

CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/Inf.9.12.37
20 June 2008

Original: English

NINTH MEETING OF THE
CONFERENCE OF THE PARTIES
Rome, 1-5 December 2008
Agenda Item 10a

REVIEW OF IMPLEMENTATION OF THE CONVENTION

National Reports Submitted by Contracting Parties

Report of: **Portugal** (received: 20.06.2008)

The Secretariat is making available, for the information of participants in the Ninth Meeting of the Conference of the Parties to the Convention on Migratory Species, the national reports provided by Contracting Parties. For the most part, the national reports have been reproduced in the form in which they were received, apart from minor formatting changes.

REVUE DE L'APPLICATION DE LA CONVENTION

Rapports nationaux soumis aux parties contractantes

Rapport de: **Portugal** (reçu: 20.06.2008)

Pour l'information des participants à la Neuvième Réunion de la Conférence des Parties à la Convention sur les Espèces migratrices, le Secrétariat met à leur disposition des rapports nationaux fournis par les parties contractantes. Dans la plupart des cas, les rapports nationaux ont été reproduits dans la forme même sous laquelle nous les avons reçus, abstraction faite de formatages mineurs.

REVISION DE LA APLICACION DE LA CONVENCION

Reportes Nacionales Enviados por los Miembros del Acuerdo

Reporte de: **Portugal** (recibido: 20.06.2008)

Los reportes nacionales enviados por los Miembros del Acuerdo están a disposición de los participantes del Novena Reunión de la Conferencia de los Miembros de la Convención sobre Especies Migratorias en la Secretaría. La mayoría de ellos se encuentran en la versión original en la que se enviaron, con excepción de pequeños ajustes de formato.

Convention on the Conservation of Migratory Species of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Ninth Meeting of the Conference of the Parties (COP9) (Rome, 2008).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country: **PORTUGAL**

Which agency has been primarily responsible for the preparation of this report?

INSTITUTO DA CONSERVAÇÃO DA NATUREZA E DA BIODIVERSIDADE

Please list any other agencies that have provided input:

Madeira Natural Park

Whale Museum - Madeira

University of the Azores - Departments of: 1) Biology, 2) Rural Sciences, 3) Oceanography and Fisheries)

Regional Directorate for the Environment – Azores

Regional Directorate for Forestry Resources

Portuguese Society for the Protection of Birds (SPEA)

League for the Protection of Nature (LPN)

I(a). General Information

Please enter the required information in the table below:

| | |
|----|---|
| 1 | <p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p><u>Mainland Portugal</u>: Ministry of Agriculture, Rural Development and Fisheries: General Directorate for Forestry Resources – namely for game species and migratory freshwater fishes; General Directorate for Fisheries – namely for sharks</p> <p><u>Madeira</u>: Regional Secretariat for the Environment and Natural Resources</p> <p><u>Azores</u>: Regional Directorate for the Environment</p> |
| 2 | <p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> |
| 3 | <p>Has a national liaison system or committee been established in your country? Please provide contact information</p> <p><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> |
| 4 | <p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p><i>Liga para a Protecção da Natureza (LPN)</i> – portuguese NGO that has been involved in projects related to the conservation of stepic birds and their habitat, specially in Castro Verde SPA.</p> <p><i>QUERCUS</i> – portuguese NGO that in recent years has been involved in projects involving the conservation of birds of prey, the black stork and the creation and maintenance of rehabilitation centers for wild birds.</p> <p><i>Sociedade Portuguesa para o Estudo das Aves (SPEA)</i> – the Portuguese Society for the Study of Birds signed an agreement with ICNB in the framework of the project for the revision of the National Atlas of Birds. It is the national representative of BirdLife International and since January 2005 coordinates an EU LIFE project on “Important bird areas for seabirds in Portugal”.</p> <p><i>Sociedade Portuguesa de Vida Selvagem (SPVS)</i> – the Portuguese Wildlife Society has been involved in projects related to the study of small cetaceans on the Portuguese coast and is also responsible for the management of one rehabilitation centre for wildlife</p> |
| 4a | <p>Please provide detail on any devolved government/overseas territory authorities involved.</p> |
| 5 | <p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>EDP (Portuguese Electricity Company) and REN (Portuguese Electrical Network) have signed protocols with ICNB in order to evaluate and minimize the impacts of electrocution from medium and high-voltage electricity transmission lines on migratory birds.</p> <p>BRISA (Portuguese Highways Company) signed a protocol with ICNB in order to evaluate and minimize the impacts of the new highway A2 on the indigenous fauna.</p> <p><i>Zoomarine</i>, a dolphinarium established in southern Portugal, has been involved in projects of rehabilitation of marine mammals and sea turtles.</p> <p>Gaia Biological Park (near Oporto) has been involved in projects of bird rehabilitation.</p> <p>Aeolic companies have signed protocols to minimize impacts with birds and bats</p> <p>Following B&B initiative several companies have made protocols to protect species, including migratory ones and support:</p> <p>ANA- Airports of Portugal, S.A.: two rescue centers for indigenous species</p> <p>REN : monitoring great bustar populations</p> <p>Sonae Turismo, S.G.P.S., S.A.: protection of saline birlife of Sado river.</p> <p>Comanhia Geral de Cal e Cimento, S.A. (Cecil): Life “Biomares”</p> <p>Herdade do Pinheiro: management plans to portuguese wetlands</p> <p>EDP-Energias de Portugal, S.A.: Conservation of migratory fishes</p> <p>BES -Banco Espírito Santo: conservation of black storks</p> |
| 6 | <p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> |

I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

| | | |
|---|----------------------|--|
| 1 | Birds | <p><u>Mainland Portugal</u>: Ministry of Environment, Landscape Planning and Regional Development - Instituto da Conservação da Natureza e da Biodiversidade (ICNB)</p> <p><u>Madeira</u>: Regional Secretariat for the Environment and Natural Resources</p> <p><u>Azores</u>: Regional Directorate for the Environment</p> |
| 2 | Marine Mammals | <p><u>Mainland Portugal</u>: Ministry of Environment Landscape Planning and Regional Development – Instituto da Conservação da Natureza e da Biodiversidade (ICNB)</p> <p><u>Azores</u>: Department of Oceanography and Fisheries – University of the Azores</p> <p><u>Madeira</u>: Madeira Natural Park : Whale Museum</p> |
| 3 | Marine Turtles | <p><u>Mainland Portugal</u>: Ministry of Environment Landscape Planning and Regional Development - Instituto da Conservação da Natureza e da biodiversidade (ICNB)</p> <p><u>Azores</u>: Department of Oceanography, University of Azores</p> <p><u>Madeira</u>: Department of Biology Marine Biology and Oceanography, University of Madeira</p> |
| 4 | Terrestrial Mammals | <p><u>Mainland Portugal</u>: Ministry of Environment Landscape Planning and Regional Development – Instituto da Conservação da Natureza e da Biodiversidade (ICNB)</p> <p><u>Madeira</u>: Regional Secretariat for the Environment and Natural Resources</p> <p><u>Azores</u>: Regional Directorate for the Environment</p> |
| 5 | Bats | <p><u>Mainland Portugal</u>: Ministry of Environment Landscape Planning and Regional Development – Instituto da Conservação da Natureza e da Biodiversidade (ICNB)</p> <p><u>Madeira</u>: Regional Secretariat for the Environment and Natural Resources</p> <p><u>Azores</u>: Regional Directorate for the Environment</p> |
| 6 | Other Taxa Sharks | <p><u>CITES Management Authority</u></p> <p><u>Mainland Portugal</u>: Ministry of Environment Landscape Planning and Regional Development – Instituto da Conservação da Natureza e da Biodiversidade (ICNB)</p> <p><u>Madeira</u>: Regional Secretariat for the Environment and Natural Resources</p> <p><u>Azores</u>: Regional Directorate for the Environment</p> |

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

| | |
|----|--|
| 1 | <p>Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p> |
| 1a | <p>If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):</p> |
| 2 | <p>Identify any obstacles to migration that exist in relation to Appendix I bird species:</p> <p>By-catch <input type="checkbox"/> Electrocutation <input checked="" type="checkbox"/></p> <p>Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/></p> <p>Pollution <input type="checkbox"/></p> <p>Other (please provide details)</p> |
| 2a | <p>What actions are being undertaken to overcome these obstacles?</p> <p>EDP (Portuguese Electricity Company) and REN (National Electrical Network) have signed protocols with ICNB in order to evaluate and minimize the impacts of electrocution from medium and high-voltage electricity transmission lines on migratory birds</p> <p>Impact assessment of plans, projects and programs , including minimization and compensation measures</p> <p>Spatial and management plans for protected areas and Natura 2000 network</p> <p>Agri-environmental measures undertaken in some protected and Natura 2000 areas</p> |
| 2b | <p>Please report on the progress / success of the actions taken.</p> <p>A total of c.900km of medium/high voltage lines were surveyed and 1.599 victims of 107 bird species were found, including migratory species of conservation concern as Roller, Purple Heron, and Montagu's Harrier. A total of 350 km of these powerlines were classified as dangerous/potentially dangerous and about 85 km were modified (by implementation of technical standards to protect birds from electrocution and application of bird flight diverters to reduce collisions) in order to minimise its impacts on birds. A total of 206 Km of very high voltage lines were surveyed and 575 victims of 72 bird species were found, including migratory species as Common Cranes, Lesser Kestrel, Woodchat Shrike, Lapwing, Golden Plover. In locations where birds may be vulnerable to collision bird flight diverters were installed to minimise the impacts.</p> <p>http://www.icnb.pt/propfinal/</p> <p>http://portal.icnb.pt/ICNPortal/vPT2007/O+ICNB/Ordenamento+e+Gestao/Planos+de+Ordenamento+das+Areas+Protegidas+(POAP)/</p> <p>http://portal.icnb.pt/ICNPortal/vPT2007/O+ICNB/Estudos+e+Projectos/+Impacto++L.+E.+na+Avifauna.htm</p> |
| 2c | <p>What assistance, if any, does your country require in order to overcome these obstacles?</p> |
| 3 | <p>What are the major threats to Appendix I bird species (transcending mere obstacles to migration)?</p> <p>Illegal trade <input type="checkbox"/> Poaching <input type="checkbox"/></p> <p>Other (please specify) Changes in traditional agriculture</p> |
| 3a | <p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?</p> <p><u>Habitat destruction</u>: mitigation actions are compulsory and must be implemented for every large project (ex: construction of dams or highways);</p> <p><u>Electrocution</u>: main electrocution and mortality areas were identified along major electric lines, specially across SPA's; agreements were established between Nature Conservation entities and electrical companies for the use of bird safe structures and bird flight diverters;</p> |

| | |
|----|---|
| | <u>Changes in traditional agriculture</u> : some work is being done in order to ensure the maintenance of traditional farming activities important for the maintenance of biodiversity. |
| 3b | Please report on the progress / success of the actions taken. |
| 3c | Describe any factors that may limit action being taken in this regard: |
| 3d | What assistance, if any, does your country require to overcome these factors? |

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

| <i>Species name – Common Name(s)</i> <i>Falco naumanni</i> Lesser Kestrel | |
|---|--|
| 1 | Please provide published distribution reference: LPN, 2004, 2005, 2006 – Final reports of LIFE Natura project (contract LIFE2002NAT/P/8481) – Lesser kestrel project. |
| 2a | Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 2b | Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 3 | Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Identification and establishment of protected areas <input checked="" type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Education/awareness rising <input checked="" type="checkbox"/> Species protection <input checked="" type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input checked="" type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Habitat restoration <input checked="" type="checkbox"/> (rehabilitation and nesting platforms constructions) Other <input type="checkbox"/> Project: LPN, 2004, 2005, 2006 – Final reports of LIFE Natura project (contract LIFE2002NAT/P/8481) – Lesser kestrel project. Miscellaneous information or comments on Appendix I birds in general:

| Species name – Common Name(s) <i>Aythya nyroca</i> Ferruginous Pochard, Ferruginous Duck | |
|--|---|
| 1 | Please provide published distribution reference: |
| 2a | <p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>Since 2001, one pair occupies the Salgados lagoon wetland (southern Portugal) during the breeding season. Breeding was confirmed in 2001 and 2002. These are the first and unique confirmed breeding records for Portugal. In 2004 there was also evidence of breeding and recently (2008) an hybrid <i>Aythya nyroca</i> X <i>Aythya ferina</i> was observed in that Lagoon which might indicate that the only breeding pair is now breeding with other species. In Salgados Lagoon, 1 – 2 birds are regularly seen during winter. Though it can be seen in some other wetlands, the migration and wintering records are below 15 birds. The actual trend of the population size is stable.</p> |
| 2b | <p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>The Ferruginous Duck is rare in Portugal and its distribution is restricted to few wetlands. In autumn and winter, isolated birds are observed in different wetlands, but always in very low numbers. It is mainly seen in wetlands along the coast in Algarve, southern Portugal (e.g. Ria Formosa). Some other wetlands are also used but not so regularly. During the breeding season it only occurs in Salgados Lagoon, also a wetland near the coast in southern Portugal. The distribution trend is stable.</p> |

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

| | | |
|--|--|---|
| 1 | Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| If <i>other</i> legislation is relevant, please provide details: | | |
| 1a | If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): | | |
| 2 | Identify any obstacles to migration that exist in relation to Appendix I marine mammals: By-catch <input checked="" type="checkbox"/> Collision with fishing traffic <input type="checkbox"/> Pollution <input type="checkbox"/> Illegal hunting <input type="checkbox"/> Other threats to migration (please provide details): Disturbance to marine mammals' echolocation system due to underwater sonar systems SÓ ISTO?? | |
| 2a | What actions are being undertaken to overcome these obstacles? Studies are being carried out by the University of the Azores on this subject; Regional Strandings Network (coordinated by Regional Environment Directorate) monitors all strandings of the Region and coordinates any necessary action towards stranded animals. There is also a national coordination of all strandings in mainland. (National Strandings network). | |
| 2b | Please report on the progress / success of the actions taken. | |
| 2c | What assistance, if any, does your country require in order to overcome these obstacles? | |
| 3 | What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> By-catch <input checked="" type="checkbox"/> Other (please specify) Potential interaction with fisheries; potential disturbance to natural cycles caused by whale watching activities. | |
| 3a | What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour? <u>Mainland Portugal:</u> Implementation of national legislation to regulate whalewatching. Evaluation of bycatch <u>Azores:</u> The Programme for Observation of the Fisheries of the Azores (POPA) coordinated by the University of the Azores assures the coverage of a percentage of the tuna fishing fleet (and others) by onboard observers; regional legislation limits the number of boats. <u>Madeira:</u> Project "EMECETUS" is ongoing since June 2007 and its main aim is to monitor cetacean populations within the archipelago <u>Azores + Madeira:</u> to study the habitat of all cetacean species within the Azores, Madeira and Canary archipelagos, the project "MACETUS" was carried out during 2004 – 2005 and begun to establish a Macaronesian Network for the Study and Conservation of cetaceans that inhabit these waters. Implementation of Decree Law 9/2006, 6 th January (whalewatching regulation in mainland Portugal). | |
| 3b | Please report on the progress / success of the actions taken. <u>Azores:</u> The coverage of the tuna fishing fleet assured by POPA has allowed for the "dolphin safe" status on tuna products from the Azores. Legislation do whale-watching: several companies registrations | |
| 3c | Describe any factors that may limit action being taken in this regard: | |
| 3d | What assistance, if any, does your country require to overcome these factors? | |

2.2 Questions on specific Appendix I marine mammals

In the following section, using the table format below, please fill in each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

| 4 | If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? |
| 5 | Describe any future activities that are planned for this species: <u>Azores:</u> Under Project MARMAC II - Knowledge, promotion and enrichment for the sustainable use of the Marine Protected Areas of Macaronesia (Interreg IIIB/FEDER) – the Centre of IMAR of the University of the Azores will deploy a network of bottom-mounted hydrophones around the Azores to monitor the occurrence and study movement patterns of cetaceans. This research is already underway and will continue until 2011, under the scope of Project TRACE - Cetacean habitat associations in oceanic ecosystems: an integrated approach (PTDC/MAR/74071/2006) (FCT). Project TRACE will analyse sighting and effort data collected on previous years to study the spatial and temporal patterns of distribution and habitat preferences of all cetacean species. <u>Madeira:</u> This species, together with all the other cetacean species that are present in these waters, were monitored by the Museu da Baleia through the project “Projecto para a Conservação dos Cetáceos dos Arquipélago da Madeira and now through the project EMECETUS. The new building for the “Museu da Baleia” in Madeira archipelago is almost concluded. It includes new research facilities, new exhibits and didactics area for children. Its main aims are the study and conservation of cetaceans in Madeira archipelago waters and will work as a strong educational tool to aware general public for the conservation needs of these animals. It also have new research capabilities that will allow a better study and understanding of cetaceans in the Madeira waters and lead to a better advise to local regional government on the conservation of the marine environment and cetacean populations. This species together with other baleen whales will be studied in a new project that is submitted to funding. This project, among other aims, will allow us to define areas of operation for the whale watching boats in Madeira archipelago, to establish the respective carrying capacity and the surveillance of the conservation status of cetacean species in these waters. |

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

| | |
|----|--|
| 1 | Is the taking of all Appendix I marine turtles prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: |
| 1a | If the taking of Appendix I marine turtles is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): |
| 2 | Identify any obstacles to migration that exist in relation to Appendix I marine turtles: By-catch <input checked="" type="checkbox"/> Pollution <input type="checkbox"/> Other threats to migration (please provide details) |
| 2a | What actions are being undertaken to overcome these obstacles? Azores: Research and experimentation on fish hook types and sizes to reduce bycatch (University of the Azores); Information dissemination; regulation towards the disposal of waste at sea. |
| 2b | Please report on the progress / success of the actions taken. |
| 2c | What assistance, if any, does your country require in order to overcome these obstacles? |
| 3 | What are the major pressures on Appendix I marine turtles (transcending mere obstacles to migration)? Collection of eggs <input type="checkbox"/> Predation of eggs <input type="checkbox"/> Destruction of nesting beaches <input type="checkbox"/> Other (please specify): |
| 3a | What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles beyond actions to prevent disruption to migrating behaviour? |
| 3b | Please report on the progress / success of the actions taken. |
| 3c | Describe any factors that may limit action being taken in this regard: |
| 3d | What assistance, if any, does your country require to overcome these factors? |

3.2 Questions on specific Appendix I marine turtles

In the following section, using the table format below, please fill in each Appendix I marine turtle species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

| <i>Species name</i> – Common Name(s) <i>Caretta caretta</i> (Loggerhead turtle) | |
|---|--|
| 1 | <p>Please provide published distribution reference:</p> <p>Fretey, J. (1998). Marine Turtles of the Atlantic Coast of Africa. UNEP/CMS Tech. Publ. No.1, 254 pp.</p> <p>Bolten, A.B. (2003). 4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

4.1 General questions on Appendix I terrestrial mammals (other than bats)

| | | | |
|----|--|--|-----------------------------|
| 1 | Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details: | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| 1a | If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| 2 | Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats): | | |
| | Lack of information <input type="checkbox"/> | By-catch <input type="checkbox"/> | |
| | Habitat fragmentation <input type="checkbox"/> | Electrocution <input type="checkbox"/> | |
| | Wind turbines <input type="checkbox"/> | Poaching <input type="checkbox"/> | |
| | Insufficient legislation <input type="checkbox"/> | Lack of trans-boundary management <input type="checkbox"/> | |
| | Poor communication amongst Range States <input type="checkbox"/> | Man-made barriers <input type="checkbox"/> | |
| | Climate change and drought <input type="checkbox"/> | | |
| | Other threats to migration (please provide details) | | |
| 2a | What actions are being undertaken to overcome these obstacles? | | |
| 2b | Please report on the progress / success of the actions taken. | | |
| 2c | What assistance, if any, does your country require in order to overcome these obstacles? | | |
| 3 | What are the major threats to Appendix I terrestrial mammals (transcending mere obstacles to migration)? | | |
| | Lack of information <input type="checkbox"/> | Habitat fragmentation <input type="checkbox"/> | |
| | Poaching <input type="checkbox"/> | Insufficient legislation <input type="checkbox"/> | |
| | Illegal trade <input type="checkbox"/> | Other (please specify) | |
| 3a | What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats) beyond actions to prevent disruption to migrating behaviour? | | |
| 3b | Please report on the progress / success of the actions taken. | | |
| 3c | Describe any factors which limit action being taken in this regard: | | |
| 3d | What assistance/measures, if any, does your country require to overcome these factors? | | |

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

In the following section, using the table format below, please fill in each Appendix I terrestrial mammal species (other than bats) for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

| <i>Species name</i> – Common Name(s) | |
|--------------------------------------|--|
| 1 | Please provide published distribution reference: |
| 2a | Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 2b | Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 3 | Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/> |
| 4 | If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? |
| 5 | Describe any future activities that are planned for this species? |

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general:

5. BATS

5.1 General questions on Appendix I bats

| | |
|----|---|
| 1 | Is the taking of all Appendix I bats prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: |
| 1a | If the taking of Appendix I bats is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): |
| 2 | Identify any obstacles to migration that exist in relation to Appendix I bats: Vandalism of bat caves <input type="checkbox"/> Other threats to migration (please provide details) |
| 2a | What actions are being undertaken to overcome these obstacles? |
| 2b | Please report on the progress / success of the actions taken. |
| 2c | What assistance, if any, does your country require in order to overcome these obstacles? |
| 3 | What are the major threats to Appendix I bats (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> Habitat fragmentation and loss <input type="checkbox"/> Other (please specify) |
| 3a | What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats beyond actions to prevent disruption to migrating behaviour? |
| 3b | Please report on the progress / success of the actions taken. |
| 3c | Describe any factors that may limit action being taken in this regard: |
| 3d | What assistance/measures, if any, does your country require to overcome these factors? |

5.2 Questions on specific Appendix I bat species

In the following section, using the table format below, please fill in each Appendix I bat species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

| <i>Species name</i> – Common Name(s) | |
|--------------------------------------|--|
| 1 | Please provide published distribution reference: |
| 2a | Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 2c | Summarise information on trends (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 2c | Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> |
| 3 | Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/> |
| 4 | If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? |
| 5 | Describe any future activities that are planned for this species: |

Miscellaneous information or comments on Appendix I bat in general:

6. OTHER TAXA

6.1 General questions on Appendix I species belonging to other taxa

| | |
|----|---|
| 1 | Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above: Ministry of Agriculture, Rural Development and Fisheries – General Directorate for Fisheries |
| 2 | Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details: |
| 2a | If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)): |
| 3 | Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above: Lack of legislation <input type="checkbox"/> Other threats to migration (please provide details) |
| 3a | What actions are being undertaken to overcome these obstacles? |
| 3b | Please report on the progress / success of the actions taken. |
| 3c | What assistance, if any, does your country require in order to overcome these obstacles? |
| 4 | What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify) |
| 4a | What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour? |
| 4b | Please report on the progress / success of the actions taken. |
| 4c | Describe any factors that may limit action being taken in this regard: |
| 4d | What assistance, if any, does your country require to overcome these factors? |

6.2 Questions on specific Appendix I species belonging to other taxa

In the following section, using the table format below, please fill in each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

| | |
|--|---|
| <i>Species name – Common Name(s)</i> <i>Cetorhinus maximus</i> , Basking Shark | |
| 1 | Please provide published distribution reference: |
| 2a | Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> The species is rare. Occasionally one animal is accidentally caught during fishing operations. |
| 2b | Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> |
| 3 | Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> CITES legislation Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/> |
| 4 | If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? |
| 5 | Describe any future activities that are planned for this species: |

Miscellaneous information or comments on Appendix I species belong to taxa not included in sections 1-5 above:

| <i>Species name – Common Name(s)</i> <i>Carcharodon carcharias, Great White Shark</i> | |
|---|---|
| 1 | Please provide published distribution reference: |
| 2a | Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> The species is rare. |
| 2b | Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input checked="" type="checkbox"/> unclear <input type="checkbox"/> |
| 3 | Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> CITES legislation Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/> |
| 4 | If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? |
| 5 | Describe any future activities that are planned for this species: |

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

| | |
|----|---|
| 1 | <p>Is your country a Range State for any other endangered migratory species¹ not currently listed in Appendix I? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details:</p> <p>N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.</p> |
| 1a | <p>Is your country taking any steps to propose listing any of these species? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details:</p> |
| 1b | <p>What assistance/measures, if any, does your country require to initiate the listing of these species?</p> |

¹ according to the latest IUCN red data list

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

| | |

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

| | | |
|---|--|---|
| 1 | In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2 | In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details: Memorandum of Understanding (MoU) on the Conservation of Migratory Birds of Prey in Africa and Eurasia | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 3 | If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? | |
| 4 | Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

2.2 Questions on the development of new CMS Agreements relating to marine mammals

| | | |
|---|--|---|
| 1 | In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2 | In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details : Participation on the 1st meeting of the draft agreement on the Conservation of West Africa Manatee and Cetaceans of the eastern Atlantic Basin (Tenerife, Spain, 16-20 October 2007) Participation and signature of he Memorandum of Understanding (MoU) for the protection of the Eastern Atlantic Populations of the Mediterranean Monk Seal (Tenerife, Spain, 18 October 2007) | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No |
| 3 | If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? | |
| 4 | Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

2.3 Questions on the development of new CMS Agreements relating to marine turtles

| | | |
|---|---|---|
| 1 | In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2 | In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

| | | |
|---|---|---|
| | If Yes, please provide details: | |
| 3 | If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? | |
| 4 | Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

| | | |
|---|---|---|
| 1 | In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2 | In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 3 | If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? | |
| 4 | Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

2.5 Questions on the development of new CMS Agreements relating to bats

| | | |
|---|--|---|
| 1 | In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2 | In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 3 | If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? | |
| 4 | Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

| | | |
|---|---|---|
| 1 | In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development? | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |
| 2 | In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details: | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No |

| | |
|---|---|
| 3 | If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? |
| 4 | Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details: |

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

| | |
|----|---|
| 1 | Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification. |
| 1a | Is your country taking any steps to propose the listing of this/these species in Appendix II? <input type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: |
| 1b | What assistance, if any, does your country require to initiate the listing of this/these species? |

IV. National and Regional Priorities

| | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
|-------------------------------------|---|---|---|----|--|-------------------------------------|--------------------------|--|---|-------------------------------------|--------------------------|--|----------------------|-------------------------------------|--------------------------|--|-------------------|-------------------------------------|--------------------------|--|-------------------|-------------------------------------|--------------------------|--|--|-------------------------------------|--------------------------|--|------------------------------------|-------------------------------------|--------------------------|--|-------------------------|--------------------------|--------------------------|--|--------------------|-------------------------------------|--------------------------|--|------------------|--------------------------|--------------------------|--|-------|--|
| 1 | What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues | <input type="checkbox"/> Low <input checked="" type="checkbox"/> Medium <input type="checkbox"/> High | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2 | <p>Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan?</p> <p>If Yes, please indicate and briefly describe the extent to which it addresses the following issues:</p> <p><input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of migratory species</p> <p><input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas</p> <p><input checked="" type="checkbox"/> Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch)</p> <p><input checked="" type="checkbox"/> Minimizing or eliminating barriers or obstacles to migration</p> <p><input checked="" type="checkbox"/> Research and monitoring of migratory species</p> <p><input checked="" type="checkbox"/> Transboundary co-operation</p> | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 3 | <p>Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements)</p> <p>If Yes, please provide details:</p> <p>Hunting and nature conservation legislation, some agro-forestry measures and plans, EIA developed in all major projects, power lines typology, water quality, territory management / land-use planning, fisheries policy (bycatch), the development of projects or activities in classified areas that may have a negative impact on species or habitats must have a special permit from the Ministry of Environment.</p> | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 3a | <p>Do these policies/plans cover the following areas (if Yes, please provide details):</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 10%;"></td> <td style="width: 10%; text-align: center;">Yes</td> <td style="width: 10%; text-align: center;">No</td> <td></td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Exploitation of natural resources (e.g. fisheries, hunting, etc.)</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Economic development</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Land-use planning</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Pollution control</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Designation and development of protected areas</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Development of ecological networks</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Planning of power lines</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Planning of fences</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Planning of dams</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Other</td> </tr> </table> | | Yes | No | | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Exploitation of natural resources (e.g. fisheries, hunting, etc.) | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Economic development | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Land-use planning | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Pollution control | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Designation and development of protected areas | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Development of ecological networks | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Planning of power lines | <input type="checkbox"/> | <input type="checkbox"/> | | Planning of fences | <input checked="" type="checkbox"/> | <input type="checkbox"/> | | Planning of dams | <input type="checkbox"/> | <input type="checkbox"/> | | Other | |

| 1c | <p>Identify the agency, department or organization responsible for leading on this action in your country:</p> <p><u>Mainland Portugal:</u> Instituto da Conservação da Natureza e da Biodiversidade (ICNB)</p> <p><u>Madeira:</u> Regional Secretariat for the Environment and Natural Resources</p> <p><u>Azores:</u> Regional Directorate For the Environment</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| 2 | <p>Results – please describe the positive outcomes of any actions taken</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

VI. Policies on Satellite Telemetry

| | |
|---|--|
| 1 | <p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p style="text-align: center;"><input type="checkbox"/> In preparation <input checked="" type="checkbox"/> on-going <input type="checkbox"/> completed</p> <p><u>Mainland Portugal:</u> population management of Bonelli's eagle and Black stork through a satellite tagging project.</p> <p><u>Azores:</u></p> <p>1) Satellite tagging of <i>Balaenoptera borealis</i> was conducted in the Azores in April 2005 as part of Project MAR-ECO – Patterns and processes of the ecosystems of the northern Mid-Atlantic. Contact: Rui Prieto (rprieto@uac.pt), Mónica Silva (monica@uac.pt)</p> <p>2) Under Project MARMAC II - Knowledge, promotion and enrichment for the sustainable use of the Marine Protected Areas of Macaronesia (Interreg IIIB/FEDER) – the Centre of IMAR of the University of the Azores will attach satellite tags and time-depth-recorders, collect biopsy samples and photo-identification data, and deploy a network of bottom-mounted hydrophones around the Azores to study distribution and large-scale and fine-scale movements of baleen whales and relate those to oceanographic variables and topographic features of the ecosystem, and to help clarify stock identification issues. This research is already underway and will continue until 2011, under the scope of Project TRACE - Cetacean habitat associations in oceanic ecosystems: an integrated approach (PTDC/MAR/74071/2006) (FCT). Project TRACE will analyse sighting and effort data collected on previous years to study the spatial and temporal patterns of distribution and habitat preferences of all cetacean species.</p> |
| 2 | <p>Are any future conservation/research projects planned that will use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects):</p> <p>See previous section</p> <p>If No, please explain any impediments or requirements in this regard:</p> |
| 3 | <p>Results – please describe the positive outcomes of any actions taken</p> |

VII. Membership

| | |
|----|---|
| 1 | <p>Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)</p> |
| 1a | <p>Identify the agency, department or organization responsible for leading on this action in your country:</p> |
| 2 | <p>Results – please describe the positive outcomes of any actions taken</p> |

VIII. Global and National Importance of CMS

| | |
|---|--|
| 1 | <p>Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details:</p> |
| 2 | <p>Identify the agency, department or organization responsible for leading on this action in your country:</p> |
| 3 | <p>Results – please describe the positive outcomes of any actions taken</p> |

IX. Mobilization of Resources

| | |
|---|---|
| 1 | <p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? X <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>Steppe birds, black stork, trans-saharian passerines, waders and wildfowl, bats, marine mammals</p> |
| 2 | <p>Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details:</p> |
| 3 | <p>Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> |
| 4 | <p>Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> |
| 5 | <p>Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> |
| 6 | <p>Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> |

X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch

Resolution 6.3 – Southern Hemisphere Albatross Conservation

Resolution 7.2 – Impact Assessment and Migratory Species

- Any new projects in protected areas, SPA's or SAC's will have to be evaluated through an EIA.

Resolution 7.3 – Oil Pollution and Migratory Species

Resolution 7.4 – Electrocutation of Migratory Birds

- Agreements were signed between ICNB, the Portuguese Electric Company (EDP) and the Portuguese Electrical Network (REN) in order to evaluate and minimise the impacts of electrocution from medium and high-voltage electricity transmission lines on migratory birds.

Resolution 7.5 – Wind Turbines and Migratory Species

- Any new project involving the setting up of wind turbines will have to be evaluated through an EIA

Resolution 7.9 – Cooperation with Other Bodies and Processes

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species

Resolution 8.1 – Sustainable Use

Resolution 8.2 – CMS Strategic Plan 2006-2010

Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity Target

Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)

Resolution 8.11 - Co-operation with other Conventions

Resolution 8.13 - Climate Change and Migratory Species

Resolution 8.14 – By-Catch

Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans

Resolution 8.24 - National Reports for the Eight and Ninth Meetings of the Conference of the Parties

Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza

Resolution 8.29 - Concerted Actions for Appendix I Species

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

Recommendation 7.7 – America Pacific Flyway Programme

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

Recommendation 8.16 – Migratory Sharks

Recommendation 8.17 – Marine Turtles

Recommendation 8.23 - Central Eurasian and Aridland Mammals

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

Recommendation 8.28 - Cooperative Actions for Appendix II Species

Other resolutions/recommendations:**Other remarks:**

Annex: Updating Data on Appendix II Species

FAlta preencher esta não é?

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP8 in 2005 and Parties which did not submit a National Report in 2005 are requested to complete the entire form.

Parties that did submit a report in 2005 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8).

| Species | Range State | Extinct at National level | No information available | Published distribution reference |
|---|-------------------------------------|-------------------------------------|-------------------------------------|----------------------------------|
| BATS | | | | |
| <i>Rhinolophus ferrumequinum</i> (only European populations) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | |
| <i>Rhinolophus hipposideros</i> (only European populations) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | |

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).
