournis par les parties contractantes. Dans la plupart des cas, les rapports nationaux ont été reproduits dans la forme même sous laquelle nous les avons reçus, abstraction faite de formatages mineurs.

REVISION DE LA APLICACION DE LA CONVENCION

Reportes Nacionales Enviados por los Miembros del Acuerdo

Reporte de: **Croacia** (recibido: 1.06.2008)

Los reportes nacionales enviados por los Miembros del Acuerdo están a disposición de los participantes del Novena Reunión de la Conferencia de los Miembros de la Convención sobre Especies Migratorias en la Secretaría. La mayoría de ellos se encuentran en la versión original en la que se enviaron, con excepción de pequeños ajustes de formato.

Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Ninth Meeting of the Conference of the Parties (COP9) (Rome, 2008).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country: **CROATIA**

Which agency has been primarily responsible for the preparation of this report?

Ministry of Culture, Nature Protection Directorate, Runjaninova 2, HR - 10000 Zagreb

Please list any other agencies that have provided input:

State Institute for Nature Protection, Trg Mazuranica 5, HR - 10000 Zagreb

Institute for Ornithology to the Croatian Academy of Arts and Science, Gunduliceva 24, HR - 10000 Zagreb

I(a). General Information

Please enter the required information in the table below:

Party	
Date of entry into force of the Convention in [CROATIA]	1 October 2000
Period covered	2005-2007
Territories to which the Convention applies	CROATIA
DESIGNATED NATIONAL FOCAL POINT	
Full name of the institution	MINISTRY OF CULTURE, NATURE PROTECTION DIRECTORATE
Name and title of designated Focal Point	Ms Ana Kobašlic, Expert Adviser
Mailing address	Runjaninova 2, 10000 Zagreb, CROATIA
Telephone	+385 1 4866 125
Fax	+385 14866 100
E-mail	ana.kobaslic@min-kulture.hr
APPOINTMENT TO THE SCIENTIFIC COUNCIL	
Full name of the institution	Institute for Ornithology
Name and title of contact officer	Dr. Jelena Kralj
Mailing address	Gunduliceva 24, 10000 Zagreb, CROATIA
Telephone	+385 1 4825 401
Fax	+385 1 4825 392
E-mail	zzo@hazu.hr
SUBMISSION	
Name and Signature of officer responsible for submitting national report	Name: Kornelija Pintaric; Director Address: Runjaninova 2, 10000 Zagreb, CROATIA Tel.: +385 1 4866 315 Fax: +385 1 4866 385 E-mail: zoran.sikic@min-kulture.hr
Date of submission	
Membership of the Standing Committee (if applicable): NO	Name: Address: Tel.: Fax: E-mail:
Competent Authority:	MINISTRY OF CULTURE, NATURE PROTECTION DIRECTORATE
Relevant implemented legislation:	Law on Ratification of the Bonn Convention (OG – International Treaties, No 6/2000); Nature Protection Act (OG No 70/05); Ordinance on proclamation of wild taxa as protected or strictly protected (OG 7/06)
Other relevant Conventions/ Agreements (apart from CMS) to which CROATIA is a Party:	Convention on Biological Diversity (CBD); Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES); Convention on Conservation of European Wildlife and Natural Habitats (“Bern Convention”); Convention on Wetlands of International Importance Especially as Waterfowl Habitat (“Ramsar Convention”); Convention for the Protection of the World Cultural and Natural Heritage Convention for the Protection of the Marine Environment and the Coastal Region of the Mediterranean (“Barcelona Convention”); Protocol Concerning Specially Protected Areas and Biological Diversity in the Mediterranean (“SPA and Biodiversity Protocol”); International Convention on Regulation of Whaling
National policy instruments (e.g. national biodiversity conservation strategy, etc.):	National Biodiversity and Landscape Strategy and Action Plan (NBSAP), (OG No 81/99), under revision

Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution

Wadden Sea Seals:	<input type="checkbox"/> Party	<input type="checkbox"/> Non-party Range State

1	<p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p>State Institute for Nature Protection (SINP), Ministry of Science, Education and Sport (MSES)</p>
2	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>The State Institute for Nature Protection (SINP) is an institution centrally responsible for specialized nature protection activities in Croatia. It was set up by the Decree of the Government in 2002 and started operating in September 2003, with the aim to ensure the maintenance and enhancement of nature conservation in Croatia in the long run by high quality expertise work.</p> <p>The Ministry of Science, Education and Sport finances scientific research projects and monitoring activities of some migratory species and their habitats.</p>
3	<p>Has a national liaison system or committee been established in your country? Please provide contact information</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>
4	<p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>Croatian Ornithological Society, Zagreb – research, monitoring, conservation of birds and their habitats</p> <p>Eco-Center Caput Insulae, Beli, Rijeka - research, monitoring, conservation of the Griffon Vulture (<i>Gyps fulvus</i>)</p> <p>Croatian Society for the Conservation of Birds and Nature, Zagreb – research, monitoring, conservation of birds and their habitats</p> <p>Blue World Institute of Marine Research and Conservation, Veli Lošinj – research, monitoring, conservation of cetaceans, marine turtles and other endangered marine vertebrates and their habitats</p> <p>Monk Seal, Zagreb – rising of public awareness about the potential presence of the Monk Seal (<i>Monachus monachus</i>) and conservation of its potential habitats</p> <p>Society for nature conservation “Val”, Zagreb</p> <p>Croatian Biospeleological Society (CBSS) – research, monitoring, conservation of bats and their habitats</p> <p>Centre for Nature Research and Conservation Fokus – research, monitoring, conservation of bats and their habitats</p> <p>Biology Students Association BIUS, Bird Group, Bat Group – research, monitoring, conservation of birds, bats and their habitats</p> <p>Association for Bat Conservation Tragus (ABC Tragus) – research, monitoring, conservation of bats and their habitats</p>
4a	<p>Please provide detail on any devolved government/overseas territory authorities involved.</p>
5	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>Not significant - mostly through sponsorship of conservation projects</p>
6	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>The private sector sometimes, but rarely, provides financial support for conservation projects of NGOs. The governmental sector implements relevant legislation, organizes conservation activities and provides technical and financial support for the project</p>

I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1	Birds	Ministry of Culture- Nature Protection Directorate, State Institute for Nature Protection and Institute of Ornithology
2	Marine Mammals	Ministry of Culture, Nature protection Directorate, State Institute for Nature Protection, Croatian Natural History Museum, Zagreb, Faculty of Veterinary Medicine, Zagreb, NGO “Blue World – Institute of Marine Research and Conservation”, Veli Lošinj
3	Marine Turtles	Ministry of Culture - Nature Protection Directorate,, State Institute for Nature Protection, Croatian Natural History Museum Zagreb
4	Terrestrial Mammals	N/A
5	Bats	Ministry of Culture - Nature Protection Directorate,, State Institute for Nature Protection, Croatian Natural History Museum Zagreb
6	Other Taxa	Ministry of Culture - Nature Protection Directorate,, State Institute for Nature Protection, Center of Marine Studies, University of Split

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	<p>Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7): By way of derogation from provisions of Nature Protection Act, in the case of justified public interest and provided the derogation will not be harmful for survival of a particular population, the Ministry may authorize operations for the sake of: protection of plants, fungi and animals, preventing severe damages on crops, livestock, forests, fishponds, water and other forms of property, protection of public health and safety, air safety or other overriding public interests, and research and education to maintain favourable status of the species</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I bird species:</p> <p>By-catch <input type="checkbox"/> Electrocutation <input checked="" type="checkbox"/></p> <p>Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input checked="" type="checkbox"/></p> <p>Pollution <input type="checkbox"/></p> <p>Other (please provide details)</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>Designation of the ecological network (EN) with the system of ecologically important areas and ecological corridors including potential NATURA 2000 sites (pSPA)- Regulation on proclamation of the ecological network (OG 109/07). Conducting Environment Impact Assessment studies (EIA) for construction of electric power lines.</p>
2b	<p>Please report on the progress / success of the actions taken.</p> <p>As a part of national Ecological Network (EM) 40 Special Protected Areas for birds and one corridor Palagruža-Lastovo-Pelješac (provides birds migratory route across the Adriatic sea) are designated.</p> <p>EIA studies include measures for diminishing negative impact from construction of electric power lines.</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>Technical and financial support for relevant conservation actions and projects</p>
3	<p>What are the major threats to Appendix I bird species (transcending mere obstacles to migration)?</p> <p>Illegal trade <input checked="" type="checkbox"/> Poaching <input checked="" type="checkbox"/></p> <p>Other (please specify)</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?</p> <p>Training of customs, border and criminal police and nature protection inspection through workshops and seminars on protected species which are subject of illegal trade</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>Basics knowledge is provided to all enforcement sectors through Integral border management programmes in Croatia. Additionally, since 2004, specialised 5-days seminars are conducted, in total in last 5 years cca 200 people was trained.</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <p>Insufficient control during organised hunts of waterbirds</p>
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>Technical and financial support for relevant conservation actions and projects</p>

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> Aythya nyroca - Ferruginous Duck																					
1	Please provide published distribution reference: Radovic, D. et al. (2003): Red Data Book of Birds of Croatia. Ministry of Environmental Protection and Physical Planning, Zagreb, 179 pp., Radovic, D. et al (2005): National Ecological Network – areas important for birds in Croatia. SINP; Zagreb, 84 pp																				
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> 2000-3000 pairs																				
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Lowland Croatia; around 90% of breeding population depends on carp fishponds																				
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. Other	<input type="checkbox"/>																				
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?																				
5	Describe any future activities that are planned for this species: Census of the total breeding population in 2008 and 2009, protection of some carp fishponds																				

<i>Species name – Common Name(s)</i> Haliaeetus albicilla - White-tailed Eagle	
1	Please provide published distribution reference: Radovic, D. et al. (2003): Red Data Book of Birds of Croatia. Ministry of Environmental Protection and Physical Planning, Zagreb, 179 pp. , Radovic, D. et al (2005): National Ecological Network – areas important for birds in Croatia. SINP; Zagreb, 84 pp
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> 135-170 pairs
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Alluvial wetlands and carp fishponds in lowland Croatia surrounded by alluvial forests.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Identification and establishment of protected areas <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input checked="" type="checkbox"/> colour-ringing
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Protection of particular carp fishponds

<i>Species name</i> – Common Name(s) Aquila clanga, Spotted Eagle	
1	Please provide published distribution reference: Radovic, D. et al (2005): National Ecological Network – areas important for birds in Croatia. SINP; Zagreb, 84 pp
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> 3-8 wintering birds
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Nature Park Kopacki rit and Nature Park Lonjsko polje
3	Indicate (with an ‘X’) and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input checked="" type="checkbox"/> Monitoring <input type="checkbox"/> Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Monitoring of wintering birds

<i>Species name</i> – Common Name(s) Otis tarda – Great Bustard	
1	Please provide published distribution reference: Radovic, D. et al. (2003): Red Data Book of Birds of Croatia. Ministry of Environmental Protection and Physical Planning, Zagreb, 179 pp.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> irregular and rare during winter
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Most recent data are from North West Croatia
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education/awareness rising <input checked="" type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input checked="" type="checkbox"/> collecting data on observations
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Identification of most visited sites (if any); and establishing habitat management

<i>Species name – Common Name(s)</i> Larus audouinii –Audouin's Gull	
1	Please provide published distribution reference: Radovic, D. et al. (2003): Red Data Book of Birds of Croatia. Ministry of Environmental Protection and Physical Planning, Zagreb, 179 pp. ; Radovic, D. et al (2005): National Ecological Network – areas important for birds in Croatia. SINP; Zagreb, 84 pp
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> 53-63 pairs
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Small islands in the Southern Adriatic
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Education/awareness rising <input checked="" type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input checked="" type="checkbox"/> colour-ringing
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Future monitoring, research on competition with Yellow-legged Gulls

Miscellaneous information or comments on Appendix I birds in general:
Anser erythropus, Pelecanus crispus, Pelecanus onocrotalus, Numenius tenuirostris, Acrocephalus paludicola, are rare species in Croatia, Aquila heliaca – only one pair is breeding , Falco naumanni is extinct as breeding species and is observed only during migration

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	<p>Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): By way of derogation from provisions of Nature Protection Act, in the case of justified public interest and provided the derogation will not be harmful for survival of a particular population, the Ministry may authorize operations for the sake of: protection of plants, fungi and animals, preventing severe damages on crops, livestock, forests, fishponds, water and other forms of property, protection of public health and safety, air safety or other overriding public interests, and research and education to maintain favourable status of the species.</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I marine mammals:</p> <p>By-catch <input checked="" type="checkbox"/> Collision with fishing traffic <input type="checkbox"/></p> <p>Pollution <input checked="" type="checkbox"/> Illegal hunting <input type="checkbox"/></p> <p>Other threats to migration (please provide details) Lack of knowledge and conservation-awareness within fishermen sector, lack of detailed scientific information</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>See point 3a</p>
2b	<p>Please report on the progress / success of the actions taken.</p> <p>See point 3b</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>Technical and financial support</p>
3	<p>What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)?</p> <p>Pollution <input checked="" type="checkbox"/> By-catch <input checked="" type="checkbox"/></p> <p>Other (please specify) Degradation and habitat loss, noise, lack of food</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour?</p> <p>1) Capacity-building, Training and Education: In October 2007 the Blue World hosted ACCOBAMS training courses in the Marine Education Centre in Veli Lošinj aimed to establish a network of NGOs working together in the Adriatic region (particularly the eastern side) and to educate local tour agencies about code of contacts regarding dolphin watching. The "Year of the Dolphin" poster was prepared by the State Institute for Nature Protection (SINP) and the Ministry of Culture. The SINP also produced two series of bookmarks, including the ones featuring bottlenose dolphins. Mediterranean Monk Seal Group has been rising public awareness about the potential presence of the Monk Seal (<i>Monachus monachus</i>) and conservation of its potential habitats.</p> <p>2) Research and Monitoring: Monitoring of the common bottlenose dolphin population in the archipelago of the Cres-Lošinj is being carried out by the Blue World NGO. It includes mortality analysis and data processing, impacts of anthropogenic noise in the critical habitats, the common bottlenose dolphin's behaviour and genetic variations. Research into causes of death, the health status, the sex and age structure of the population and morphologic and genetic peculiarities of cetaceans have been carried out by Faculty of Veterinary Medicine. The Faculty is collecting and analyses all marine mammal carcasses found in the Croatian part of the Adriatic Sea. Anatomical, pathological, parasitological and genetic analyses are carried out and tissue samples collected for toxicological and other analysis. The Faculty also provides assistance in resolving problems related to stranding of live animals. The Croatian Natural History Museum (CNHM) has been keeping samples collected from the stranded animals. It also collects data on sightings of vagrant cetacean species of the Mediterranean Sea and provides support in resolving problems that occur during stranding or irregular cetacean behaviour events (entering shallow bays, harbours, interaction with humans etc.). Identification of the presence of the Mediterranean Monk Seal (<i>Monachus monachus</i>) in the local waters of the Island of Lošinj in 2006 was carried out.</p> <p>3) Establishment of ecological network: Areas important for cetaceans have been included in national Ecological</p>

	<p>Network, officially adopted by Government in 2007. Preparation of the final proposal of NATURA 2000 is in process.</p> <p>4) Designation of protected areas: The area of Cres-Lošinj archipelago, which is recognized both at international and national level as critical habitat for only resident community of bottlenose dolphins in the Adriatic known so far, was granted preventive protection as special marine reserve by Ministry of Culture in July 2006 for the period of the three years. Consideration for permanent protection is in process.</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>Regular meetings with all stakeholders groups (governmental organizations, local community, NGOs, scientific institutions, fisheries sector) for reaching the agreement regarding permanent protection of the Cres- Lošinj area</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <p>Lack of human, technical and financial resources</p>
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>Technical and financial assistance</p>

2.2 Questions on specific Appendix I marine mammals

In the following section, using the table format below, please fill in each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> Monachus monachus - Mediterranean Monk Seal																					
1	Please provide published distribution reference: Tvrtkovic, N. et al. (2006): Red Book of Mammals of Croatia, Ministry of Culture, State Institute for Nature Protection, Zagreb; Gomercic, H. et al. (2006): Mediterranean monk seal in the Northern Adriatic Sea?, Natural history researches of the Rijeka region : the 2nd Scientific Symposium , Rijeka																				
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Regionally Extinct																				
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Occasional visiting animals are recorded very rarely at few sites in Adriatic Sea																				
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <table style="width: 100%; border: none;"> <tr> <td style="width: 80%;">Research</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Identification and establishment of protected areas</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Monitoring</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Education / awareness rising</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Species protection</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> </tr> <tr> <td>Control hunting / poaching</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Species restoration</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Habitat protection</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Habitat restoration</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Other</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> </table>	Research	<input checked="" type="checkbox"/>	Identification and establishment of protected areas	<input type="checkbox"/>	Monitoring	<input checked="" type="checkbox"/>	Education / awareness rising	<input checked="" type="checkbox"/>	Species protection	<input checked="" type="checkbox"/>	Control hunting / poaching	<input type="checkbox"/>	Species restoration	<input type="checkbox"/>	Habitat protection	<input type="checkbox"/>	Habitat restoration	<input type="checkbox"/>	Other	<input type="checkbox"/>
Research	<input checked="" type="checkbox"/>																				
Identification and establishment of protected areas	<input type="checkbox"/>																				
Monitoring	<input checked="" type="checkbox"/>																				
Education / awareness rising	<input checked="" type="checkbox"/>																				
Species protection	<input checked="" type="checkbox"/>																				
Control hunting / poaching	<input type="checkbox"/>																				
Species restoration	<input type="checkbox"/>																				
Habitat protection	<input type="checkbox"/>																				
Habitat restoration	<input type="checkbox"/>																				
Other	<input type="checkbox"/>																				
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? Continuation of education, awareness rising, research and monitoring																				
5	Describe any future activities that are planned for this species:																				

<i>Species name – Common Name(s) : Delphinus delphis - Short-beaked Common Dolphin</i>	
1	Please provide published distribution reference: Tvrtkovic, N. et al. (2006): Red Book of Mammals of Croatia, Ministry of Culture, State Institute for Nature Protection, Zagreb
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> There is impossible to assess population size and threats because of lack of research and lack of data for all parts of Adriatic Sea
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> Only occasional visiting animals are recorded very rarely at few sites in the northern part of Adriatic Sea. According to available data we can conclude that the animals are not residing anymore in the southern part of Adriatic Sea
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: - Research, monitoring, raising of public awareness

Species name – Common Name(s) Balaenoptera physalus - Common Rorqual; Fin Whale; Finback; Fin-backed Whale

1	Please provide published distribution reference: Gomercic, T. et al. (2006): Fin whale (<i>Balaenoptera physalus</i>) calf stranded on the island Prvic near island Krk, Natural history researches of the Rijeka region : the 2nd Scientific Symposium , Rijeka
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Several visits of adult animals or females with calves occur regularly each year. Visiting animals are part of the Mediterranean stock. Animals usually follow the sea currents and travel along the eastern Adriatic coast towards North. Occasionally, some animals strand or die
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input checked="" type="checkbox"/> Faculty of Veterinary Medicine is researching fin whale populations in the Adriatic Sea based on the data collected from the dead specimens/stranded whales. Blue World NGO is monitoring fin whale populations in Adriatic sea, conducting rescue operations of vagrant whales and informing the public on acceptable behavior in their presence.
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Activates regarding awareness raising and education of general public

Miscellaneous information or comments on Appendix I marine mammals in general:

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

1	<p>Is the taking of all Appendix I marine turtles prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I marine turtles is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): By way of derogation from provisions of Nature Protection Act, in the case of justified public interest and provided the derogation will not be harmful for survival of a particular population, the Ministry may authorize operations for the sake of: protection of plants, fungi and animals, preventing severe damages on crops, livestock, forests, fishponds, water and other forms of property, protection of public health and safety, air safety or other overriding public interests, and research and education to maintain favourable status of the species.</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I marine turtles:</p> <p>By-catch <input checked="" type="checkbox"/> Pollution <input type="checkbox"/></p> <p>Other threats to migration (please provide details)</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>See point 3a</p>
2b	<p>Please report on the progress / success of the actions taken.</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>International co-funding of specific research project aimed at obtaining basic data on demography, distribution and habitat utilization of the species in Croatian Adriatic waters. Support for preparation of the action plan for conservation of marine turtles, based on results of the research project</p>
3	<p>What are the major pressures on Appendix I marine turtles (transcending mere obstacles to migration)?</p> <p>Collection of eggs <input type="checkbox"/> Predation of eggs <input type="checkbox"/></p> <p>Destruction of nesting beaches <input type="checkbox"/></p> <p>Other (please specify)</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles beyond actions to prevent disruption to migrating behaviour?</p> <p>Areas important for marine turtles have been included in national Ecological Network (EN). As a part of EN is corridor which covers coastal area till 50 meters in depth, important for sea turtle migrations.</p> <p>Croatian Natural History Museum (CNHM) is conducting research, monitoring, education and conservation-awareness campaigns for fishery sector, and collecting samples from the stranded animals. CNHM is leading the project: "Identification of critical winter habitats of Loggerhead Turtle (<i>Caretta caretta</i>)" since 1993.</p> <p>Cres-Lošinj archipelago is under preventive protection as a special marine reserve (since 2006) for the period of the three years. Although the main reason for protection of this area are bottlenose dolphin populations, also this is a winter feeding area for Loggerhead Turtle (<i>Caretta caretta</i>).</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>See 3a</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <p>Lack of human and financial resources</p>
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>Technical and financial support</p>

3.2 Questions on specific Appendix I marine turtles

In the following section, using the table format below, please fill in each Appendix I marine turtle species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> Caretta caretta – Loggerhead Turtle	
1	<p>Please provide published distribution reference: Lazar, B. et al. (2003): Temporal and spatial distribution of the loggerhead sea turtle <i>Caretta caretta</i> in the eastern Adriatic Sea: a seasonal migration pathway? Pages 283-284. In: Seminoff J.A. (Ed) Proceedings of the Twenty-second Annual Symposium on Sea Turtle Biology and Conservation. NOAA Tech. Memo. NMFS-SEFSC-503, Miami: 283-284</p> <p>Lazar B et al (2006): Diet composition of loggerhead sea turtle <i>Caretta caretta</i> in the Adriatic Sea. U: Book of Abstracts, 26th Annual Symposium on Sea Turtle Biology and Conservation. International Sea Turtle Society: 194.</p>
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/></p> <p>Dietary studies, size class distribution analysis and spatio-temporal analyses further emphasized this region as an important Mediterranean neritic habitat for juveniles and adults, as well as a wintering ground. Although population size is unknown at present, by-catch estimates showed minimum of 2,500 catches per year only by the eastern Adriatic trawl fleet.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/></p> <p>The Loggerhead Turtle is the only species resident in the Adriatic Sea. Results on tag recovery distribution emphasized that the Adriatic Sea, northern part in particular, is one of the two regions with the highest number of tag returns in the Mediterranean, indicating importance as habitat critical for existence of this species deriving mostly from the rookeries in Greece.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/></p> <p>Identification and establishment of protected areas <input checked="" type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/></p> <p>Education / awareness rising <input checked="" type="checkbox"/></p> <p>Species protection <input checked="" type="checkbox"/></p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>Action plan for the protection of the Loggerhead Turtle</p>

<i>Species name</i> – Common Name(s): Dermochelys coriacea – Leatherback Turtle	
1	<p>Please provide published distribution reference: Lazar, B. & Tvrtkovic, N. (1995): Marine turtles in the eastern Adriatic Sea: Preliminary research. <i>Natura Croatica</i> 4: 59-74.</p> <p>Lazar, B. et al. (2005): Occurrence of leatherback turtle <i>Dermochelys coriacea</i> in the eastern Adriatic Sea. <i>Journal of the Marine Biological Association U.K.</i></p>
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/></p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input checked="" type="checkbox"/></p> <p>visiting in the Adriatic Sea</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/></p> <p>Education / awareness rising <input checked="" type="checkbox"/></p> <p>Species protection <input checked="" type="checkbox"/></p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input type="checkbox"/></p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	<p>If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?</p> <p>It is non residing species, only visiting, so particular activities focused on research / monitoring are not feasible</p>
5	<p>Describe any future activities that are planned for this species:</p> <p>Education of professional fishermen along the southern Adriatic coasts to identify and report recoveries of this species.</p>

<i>Species name – Common Name(s):</i> Chelonia mydas - Green Turtle	
1	Please provide published distribution reference: Lazar, B. et al. (2004): The presence of green sea turtle <i>Chelonia mydas</i> in the Adriatic Sea. <i>Herpetological Journal</i> 14: 143-147.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> The number of Green Turtle records in the Adriatic Sea is low. Information on population size is not available. Distributional analyses stressed two important facts: first, the majority of recorded turtles were small, pelagic juveniles, and second, most of the records come from southern Adriatic waters. Although these records could be incidental, individual events, it is possible that some juvenile green turtles are passively drifting into the Adriatic on the dominant surface current in the Ionian-Adriatic area. Therefore, it is possible that southern Adriatic contains pelagic habitats for Mediterranean green turtles (Lazar et al. 2004: <i>Herp.J.</i> 14:143-147).
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? Lack of data on the presence of the species in Adriatic and possible role that Adriatic Sea has regarding life history of green turtles in the Mediterranean.
5	Describe any future activities that are planned for this species: Attention should be focused on the education of professional fishermen along the southern Adriatic coasts to identify and report recoveries of this species.

Miscellaneous information or comments on Appendix I marine turtles in general:

4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

4.1 General questions on Appendix I terrestrial mammals (other than bats)

1	Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	<input type="checkbox"/> Yes	<input type="checkbox"/> No
1a	If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	<input type="checkbox"/> Yes	<input type="checkbox"/> No
2	Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats):		
	Lack of information <input type="checkbox"/>	By-catch <input type="checkbox"/>	
	Habitat fragmentation <input type="checkbox"/>	Electrocution <input type="checkbox"/>	
	Wind turbines <input type="checkbox"/>	Poaching <input type="checkbox"/>	
	Insufficient legislation <input type="checkbox"/>	Lack of trans-boundary management <input type="checkbox"/>	
	Poor communication amongst Range States <input type="checkbox"/>	Man-made barriers <input type="checkbox"/>	
	Climate change and drought <input type="checkbox"/>		
	Other threats to migration (please provide details)		
2a	What actions are being undertaken to overcome these obstacles?		
2b	Please report on the progress / success of the actions taken.		
2c	What assistance, if any, does your country require in order to overcome these obstacles?		
3	What are the major threats to Appendix I terrestrial mammals (transcending mere obstacles to migration)?		
	Lack of information <input type="checkbox"/>	Habitat fragmentation <input type="checkbox"/>	
	Poaching <input type="checkbox"/>	Insufficient legislation <input type="checkbox"/>	
	Illegal trade <input type="checkbox"/>	Other (please specify)	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats) beyond actions to prevent disruption to migrating behaviour?		
3b	Please report on the progress / success of the actions taken.		
3c	Describe any factors which limit action being taken in this regard:		
3d	What assistance/measures, if any, does your country require to overcome these factors?		

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

In the following section, using the table format below, please fill in each Appendix I terrestrial mammal species (other than bats) for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s) n/a	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general:

5. BATS

5.1 General questions on Appendix I bats

1	Is the taking of all Appendix I bats prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bats is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
2	Identify any obstacles to migration that exist in relation to Appendix I bats: Vandalism of bat caves <input type="checkbox"/> Other threats to migration (please provide details)
2a	What actions are being undertaken to overcome these obstacles?
2b	Please report on the progress / success of the actions taken.
2c	What assistance, if any, does your country require in order to overcome these obstacles?
3	What are the major threats to Appendix I bats (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> Habitat fragmentation and loss <input type="checkbox"/> Other (please specify)
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats beyond actions to prevent disruption to migrating behaviour?
3b	Please report on the progress / success of the actions taken.
3c	Describe any factors that may limit action being taken in this regard:
3d	What assistance/measures, if any, does your country require to overcome these factors?

5.2 Questions on specific Appendix I bat species

In the following section, using the table format below, please fill in each Appendix I bat species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s) n/a</i>	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on trends (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general:

6. OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above: Ministry of Culture - Nature Protection Directorate, State Institute for Nature Protection
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): By way of derogation from provisions of Nature Protection Act, in the case of justified public interest and provided the derogation will not be harmful for survival of a particular population, the Ministry may authorize operations for the sake of: protection of plants, fungi and animals, preventing severe damages on crops, livestock, forests, fishponds, water and other forms of property, protection of public health and safety, air safety or other overriding public interests, and research and education to maintain favourable status of the species.
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above: Lack of legislation <input type="checkbox"/> Other threats to migration (please provide details)
3a	What actions are being undertaken to overcome these obstacles?
3b	Please report on the progress / success of the actions taken.
3c	What assistance, if any, does your country require in order to overcome these obstacles?
4	What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify)
4a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour?
4b	Please report on the progress / success of the actions taken.
4c	Describe any factors that may limit action being taken in this regard:
4d	What assistance, if any, does your country require to overcome these factors?

6.2 Questions on specific Appendix I species belonging to other taxa

In the following section, using the table format below, please fill in each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> Carcharodon carcharias - Great White Shark	
1	Please provide published distribution reference: Soldo, A., Jardas, I. (2002) - Occurrence of great white shark, <i>Carcharodon carcharias</i> (Linnaeus, 1758) and basking shark, <i>Cetorhinus maximus</i> (Gunnerus, 1765) in the eastern Adriatic and their protection. <i>Period. Biol.</i> 104 (2): 195-202.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> Comparison of the records in last 40 years to records from the last decades of 19th century and first seven decades of 20th century showed significant decline. Hence, in last 34 years it was only one single record of the great white in the eastern Adriatic in waters under jurisdiction of Croatia.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Education / awareness rising <input checked="" type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Monitoring will continue with emphasis to encourage other Mediterranean states to protect this species in whole Mediterranean area.

<i>Species name – Common Name(s)</i> Cetorhinus maximus - Basking Shark	
1	Please provide published distribution reference: Soldo, A., Jardas, I. (2002) - Occurrence of great white shark, <i>Carcharodon carcharias</i> (Linnaeus, 1758) and basking shark, <i>Cetorhinus maximus</i> (Gunnerus, 1765) in the eastern Adriatic and their protection. <i>Period. Biol.</i> 104 (2): 195-202.
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> It is believed that there is no Adriatic population of this species, while number of records of this species over the years is nearly the same.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Records of the basking shark are widespread throughout the Adriatic
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Identification and establishment of protected areas <input checked="" type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input checked="" type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species: Research on basking shark distribution in the Mediterranean and its influence on Adriatic area has already started and it will continue in future

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species ¹ not currently listed in Appendix I? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
1a	Is your country taking any steps to propose listing any of these species? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
1b	What assistance/measures, if any, does your country require to initiate the listing of these species?

¹ according to the latest IUCN red data list

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

WADDEN SEA SEALS (1991)	
Date of last report: n/a	Period covered:
SIBERIAN CRANE MoU (1993/1999)	
Date of last report: n/a	Period covered:
EUROBATS (1994)	
Date of last report: 2006	Period covered: 2004-2006
ASCOBANS (1994)	
Date of last report: n/a	Period covered:
SLENDER-BILLED CURLEW MoU (1994)	
Date of last report:	Period covered:
MARINE TURTLES – AFRICA MoU (1999)	
Date of last report: n/a	Period covered:
AEWA (1999)	
Date of last report: 2008	Period covered: 2005-2007
ACCOBAMS (2001)	
Date of last report: 15th of August 2007	Period covered: 2004-2007
GREAT BUSTARD MoU (2001)	
Date of last report: 2004	Period covered: 2001-2004
MARINE TURTLES – INDIAN OCEAN / SOUTHEAST ASIA MoU (2001)	
Date of last report: n/a	Period covered:
ALBATROSSES AND PETRELS (2001)	
Date of last report: n/a	Period covered:
BUKHARA DEER MoU (2002)	
Date of last report: n/a	Period covered:
AQUATIC WARBLER MoU (2003)

Date of last report: n/a	Period covered:

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	<p>In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	<p>In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details: Establishment of the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia (MoU), together with an associated Action Plan (AP)</p>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	<p>If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?</p>	
4	<p>Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	<p>In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	<p>In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	<p>If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?</p>	
4	<p>Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	<p>In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	<p>In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	<p>If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?</p>	
4	<p>Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:</p>	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No

2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details: Meeting to identify and elaborate an option for international, cooperation on migratory sharks	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?		
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input type="checkbox"/> No

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details:
1b	What assistance, if any, does your country require to initiate the listing of this/these species?

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues	<input type="checkbox"/> Low <input checked="" type="checkbox"/> Medium <input type="checkbox"/> High
2	<p>Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?</p> <p style="text-align: right;"> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No </p> <p>If Yes, please indicate and briefly describe the extent to which it addresses the following issues:</p> <p><input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of migratory species</p> <p><input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas</p> <p><input checked="" type="checkbox"/> Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)</p> <p><input type="checkbox"/> Minimizing or eliminating barriers or obstacles to migration</p> <p><input checked="" type="checkbox"/> Research and monitoring of migratory species</p> <p><input type="checkbox"/> Transboundary co-operation</p>	
3	<p>Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)</p> <p style="text-align: right;"> <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No </p> <p>If Yes, please provide details: Nature Protection Act (2005)</p> <p>Ordinance on Proclamation of Wild Taxa as Strictly Protected and Protected (2006) all migratory species in Croatia are strictly protected. This protection regime prohibits any action that would disturb or interfere with the natural life cycle and growth of the animal (it is forbidden to deliberately capture, keep and kill strictly protected animals, damage or destroy their development forms, disturb them at the time of propagation and rearing young, destroy their reproduction or resting sites, hide, keep, breed, trade in or in any way acquire these animals from nature). For the scientific research the permission of the Ministry of Culture is required.</p> <p>Ordinance on Transboundary Movement and Trade in Protected Species (2006) transposes the provisions of the CITES Convention, as well as the EU legislation on transboundary movement and trade in endangered species of wild fauna and flora.</p> <p>Ordinance on Sorts of Habitat Types, Habitat Maps, Endangered and Rare Habitat Types and on Measures for Conservation of Habitat Types (2006) prescribes measures for the conservation of endangered and rare habitat types, both on the European and national level, in a favourable state.</p> <p>Ordinance on Nature Impact Assessment (2007) prescribes procedure for assessing planned interventions in nature which may have a significant impact on an ecologically important area, including areas important for migratory species or a protected natural resources</p>	
3a	<p>Do these policies/plans cover the following areas (if Yes, please provide details):</p> <p>Yes No</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Exploitation of natural resources (e.g. fisheries, hunting, etc.)</p> <p><input type="checkbox"/> <input checked="" type="checkbox"/> Economic development</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Land-use planning</p> <p><input type="checkbox"/> <input checked="" type="checkbox"/> Pollution control</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Designation and development of protected areas</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Development of ecological networks</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Planning of power lines</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Planning of fences</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Planning of dams</p> <p><input type="checkbox"/> <input type="checkbox"/> Other</p>	

4	<p>Results – please describe the positive outcomes of any actions taken</p> <p>The Ministry of Culture, Nature Protection Directorate is responsible for implementation of the Nature Protection Act (OG 70/05) (NPA). According to the Article 58 of the NPA, the Government has designated, at the proposal of the Ministry of Culture, the ecological (EN) with the system of ecologically important areas and ecological corridors -Regulation on proclamation of the ecological network (OG 109/07).</p> <p>Ecological network conservation is one of the main objectives which have to be achieved through measures enforcement, determined by NPA. With this Regulation, Croatia provides an alignment with European legislative, especially, Council Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora (Habitat Directive) and Council Directive 79/409/EEC on the conservation of wild birds (Birds Directive), on grounds of which EU ecological network NATURA 2000 is defined.</p> <p>The National ecological network is composed of sites important for conservation of species and habitat types on the national and international level, including potential NATURA 2000 sites. Proclaimed ecological network covers 47% of the land territory of the Republic of Croatia and 39 % of the national sea. All national parks and nature parks, including majority of special reserves, present and suggested by spatial plans are included in ecological network area. Connecting to ecological network area, two corridors are sorted out: Corridor Palagruža-Lastovo-Pelješac provides birds migratory route across the Adriatic sea and Corridor which covers coastal area till 50 meters in depth, important for sea turtle migrations.</p>
---	--

V. Protected Areas

1	<p>Are migratory species taken into account in the selection, establishment and management of protected areas in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details: Due to the fact that most of the migratory species for which Croatia is a range state are strictly protected by Nature Protection Act and as such are considered in the process of proclamation of protected areas</p>
1a	<p>Please identify the most important national sites for migratory species and their protection status: Important sites for some migratory birds are protected, f.e.: Ornithological reserve Crna Mlaka - breeding and stopover site for Ferruginous Duck; Nature Park Lonjsko Polje - important site for Corncrake, Lesser Spotted Eagle, Spoonbills and several heronspecies; Nature Park Kopacki rit - important breeding site for several heron species and stopover site for Spoonbills; breeding colonies of Griffon Vulture are protected as Ornith. Reserve (Island Prvic, partly island Cres and partly island Krk) etc.</p> <p>The Cres-Lošinj archipelago, recognised both by the ACCOBAMS and national authorities as important habitat for the only residing community of bottlenose dolphins in the Adriatic (known so far), is under preventive protection as a special marine reserve for period of three years (started in July 2006). Consideration for permanent protection is in process.</p>
1b	<p>Do these protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas):</p> <p>Yes No</p> <p><input type="checkbox"/> <input type="checkbox"/> Terrestrial 11.323% (including areas under preventive protection)</p> <p><input type="checkbox"/> <input type="checkbox"/> Aquatic</p> <p><input type="checkbox"/> <input type="checkbox"/> Marine 3.377 % (including areas under preventive protection)</p>
1c	<p>Identify the agency, department or organization responsible for leading on this action in your country: The Ministry of Culture, Nature Protection Directorate</p>
2	<p>Results – please describe the positive outcomes of any actions taken</p> <p>In 2008 designation of ecological network (EN) composed of sites important for conservation of species and habitat types on the national and international level, including potential NATURA 2000 sites. Proclaimed ecological network covers 47% of the land territory of the Republic of Croatia and 39 % of the national sea. All national parks and nature parks, including majority of special reserves, present and suggested by spatial plans are included in ecological network area.</p> <p>Croatia has proclaimed 2 strict nature reserves, 8 national parks, 80 special nature reserves, 11 nature parks, 116 nature monuments, 78 significant landscapes, 35 park-forests and 121 park architecture monuments. In addition to the areas protected on a permanent basis, further 9 areas have been protected, as a precaution, in the categories of special nature reserves (4), regional parks (2), significant landscapes (1), park-forests (1) and park architecture monuments (1). The number of protected areas catalogued in the Register of Protected Natural Assets is continually updated.</p>

VI. Policies on Satellite Telemetry

1	<p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p style="text-align: center;"><input type="checkbox"/> In preparation <input type="checkbox"/> on-going <input type="checkbox"/> completed</p>
2	<p>Are any future conservation/research projects planned that will use satellite telemetry? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects):</p> <p>If No, please explain any impediments or requirements in this regard:</p>
3	<p>Results – please describe the positive outcomes of any actions taken</p>

VII. Membership

1	Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)
1a	Identify the agency, department or organization responsible for leading on this action in your country:
2	Results – please describe the positive outcomes of any actions taken

VIII. Global and National Importance of CMS

1	<p>Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details: Celebration of the World Migratory Bird Day (in 2006, 2007 and 2008), publishing posters about protected waterfowl species for custom offices and border crossings</p>
2	<p>Identify the agency, department or organization responsible for leading on this action in your country:</p> <p>Ministry of Culture- Nature Protection Directorate, State Institute for Nature Protection</p>
3	<p>Results – please describe the positive outcomes of any actions taken</p>

IX. Mobilization of Resources

1	<p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities): Financing bird monitoring scheme (covering about 50 species from EU Bird Directive), research, monitoring and conservation of marine turtles, dolphins, monk seal and bats</p>
2	<p>Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details:</p>
3	<p>Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
4	<p>Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
5	<p>Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
6	<p>Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>

X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch

The State Institute for Nature Protection plans to start the assessment of the present cetacean by-catch in the Adriatic in 2008, thus contributing to the implementation of the ACCOBAMS's ByCBAMS Project

Resolution 6.3 – Southern Hemisphere Albatross Conservation

Resolution 7.2 – Impact Assessment and Migratory Species

The Ordinance on Nature Impact Assessment was adopted in 2007. It prescribes the procedure for assessing planned interventions in nature which may have a significant impact on an ecologically important area, including areas important to migratory species

Resolution 7.3 – Oil Pollution and Migratory Species

Resolution 7.4 – Electrocution of Migratory Birds

Resolution 7.5 – Wind Turbines and Migratory Species

Environment Impact Assessment (EIA) is prescribed by law for the construction of wind turbines. EIA studies include measures for diminishing negative impact from wind turbines on migratory birds and bats.

Resolution 7.9 – Cooperation with Other Bodies and Processes

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species

Resolution 8.1 – Sustainable Use

All migratory species covered by CMS for which Croatia is a range state are strictly protected. This protection regime prohibits any action that would disturb or interfere with the natural life cycle and growth of the animal (it is forbidden to deliberately capture, keep and kill strictly protected animals, damage or destroy their development forms, disturb them at the time of propagation and rearing young, destroy their reproduction or resting sites, hide, keep, breed, trade in or in any way acquire these animals from nature)

Ordinance on Transboundary Movement and Trade in Protected Species (2006) transposes the provisions of the CITES Convention, as well as the EU legislation on transboundary movement and trade in endangered species of wild fauna and flora

Resolution 8.2 – CMS Strategic Plan 2006-2010

Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity Target

Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)

Resolution 8.11 - Co-operation with other Conventions

Resolution 8.13 - Climate Change and Migratory Species

Resolution 8.14 – By-Catch

As above (Res. 6.2)

Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans

Resolution 8.24 - National Reports for the Eight and Ninth Meetings of the Conference of the Parties

Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza

Resolution 8.29 - Concerted Actions for Appendix I Species

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

Recommendation 7.7 – America Pacific Flyway Programme

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

Participation in establishment of the Memorandum of Understanding on the Conservation of Migratory Birds of Prey in Africa and Eurasia (MoU), together with an associated Action Plan (AP) in October 2007

Recommendation 8.16 – Migratory Sharks

Participation in the meeting to identify and elaborate an option for international, cooperation on migratory sharks in December 2007

Recommendation 8.17 – Marine Turtles

Recommendation 8.23 - Central Eurasian and Aridland Mammals

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

Recommendation 8.28 - Cooperative Actions for Appendix II Species

Other resolutions/recommendations:

Other remarks:

Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP8 in 2005 and Parties which did not submit a National Report in 2005 are requested to complete the entire form.

Parties that did submit a report in 2005 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8).

Species	Range State	Extinct at National level	No information available	Published distribution reference
CHIROPTERA

Biol.</i> 104 (2): 195-202.</i>

Species	Range State	Extinct at National level	No information available	Published distribution reference
LEPIDOPTERA				
<i>Danaus plexippus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).
