

# CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/Inf.9.12.40  
21 June 2008

Original: English

NINTH MEETING OF THE  
CONFERENCE OF THE PARTIES  
Rome, 1-5 December 2008  
Agenda Item 10a

## REVIEW OF IMPLEMENTATION OF THE CONVENTION

National Reports Submitted by Contracting Parties

Report of: **Hungary** (received: 21.06.2008)

The Secretariat is making available, for the information of participants in the Ninth Meeting of the Conference of the Parties to the Convention on Migratory Species, the national reports provided by Contracting Parties. For the most part, the national reports have been reproduced in the form in which they were received, apart from minor formatting changes.

## REVUE DE L'APPLICATION DE LA CONVENTION

Rapports nationaux soumis aux parties contractantes

Rapport de: **Hongrie** (reçu: 21.06.2008)

Pour l'information des participants à la Neuvième Réunion de la Conférence des Parties à la Convention sur les Espèces migratrices, le Secrétariat met à leur disposition des rapports nationaux fournis par les parties contractantes. Dans la plupart des cas, les rapports nationaux ont été reproduits dans la forme même sous laquelle nous les avons reçus, abstraction faite de formatages mineurs.

## REVISION DE LA APLICACION DE LA CONVENCION

Reportes Nacionales Enviados por los Miembros del Acuerdo

Reporte de: **Hungría** (recibido: 21.06.2008)

Los reportes nacionales enviados por los Miembros del Acuerdo están a disposición de los participantes del Novena Reunión de la Conferencia de los Miembros de la Convención sobre Especies Migratorias en la Secretaría. La mayoría de ellos se encuentran en la versión original en la que se enviaron, con excepción de pequeños ajustes de formato.

# Convention on the Conservation of Migratory Species of Wild Animals

## FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Ninth Meeting of the Conference of the Parties (COP9) (Rome, 2008).**

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country: **HUNGARY**

Which agency has been primarily responsible for the preparation of this report?

Department for European Community Law and Co-ordination - Biodiversity Unit / Ministry of Environment and Water

Please list any other agencies that have provided input:

Dr. Attila Bankovics – Hungarian Natural History Museum

## I(a). General Information

Please enter the required information in the table below:

<b>Party</b>	
Date of entry into force of the Convention in [ <i>country name</i> ]	<b>1st November 1983</b>
Period covered	<b>2006-2008</b>
Territories to which the Convention applies	<b>territory of Hungary</b>
<b>DESIGNATED NATIONAL FOCAL POINT</b>	
Full name of the institution	Ministry of Environment and Water
Name and title of designated Focal Point	Ms Anna Práger
Mailing address	H-1011, Budapest, Fo u. 44-50.
Telephone	+36/1/3956857
Fax	+36/1/2754505
E-mail	prager@mail.kvvm.hu
<b>APPOINTMENT TO THE SCIENTIFIC COUNCIL</b>	
Full name of the institution	Hungarian Natural History Museum
Name and title of contact officer	Dr. Attila Bankovics
Mailing address	1088 Budapest
Telephone	+36/1/2101075/ 5042
Fax	+36 /1/334 2785
E-mail	bankovic@zool.nhmus.hu
<b>SUBMISSION</b>	
Name and Signature of officer responsible for submitting national report	Name: Práger Anna Address: Budapest 1011, Fo u. 44-50. Tel.: +36/1/3956857 Fax: +36/1/2754505 E-mail: prager@mail.kvvm.hu
Date of submission	<b>21<sup>st</sup> June, 2008</b>
Membership of the Standing Committee (if applicable):	Name: Address: Tel.: Fax: E-mail:
Competent Authority:	
Relevant implemented legislation:	Law Decree No. 6/1986 on CMS Act No. 53 of 1996 on Nature Conservation Act No. 55 of 1996 on Hunting and Game Management Ministerial Decree No. 13/2001 (V. 9.) KöM on the protected and strictly protected species of flora and fauna, determination of the range of strictly protected caves furthermore species of nature conservation significance of European Community Government Decree No 348/2006. about the detailed regulation of protection, keeping, display and utilization of protected species

Other relevant Conventions/ Agreements (apart from CMS) to which <i>country name</i> is a Party:	Ramsar Convention, CITES, ICRW, CBD, World Heritage, Bern Convention,
National policy instruments (e.g. national biodiversity conservation strategy, etc.):	National Nature Conservation Master Plan (2003-2008) - promulgated National Biodiversity Strategic Action Plan – yet adopted by the Ministry of Environment and Water and planning to be adopted by the Government

**Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution**

<b>Wadden Sea Seals:</b>	<input type="checkbox"/> Party	<input type="checkbox"/> Non-party Range State

1	<p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p>Ministry for Agriculture and Regional Policy regarding migratory game species</p>
2	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>In case of migratory game species (e-g- waterfowl),the Ministry for Agriculture and Regional Policy has the primary responsibility /co-ordinative role with the Ministry of Environment and Water having a right to express its opinion on any related issue</p>
3	<p>Has a national liaison system or committee been established in your country? Please provide contact information</p> <p><input type="checkbox"/> Yes <input type="checkbox"/> No</p>
4	<p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>Birdlife Hungary (monitoring; ringing - ringing activity started in 1908, has the centenary in 2008;leading or participating in different species protection programs - including LIFE Nature project for the Great Bustard, Saker Falcon, Red-footed Falcon;), Hungarian Bat Conservation Foundation and Bat Researchers' Association (regular ringing activity; monitoring; conservation activities ensuring successful breeding of tree hole dwellers or cave dwellers –e.g. installation of artificial bat boxes &amp; bat-friendly cave closures), WWF Hungary (PR; Sterlet (<i>Acipenser ruthenus</i>) repatriation program)</p>
4a	<p>Please provide detail on any devolved governmental /overseas territory authorities involved.</p> <p>n.a.</p>
5	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>Electricity Companies voluntarily undertaking insulation of power lines - primarily important regarding birds of prey and the White Stork</p>
6	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>Several conservation activities are carried out jointly by governmental organizations (Ministry and national park directorates) and NGO-s, such as monitoring (Waterfowl Monitoring co-ordinated by the Univ. of West Hungary, Everyday Birds Monitoring, Raptor and Black Stork Monitoring, White Stork internet register on observations - organized by Birdlife Hungary), different LIFE projects and other species conservation programs and action plans. The Great Bustard is a good example where protection activities are organized jointly within the frame of the G.B. Working Group incorporating all experts in the country.</p>

## I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1	Birds	Ministry of Environment and Water
2	Marine Mammals	
3	Marine Turtles	
4	Terrestrial Mammals	
5	Bats	Ministry of Environment and Water
6	Other Taxa	

## II. Appendix I species

### 1. BIRDS

#### 1.1 General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):
2	Identify any obstacles to migration that exist in relation to Appendix I bird species: By-catch <input type="checkbox"/> Electrocutation <input checked="" type="checkbox"/> Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/> Pollution <input type="checkbox"/> Other (please provide details)
2a	What actions are being undertaken to overcome these obstacles? Electrocutation: agreement signed with different Electricity companies on the insulation of power lines;
2b	Please report on the progress / success of the actions taken. These actions are in process.
2c	What assistance, if any, does your country require in order to overcome these obstacles? Research would be needed on surveying the rate of mortality caused by electrocutation under the powerlines.
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade <input type="checkbox"/> Poaching <input type="checkbox"/> Other (please specify)    poisoning (carbofuran bates): in 2006-2007 27 specimens of White-tailed Eagles and 32 specimens of Imperial Eagles were poisoned - meaning 1/5-th of the offsprings of the Imperial Eagles breeding in the EU
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? Poisoning: round-table discussion has commenced on finding the reasons and possible tools in solving this problem (See White-tailed Eagle).
3b	Please report on the progress / success of the actions taken. Only the first steps have been taken due to the fact that it is a recent problem, this rate of mortality caused by poisoning exceledated in the past 3 years.
3c	Describe any factors that may limit action being taken in this regard: Hard to find who caused the killing exactly.
3d	What assistance, if any, does your country require to overcome these factors?

## 1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

**Published distribution reference for all species:**

**Hadarics Tibor & Zalai Tamás (ed., in print), MAGYAR MADÁRTANI ÉS TERMÉSZETVÉDELMI EGYESÜLET, BUDAPEST, 2008: Nomenclator Avium Hungariae - AN ANNOTATED LIST OF THE BIRDS OF HUNGARY**

<i>Species name</i> – Common Name(s) Pelecanus onocrotalus - White Pelican	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> A rare vagrant between March and November, individually or in flocks of a few individuals. Since 1979 24 records of 32 individuals have been reported..
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> The majority of the records originate from the fishponds of the Great Plain, occurs in Transdanubia less frequently.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Regular waterbird census. Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1954, strictly protected since 1993. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Most of the potential habitats for the species lie in protected areas. Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species:

<i>Species name</i> – Common Name(s) Pelecanus crispus - Dalmatian Pelican	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Occurs only as an extraordinarily rare spring–summer (May–July) vagrant. Ten accepted records in Hungary, none since 1998.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>

	Primarily on the Great Plain.
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Regular waterbird census.</p> <p>Education/awareness rising <input type="checkbox"/></p> <p>Species protection <input checked="" type="checkbox"/> Protected since 1954, strictly protected since 1993.</p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Most of the potential habitats for the species lie in protected areas.</p> <p>Habitat restoration <input type="checkbox"/></p> <p>Other <input type="checkbox"/></p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species:

<i>Species name – Common Name(s)</i> Anser erythropus - Lesser White-fronted Goose	
1	Please provide published distribution reference: <a href="http://kislilik.hnp.hu/">http://kislilik.hnp.hu/</a>
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>Hungary is a staging ground during autumn and spring migration. It migrates in largest numbers (50-60 ind.) through the Hortobágy - coming from Scandinavia. They arrive in mid September, stay till late October; during spring they reappear in mid-March, and leave Hungary at the end of April.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>Single individuals or smaller flocks also regularly appear in the proximity of Biharugra and Pusztaszer, at the Kiskunság sodic lakes, Lake Tisza in Transdanubia near Lake Fertő, too. Single individuals appear with increasing frequency in Northern-Hungary arriving in Greater White-fronted Goose flocks, presumably from Northern Russia.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> Study on the habitat preference and the level of threat due to hunting in the Hortobágy region.</p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Regular waterbird census; monitoring covers the habitats in Vojvodina (Serbia) also; monitoring of the Fennoscandinavian breeding population during migration on the Hortobágy.</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Awareness raising among public, especially among hunters regarding the level of threat and the identification of the species.</p> <p>Species protection <input checked="" type="checkbox"/> Protected since 1982, strictly protected since 1993.</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Strictly protected species, therefore hunting is prohibited.</p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Most of the staging grounds are situated in protected areas. Activities aim to ensure secure feeding ground on arable land on the Hortobágy..</p> <p>Habitat restoration <input checked="" type="checkbox"/> Improving grassland habitats via grazing and irrigation in order to ensure better feeding ground; artificial flooding of resting sites at night.</p>

	Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: A LIFE-Nature project is going on called ' Conservation of Anser erythropus on European migration route'. The project stretches from its breeding grounds (FI, NO, SE) , via the staging areas (NO, FI, EE, HU), to the wintering grounds in GEL, TR. – with the activities mentioned above. In Hungary the goal is to ensure secure staging grounds by maintaining and creating adequate feeding and resting sites and by decreasing potential threat possibly caused by hunting of the population during migration. The project runs until 31 <sup>st</sup> March, 2009.

<i>Species name – Common Name(s)</i> Branta ruficollis - Red-breasted Goose	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Regular autumn and spring migrant, the number of its sightings has multiplied in the past two decades. Two or more individuals or small flocks (10 to 30 birds) are observed with increasing frequency, at times flocks of up to 50-70 individuals may appear. During autumn the first birds arrive usually in the second half of October, and stay until the heavy frosts in December. In case of mild weather a few individuals regularly overwinter in the goose flocks lingering in Hungary. Arrives during the spring migration already in the first half of February, but leaves Hungary by the end of March, or by the first week of April at the latest (as an exception, one individual overwintered in the Hortobágy in 2000). As an approximation, up to <b>200-300 individuals</b> may stay in Hungary at the same period of time.
2b	Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Small flocks comprising usually a low number of individuals regularly occur at the most important goose staging grounds, in the Tisza Region, in the Tisza-Danube Interfluvial and in Transdanubia also.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Monitored in the frame of 'Hungarian Waterfowl Census' - containing the monitoring of 51 species. In November in Northern Hungary (Lake TATA) the each year the 'Wild Geese census' takes place- aiming to monitor the number of migrating geese. Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1971, Strictly protected since 1993. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Most of the staging grounds are situated in protected areas. Habitat restoration <input checked="" type="checkbox"/> Occasional artificial flooding near feeding grounds - especially in Hortobágy- is carried out. In the Ferto-Hanság Region (NW-Hungary) restorations have been carried out giving better feeding areas for several water bird species. Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: Activities mentioned above are to be continued in the future.

<i>Species name</i> – Common Name(s) <i>Aythya nyroca</i> - Ferruginous Duck	
1	Please provide published distribution reference:
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>The former population decline has recently stopped, and an increase can be observed in certain places. min. 550, max. 1,000 pairs. Migrant, but may occasionally overwinter. Breeds in Hungary. Breeds mainly in fishponds covered with dense vegetation, reservoirs, oxbow lakes, marshes. The first birds arrive immediately after thaw, and soon concentrate near the breeding sites. The autumn gathering starts in the second half of August, and the last birds leave the country to their wintering grounds in the Mediterranean, Turkey.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>The most important populations live in Transdanubia ( Somogy), Tiszántúl Region (Hortobágy, Biharugra and the southern Great Plain). Flocks of several hundreds regularly gather on the Hortobágy and Kis-Sárrét during the autumn, and rarely those of over a thousand can be seen as well.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input type="checkbox"/></p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Regular waterbird census.</p> <p>Education/awareness rising <input checked="" type="checkbox"/> Especially for hunters regarding the identification of the species and the distinction from other, huntable species in order to avoid killing by mistake / for fishers on fishing management.</p> <p>Species protection <input checked="" type="checkbox"/> Protected since 1971, strictly protected since 1993.</p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> SPA-s as part of NATura 2000 sites.</p> <p>Habitat restoration <input checked="" type="checkbox"/> Restoration of marsh habitats.</p> <p>Other <input checked="" type="checkbox"/> Control the time and extent of seaweed cutting in order to ensure successful breeding; control the population size of predatory fish; leaving the reed stands, finish harvest in February</p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I birds in general:
---

<i>Species name</i> – Common Name(s) <i>Oxyura leucocephala</i> - White-headed Duck	
1	Please provide published distribution reference:
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>Extinct as a breeding bird in the 1960's. Rare vagrant in Hungary. No records in the reporting period, last data in 2004 (Twelve records since 1986 - single birds observed primarily in late autumn and winter on larger fishponds.)</p> <p>The reintroduction programme commenced in 1982 failed.</p>
2b	Summarise information on distribution (if known):

	increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> n.a. Until the 1950s a regular breeder in small numbers mainly on the few sodic lakes in the Danube–Tisza Plain, less frequently in Transdanubia The last occasions of breeding were observed in 1960 and 1969 in the Kiskunság.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Regular waterbird census. Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1954, strictly protected since 1993. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? Species is vagrant in Hungary, therefore no specific conservation activities are taken.
5	Describe any future activities that are planned for this species:

<i>Species name</i> – Common Name(s) <i>Haliaeetus albicilla</i> - White-tailed Eagle	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> min. 120, max. 180 pairs, Its population has been continuously increasing during the past few decades.(ca. 10% / year) The number of wintering birds is established at 500 to 700 individuals .
2b	Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Breeds regularly in southern Transdanubia, near fishponds and wetlands in the Great Plain and in gallery forests along large rivers (the Danube, Tisza and Dráva). In winter large numbers occur near the Hortobágy, along the Danube and in certain areas of the Great Plain.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Regular censuses + national eagle census each year in January (carried out by Birdlife HUNgary & Bükk National PARK Directorate). In the frame of the White-tailed EAgle Conservation Program habitats are checked regularly, breeding and breeding success are observed. Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1954 (hunting prohibited since 1933) , strictly protected since 1982. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Most of the nests and the feeding grounds found in protected areas. Habitat restoration <input type="checkbox"/>

	Other <input checked="" type="checkbox"/> Activities aiming to reduce poisoning of eagles - including the investigation of cases, the phaseout of dangerous chemicals and elimination of illegal stocks, the abolition of reasons leading to poisoning. Nest guarding; winter food supplying; installation of artificial nests in presumably suitable habitats; supervision of forestry management plans.
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: As above: one of the main objectives is to reduce poisoning (which is most detrimental to the populations of White-tailed Eagle and Imperial Eagle); to accept and further implement the strategy elaborated by Birdlife Hungary for the 1st round table against birds of prey poisoning.

<i>Species name</i> – Common Name(s) Aquila clanga - Greater Spotted Eagle	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> No breeding record. Regular but rare autumn (September–November) and spring (March–April) migrant.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Predominantly occurs in wetlands (fishponds, artificial and natural lakes), and less frequently in open pusztas. At times the same individuals regularly return to overwinter in the Hortobágy, at Lake Fertő, in the Hanság and at the Kis-Balaton.
3	Indicate (with an ‘X’) and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Regular census - for birds of prey. Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1954 (hunting prohibited since 1939), strictly protected since 2001. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? There is sufficient and suitable habitat for overwintering / migrating of individuals; low number of individuals does not warrant further action in Hungary.
5	Describe any future activities that are planned for this species: See above.

<i>Species name</i> – Common Name(s) Aquila heliaca - Asian Imperial Eagle	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> min. 70, max. 90 pairs Rate of population increase has slowed down, but the number is still increasing. Breeds in small numbers in agricultural areas in the Great Plain, as well as in forests at medium and high elevations. Its population has been increasing in the past few years in parallel with the number of pairs at high elevations decreasing and those on lowlands growing The population overwintering in Hungary numbers 200-300 birds.

	The population overwintering in Hungary numbers 200-300 birds.
2b	Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Adults are resident. Young birds mostly straggle in the Carpathian Basin, a certain proportion is even migratory and leaves Hungary in October and return in March. The majority of immatures and non-breeders concentrate on cultivated lands and open grasslands in the Great Plain where a large number of individuals (10-80) can sometimes be observed.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> Genetic researches ( 2 PhD-s). Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> NAtional eagle census conducted by NAtional park directorates & Birdlife HUngary (counting 277 volunteers and colleagues of the national parks) - covering 10 % of the country, with the aim of monitoring wintering population. 16 radio transmitters and 8 satellite transmitters were put on birds to monitor daily movements, habitat selection, migration etc. Education/awareness rising <input checked="" type="checkbox"/> In the frame of the LIFE project several reports, news were made, the issue was presented in the media 120 times in 2007! Lectures were made for hunting societies, veterinary and other authorities on the impact of poisoning on birds of prey. Species protection <input checked="" type="checkbox"/> Protected since 1954 (hunting prohibited since 1939), strictly protected since 1982. Action plan is adopted for the species. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Breeding and feeding grounds are protected - either by national law or as SPA. Since the species is partially changing habitat from forest hills to lowland (mostla arable land) habitats, the majority (70%) of the habitats if protected in the frame of Natura 2000 network and not the traditional protected area system. Habitat restoration <input type="checkbox"/> Other <input checked="" type="checkbox"/> Two expeditions have been made to the Caucasus Mountains in 2007. Birdlife Hungary helped to survey the breeding population, the territory of the Imperial EAgle in Azerbajdan and Gruzia. Locating and retrofitting the most dangerous medium-voltage electric poles; Construction of artificial nests and reinforcement of collapsing nests. The Imperial Eagle Working Group of the MME won a significant financial support by the LIFE-Nature fund of the EU (LIFE2002NAT/H/8627) to establish the base of a medium-term conservation programme of the species. The execution of the project started in October 2002, ended in December 2005.
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: After finishing the LIFE project conservation activies continue in the frame of the Imperial EAgle Working Group- incorporating Birdlife HUngary and NAtional park directoreates as well.

<i>Species name</i> – Common Name(s) Falco naumanni - Lesser Kestrel	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Nowadays only vagrant birds are seen between April and September, primarily in April. Mostly males are recorded in open areas on lowlands. Eleven accepted records since 1988 (1 adult in 2006, 2 juveniles in 2007).
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>

3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):
	Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1906, strictly protected since 1993. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? Due to the fact that this species is a very rare vagrant in Hungary, no specific conservation activities are carried out.
5	Describe any future activities that are planned for this species: n.a.

<i>Species name</i> – Common Name(s) Otis tarda - Great Bustard	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Min. 1,200 , max. 1,300. Larger populations of the Maros–Körös Plain, Nagykunság, Bihar Plain and Hortobágy, presumably forming a single metapopulation, stabilized. At the same time the small populations of the Little Plain as well as the largest Hungarian population in the Kiskunság have started to increase significantly. Numbers are slowly decreasing in the Heves Plain and in the Borsodi-Mezoség. Mostly breeds in agricultural areas, primarily in fallow lands. Resident, but in harsh winters with much snowfall a certain proportion of the population migrates southwards.
2b	Summarise information on distribution (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> See above. Seven topographically separated (sub)populations exist. As a result of conservation management the distribution area of the species is increasing - especially in the Kiskunság.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input checked="" type="checkbox"/> The relation between breeding success and environmental factors and genetic variability; habitat preference and daily movements studied via satellite telemetry Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> National synchronic census conducted twice each year - in JAN./ Febr. and in Apr./ May - estimating population size. In the frame of the LIFE project a monitoring protocol has been developed containing integrated population and habitat monitoring. Nine sample areas have been designated on which monitoring is going not only on the Great Bustard and predator populations but even agricultural patterns and habitat use. Monitoring of the effects of habitat management in the ESA regime is carried out also. Education/awareness rising <input checked="" type="checkbox"/> Meetings for farmers in the settlements which have important habitats of Great Bustard in their territory; leaflets. Species protection <input checked="" type="checkbox"/> Protected since 1971, strictly protected since 1982. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input checked="" type="checkbox"/> Most of the leks (display areas) and breeding areas are protected; however, a significant extent of the habitat -mostly arable lands important for the Great Bustard- are not included in the traditional protected area system., but in the NATURA 2000 network. The total area covered by

	SPA and pSCI sites is 41,902 ha. Habitat restoration <input checked="" type="checkbox"/> 560 hectares restoration of grasslands; 122 hectares alfalfa as feeding grounds; rape field for winter surviving provided. Other <input checked="" type="checkbox"/> With the help of the North Hungarian Electricity Supply Corporation 11 km of open electric power line was buried in the Borsodi Mezőség ESA, which has been established for the protection of the Great Bustard; nest safeguarding, rescue of abandoned eggs, artificial hatching and rearing of saved eggs in the Great Bustard Conservation Station; laying down precise management provisions and restrictions (such as date of first mowing etc.) in management plans and in contracts regarding ESA-s; winter protection; LIFE Nature project has started in October 2004, finishing in 2008, covering all 9 regions in Hungary important for the Great Bustard.
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: Finishing the LIFE project, continuing above mentioned conservation activities, putting satellite transmitters on a Great Bustard hen.

<i>Species name – Common Name(s)</i> Vanellus gregarius - Sociable Lapwing	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Rare spring (April–May) and autumn (September–November) vagrant, but nowadays occurs every year. 1 observed individual / year, usually in autumn.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Protected since 1954, strictly protected since 1993. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? Due to the fact that this species is a very rare vagrant in Hungary, no specific conservation activities are carried out.
5	Describe any future activities that are planned for this species: See above.

<i>Species name – Common Name(s)</i> Numenius tenuirostris - Slender-billed Curlew	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Extremely rare vagrant. Critically endangered. one of the most recent confirmed field sightings since 2000 was recorded in Hungary (2001). In the 19th and early 20th century it was a rare but regular autumn

	(September–November) and spring (March–April) migrant in the Great Plain mainly in the floodplain of the Tisza River. Ten records known since 1975.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> n.a.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education/awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: n.a.

<i>Species name</i> – Common Name(s) Tryngites subruficollis - Buff-breasted Sandpiper	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Very rare autumn (August–October) vagrant. Seven accepted records, three in the reporting period.
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> Observations occurred at different parts of the country.
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input checked="" type="checkbox"/> Regular waterbird census. Education/awareness rising <input type="checkbox"/> Species protection <input checked="" type="checkbox"/> Species protected since 1988. Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	Describe any future activities that are planned for this species: n.a.

<i>Species name</i> – Common Name(s) <i>Acrocephalus paludicola</i> - Aquatic Warbler	
1	Please provide published distribution reference:
2a	<p>Summarise information on population size (if known):</p> <p>increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input checked="" type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>With minor fluctuations the breeding population has been steadily increasing since the 1970s, tripled in the 1990's. 1 breeding site in Tiszántúl Region, Hortobágy – where it is locally abundant, giving 550-650 pairs. Migrant. Reaches its breeding ground between the end of April and mid-May, and immediately leaves it after the breeding (end of July). Very rare vagrant apart from its breeding sites in the Hortobágy. Three accepted records excluding the Hortobágy since 1993.</p>
2b	<p>Summarise information on distribution (if known):</p> <p>increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/></p> <p>Breeds in small numbers on tussocky marshy meadows, wet alkali meadows and sedge meadows. Six new breeding locations registered in the past years.</p>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> Research on the possible reasons of increase in range.</p> <p>Identification and establishment of protected areas <input type="checkbox"/></p> <p>Monitoring <input checked="" type="checkbox"/> Full counts in breeding sites and transect counts in possible breeding sites</p> <p>Education/awareness rising <input type="checkbox"/></p> <p>Species protection <input checked="" type="checkbox"/> Protected since 1991, strictly protected since 1993.</p> <p>Control hunting / poaching <input type="checkbox"/></p> <p>Species restoration <input type="checkbox"/></p> <p>Habitat protection <input checked="" type="checkbox"/> Whole breeding area covered by national protected area system &amp; SPA.</p> <p>Habitat restoration <input checked="" type="checkbox"/> Creation of wet grasslands as suitable breeding habitat.</p> <p>Other <input checked="" type="checkbox"/> Abandonment of hay-cutting; prohibition of putting fire; prevention of fires in August-Sept. via flooding and extra artificial flooding in spring; leaving wet dead plant matter and high stalks, water level regulated according to the need of the species.</p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken? n.a.
5	<p>Describe any future activities that are planned for this species:</p> <p>Activities mentioned above are to be continued in the future.</p>

## 2. MARINE MAMMALS

### 2.1 General questions on Appendix I marine mammals

1	<p>Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I marine mammals:</p> <p>By-catch <input type="checkbox"/>                      Collision with fishing traffic <input type="checkbox"/></p> <p>Pollution <input type="checkbox"/>                      Illegal hunting <input type="checkbox"/></p> <p>Other threats to migration (please provide details)</p>
2a	What actions are being undertaken to overcome these obstacles?
2b	Please report on the progress / success of the actions taken.
2c	What assistance, if any, does your country require in order to overcome these obstacles?
3	<p>What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)?</p> <p>Pollution <input type="checkbox"/>                      By-catch <input type="checkbox"/></p> <p>Other (please specify)</p>
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour?
3b	Please report on the progress / success of the actions taken.
3c	Describe any factors that may limit action being taken in this regard:
3d	What assistance, if any, does your country require to overcome these factors?

## 2.2 Questions on specific Appendix I marine mammals

In the following section, using the table format below, please fill in each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I marine mammals in general:

### 3.2 Questions on specific Appendix I marine turtles

**In the following section, using the table format below, please fill in each Appendix I marine turtle species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)**

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):  Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I marine turtles in general:
--

## 4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

### 4.1 General questions on Appendix I terrestrial mammals (other than bats)

1	Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	<input type="checkbox"/> Yes	<input type="checkbox"/> No
1a	If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	<input type="checkbox"/> Yes	<input type="checkbox"/> No
2	Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats):		
	Lack of information <input type="checkbox"/>	By-catch <input type="checkbox"/>	
	Habitat fragmentation <input type="checkbox"/>	Electrocution <input type="checkbox"/>	
	Wind turbines <input type="checkbox"/>	Poaching <input type="checkbox"/>	
	Insufficient legislation <input type="checkbox"/>	Lack of trans-boundary management <input type="checkbox"/>	
	Poor communication amongst Range States <input type="checkbox"/>	Man-made barriers <input type="checkbox"/>	
	Climate change and drought <input type="checkbox"/>		
	Other threats to migration (please provide details)		
2a	What actions are being undertaken to overcome these obstacles?		
2b	Please report on the progress / success of the actions taken.		
2c	What assistance, if any, does your country require in order to overcome these obstacles?		
3	What are the major threats to Appendix I terrestrial mammals (transcending mere obstacles to migration)?		
	Lack of information <input type="checkbox"/>	Habitat fragmentation <input type="checkbox"/>	
	Poaching <input type="checkbox"/>	Insufficient legislation <input type="checkbox"/>	
	Illegal trade <input type="checkbox"/>	Other (please specify)	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats) beyond actions to prevent disruption to migrating behaviour?		
3b	Please report on the progress / success of the actions taken.		
3c	Describe any factors which limit action being taken in this regard:		
3d	What assistance/measures, if any, does your country require to overcome these factors?		

## 4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

In the following section, using the table format below, please fill in each Appendix I terrestrial mammal species (other than bats) for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):  Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species?

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general:
---

## 5. BATS

### 5.1 General questions on Appendix I bats

1	Is the taking of all Appendix I bats prohibited by the national implementing legislation cited in Table I(a) (General Information)? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span> If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bats is prohibited by law, have any exceptions been granted to the prohibition? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span> If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
2	Identify any obstacles to migration that exist in relation to Appendix I bats: Vandalism of bat caves <input type="checkbox"/> Other threats to migration (please provide details)
2a	What actions are being undertaken to overcome these obstacles?
2b	Please report on the progress / success of the actions taken.
2c	What assistance, if any, does your country require in order to overcome these obstacles?
3	What are the major threats to Appendix I bats (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> Habitat fragmentation and loss <input type="checkbox"/> Other (please specify)
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats beyond actions to prevent disruption to migrating behaviour?
3b	Please report on the progress / success of the actions taken.
3c	Describe any factors that may limit action being taken in this regard:
3d	What assistance/measures, if any, does your country require to overcome these factors?

## 5.2 Questions on specific Appendix I bat species

In the following section, using the table format below, please fill in each Appendix I bat species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on trends (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):  Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I bats in general:

## 6. OTHER TAXA

### 6.1 General questions on Appendix I species belonging to other taxa

1	Identify the Ministry, agency/department, or organisation responsible for leading actions relating to Appendix I listed species belonging to taxa not included in sections 1-5 above: n.a.
2	Is the taking of all Appendix I species belonging to taxa not included in sections 1-5 above, prohibited by the national legislation listed as being implementing legislation in Table I(a) (General Information)? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span> If <i>other</i> legislation is relevant, please provide details: n.a.
2a	If the taking of Appendix I species belonging to taxa not included in sections 1-5 above is prohibited by law, have any exceptions been granted to the prohibition? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span> If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
3	Identify any obstacles to migration that exist in relation to Appendix I species belonging to taxa not included in sections 1-5 above: Lack of legislation <input type="checkbox"/> Other threats to migration (please provide details)
3a	What actions are being undertaken to overcome these obstacles?
3b	Please report on the progress / success of the actions taken.
3c	What assistance, if any, does your country require in order to overcome these obstacles?
4	What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify)
4a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour?
4b	Please report on the progress / success of the actions taken.
4c	Describe any factors that may limit action being taken in this regard:
4d	What assistance, if any, does your country require to overcome these factors?

## 6.2 Questions on specific Appendix I species belonging to other taxa

**In the following section, using the table format below, please fill in each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)**

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):  Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness rising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I species belonging to taxa not included in sections 1-5 above:

## 7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	<p>Is your country a Range State for any other endangered migratory species<sup>1</sup> not currently listed in Appendix I? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details:</p> <p>N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.</p>
1a	<p>Is your country taking any steps to propose listing any of these species? <span style="float: right;"><input type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details:</p>
1b	<p>What assistance/measures, if any, does your country require to initiate the listing of these species?</p>

<sup>1</sup> according to the latest IUCN red data list

### III. Appendix II Species

#### 1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreement/MoUs to which your country is a Party.

<b>EUROBATS (1994)</b>	
Date of last report: 2006	Period covered: 2003-2006
<b>SLENDER-BILLED CURLEW MoU (1994)</b>	
Date of last report: October 1995	Period covered: -1995
<b>AEWA (1999)</b>	
Date of last report: 2008	Period covered: 2006-2008
<b>GREAT BUSTARD MoU (2001)</b>	
Date of last report: 2004	Period covered: -2004
<b>AQUATIC WARBLER MoU (2003)</b>	
Date of last report: 2005	Period covered: 2003-2005

## 2. QUESTIONS ON CMS AGREEMENTS

### 2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details: Dr. Bankovics Attila as the Scientific Counsellor reviewed the draft text of the African-Eurasian Raptors and Owls Agreement.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? n.a.	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: A MoU on the protection of European grassland passerines has been proposed by Hungary on previous Scientific Council Meetings with the answer to initiate the listing of species on Appendix II firstly.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

### 2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

### 2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	

4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No
---	---	--

#### 2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

#### 2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

#### 2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	

4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input type="checkbox"/> No
---	---	------------------------------	-----------------------------

<b>3. LISTING OF MIGRATORY SPECIES IN APPENDIX II</b>
---

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation?  If Yes, please provide details: Skylark ( <i>Alauda arvensis</i> ), Calandra Lark ( <i>Melanocorypha calandra</i> ), Meadow pipit ( <i>Anthus pratensis</i> ), Woodlark ( <i>Lullula arborea</i> ) and others have been suffering in past years from the increasing pressure of hunters in the south-eastern countries in Europ  N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II?  If Yes, please provide details: The Scientific Councillor of Hungary, Dr. Attila Bankovics intends to propose the listing of these (and possibly other endangered) species in Appendix II on the next meeting of the CMS Scientific Council.	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
1b	What assistance, if any, does your country require to initiate the listing of this/these species?		

## IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues	<input type="checkbox"/> Low <input type="checkbox"/> Medium <input checked="" type="checkbox"/> High																		
2	<p>Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan? <span style="float: right;"><input checked="" type="checkbox"/> Yes    <input type="checkbox"/> No</span></p> <p>The objectives of the National Biodiversity Strategy and Action Plan help the conservation and sustainable use of migratory species and their habitats but there is no specific strategic objective on this issue. The objectives focusing on species and habitats include migratory species as well. All sectoral chapters (mining; forestry and forest management; fisheries management, fishing, angling; agriculture; regional development and tourism; land use; hunting; water management; molecular biology methods and biodiversity) of the National Biodiversity Strategy and Action Plan help indirectly the above mentioned objective.</p> <p>The Hungarian Parliament has approved the resolution on the National Environmental Programme for 2003-2008. Within this frame exists the National Nature Conservation Master Plan containing the obligation of implementation of CMS. Numerous provisions serve the protection of migratory species e.g. designation of protected and non-protected areas, wildlife protection, landscape protection sections.</p> <p>If Yes, please indicate and briefly describe the extent to which it addresses the following issues:</p> <p><input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of migratory species species action plans have been elaborated for the Red-footed Falcon, the Great Bustard and the Kentish Plover</p> <p><input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas Several management plans entered into force (as ministerial decrees) in favor of conservation of habitats of migratory species (as well)</p> <p><input checked="" type="checkbox"/> Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch) Agreement signed with electric companies on reducing risk of electrocution; for the reasons of bird conservation restricted air spaces have been designated where aircrafts would endanger the flight of nmigrating bird species</p> <p><input checked="" type="checkbox"/> Minimizing or eliminating barriers or obstacles to migration minimize the risk of electrocution and to take the interests of migratory birds into consideration in the planning process of windturbines</p> <p><input checked="" type="checkbox"/> Research and monitoring of migratory species Natura2000 monitoring, Endangered species monitoring (including species still abundant , but declining e-g- White Stork), Strictly protected and colonial bird species monitoring ( running from 2000 aiming to create scientific base to the species protection programs and to trace population trends. The results of these surveys give the base for international reporting obligation of Hungary), Everyday birds monitoring, national waterfowl monitoring (carried out 8 months a year aiming to detect the dynamics of breeding birds and migratory birds and carrying out synchronic censuses on Ramsar and important .migratory sites), monitoring of the effectiveness of nature conservation programs, monitoring nature conservation activities, monitoring Monitoring utilized species</p> <p><input checked="" type="checkbox"/> Transboundary co-operation Transboundary co-operation with Serbia and Romania regarding the monitoring and habitat reconstruction and management for the Great Bustard</p>																			
3	<p>Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements) <span style="float: right;"><input checked="" type="checkbox"/> Yes    <input type="checkbox"/> No</span></p> <p>If Yes, please provide details: The National Agri-environmental scheme under the Rural Development Plan includes species-specific measures for migratory species (e.g. establishment of ESA-s) such as Great Bustard, Montagu's Harrier (<i>Circus pygargus</i>) and Roller (<i>Coracias garrulus</i>). The Act on Regional Policy identifies the broad outlines of the National Ecological Network, which supports migratory species.</p>																			
3a	<p>Do these policies/plans cover the following areas (if Yes, please provide details):</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 10%; text-align: center;">Yes</td> <td style="width: 10%; text-align: center;">No</td> <td></td> </tr> <tr> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Exploitation of natural resources (e.g. fisheries, hunting, etc.)</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Economic development</td> </tr> <tr> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Land-use planning</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Pollution control</td> </tr> <tr> <td style="text-align: center;"><input type="checkbox"/></td> <td style="text-align: center;"><input type="checkbox"/></td> <td>Designation and development of protected areas</td> </tr> </table>		Yes	No		<input checked="" type="checkbox"/>	<input type="checkbox"/>	Exploitation of natural resources (e.g. fisheries, hunting, etc.)	<input type="checkbox"/>	<input type="checkbox"/>	Economic development	<input checked="" type="checkbox"/>	<input type="checkbox"/>	Land-use planning	<input type="checkbox"/>	<input type="checkbox"/>	Pollution control	<input type="checkbox"/>	<input type="checkbox"/>	Designation and development of protected areas
Yes	No																			
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Exploitation of natural resources (e.g. fisheries, hunting, etc.)																		
<input type="checkbox"/>	<input type="checkbox"/>	Economic development																		
<input checked="" type="checkbox"/>	<input type="checkbox"/>	Land-use planning																		
<input type="checkbox"/>	<input type="checkbox"/>	Pollution control																		
<input type="checkbox"/>	<input type="checkbox"/>	Designation and development of protected areas																		

	<input checked="" type="checkbox"/> <input type="checkbox"/> Development of ecological networks <input type="checkbox"/> <input type="checkbox"/> Planning of power lines <input type="checkbox"/> <input type="checkbox"/> Planning of fences <input checked="" type="checkbox"/> <input type="checkbox"/> Planning of dams Implementation of dam construction plans have started in Upper Tisza Region assumingly establishing a few water reservoirs along the Tisza River - which will be good habitats for migrating water birds as well. <input type="checkbox"/> <input type="checkbox"/> Other
4	Results – please describe the positive outcomes of any actions taken

## V. Protected Areas

1	<p>Are migratory species taken into account in the selection, establishment and management of protected areas in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details: Several protected areas are designated for saving certain migratory species. As a member state of the EU SPA sites have also been designated in the frame of Natura 2000 system.</p>
1a	Please identify the most important national sites for migratory species and their protection status: Hortobágy, Kiskunság, Balaton-Felvidék - as the most important stopover sites especially for water birds - both in abundance and in species richness.
1b	<p>Do these protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas):</p> <p>Yes      No</p> <input checked="" type="checkbox"/> <input type="checkbox"/> Terrestrial <input checked="" type="checkbox"/> <input type="checkbox"/> Aquatic <input type="checkbox"/> <input type="checkbox"/> Marine
1c	Identify the agency, department or organization responsible for leading on this action in your country: Ministry of Environment and Water
2	<p>Results – please describe the positive outcomes of any actions taken</p> <p>Management plans have been accepted for protected and Natura 2000 sites (e.g. 2 management plans in favor of the Great Bustard in the Kiskunság region); several designations as protected areas were achieved in the reporting period</p>

## VI. Policies on Satellite Telemetry

1	<p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p style="text-align: center;"><input type="checkbox"/> In preparation      <input checked="" type="checkbox"/> on-going    <input checked="" type="checkbox"/> completed</p> <p>8 Imperial Eagles, 1 Great Bustard and 1 SAker Falcon</p>
2	<p>Are any future conservation/research projects planned that will use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects):</p> <p>In 2008 a satellite transmitter is planned to be put on a Great Bustard hen</p> <p>If No, please explain any impediments or requirements in this regard:</p>
3	<p>Results – please describe the positive outcomes of any actions taken</p> <p>Knowledge gained on daily, season and yearly movements of the individuals, habitat selection, migration route, flight speed etc.</p>

## VII. Membership

1	Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No  If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.) Hungary urged Serbia to join the Great Bustard MoU - a trilateral meeting was organized in Vojvodina / Serbia (with the participation of Romania) in 2006 for this reason
1a	Identify the agency, department or organization responsible for leading on this action in your country: Ministry of Environment and Water, Körös-Maros National Park Directorate
2	Results – please describe the positive outcomes of any actions taken Serbia participated the European Great Bustard Expert Meeting, commenced communication with stakeholders and started working on the management of habitats.

## VIII. Global and National Importance of CMS

1	Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:
2	Identify the agency, department or organization responsible for leading on this action in your country:
3	Results – please describe the positive outcomes of any actions taken

## IX. Mobilization of Resources

1	Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details (Indicate the migratory species that have benefited from these activities): cofinancing LIFE Nature projects for the Great Bustard, the Imperial Eagle, the Red-fotted Falcon and the Saker Falcon; hosting the Advisory Committee Meeting of EUROBATS in May, 2007.
2	Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:
3	Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
4	Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
5	Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

	If Yes, please provide details (Indicate the migratory species that have benefited from these activities):
6	<p>Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities): Through LIFE Nature projects (See above) and INTERREG projects (e.g. habitat restoration and establishment of wetland habitats in co-operation with Serbia)</p>

## X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

### Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch

Resolution 6.3 – Southern Hemisphere Albatross Conservation

Resolution 7.2 – **Impact Assessment** and Migratory Species

314/2005 Governmental Decree lays down the detailed rules on Environmental Impact Assessment in Hungary. Certain activities (which may negatively affect migratory species as well) are subject to obligatory detailed EIA, like the construction of motorways, highways, railways, public roads longer than 10 km, 220 kV power lines longer than 15 km. Other activities, like redistribution of land property (in case of protected areas, ecological corridors or lands larger than 300 hectares), alteration of intensive agricultural land-use, meliorization, establishment of animal husbandry facilities in certain cases, construction of 120 kV power lines and 2 MW windturbines (200 kW in protected areas) may be subject to EIA – upon the decision of environmental authority.

Resolution 7.3 – Oil Pollution and Migratory Species

Resolution 7.4 – **Electrocution** of Migratory Birds

In Hungary a length of 50 000 kms of medium-voltage power lines exist, which means 650 000 towers – according to the data given by the power suppliers. Five surveys were carried out on the mortality caused by electrocution (See previous national report). Most frequently found species are *Buteo buteo*, *Falco vespertinus* and *Ciconia ciconia*, but rare species are regularly found e.g. *Falco cherrug*, *Aquila heliaca*, *Haliaeetus albicilla*, *Falco peregrinus*, *Aquila chrysaetos* and *Milvus* species. As a result of the survey, assumingly 200 000 towers might impose threat of electrocution, from which 50 000 have been insulated until now. In February, 2008 an agreement has been signed among the Ministry of Environment and Water, Birdlife Hungary and the three major electricity companies called ‘Obstacle-free Sky’ aiming to reduce the risk / mortality caused by electrocution. The electricity companies obligated themselves to install new electric poles only in a bird-friendly manner (using approved pole types – from conservation aspects) and phase out all dangerous power lines and poles in 3 phases (2008, 2009, 2020) according to a priority list elaborated by the nature conservation sector.

Birdlife Hungary has carried out another, so called white stork protection and nest heightening program. In the last four decades the nesting of white storks has changed and 80% of the white storks nest on electricity poles. Birdlife Hungary co-operating with the power suppliers developed a special stork nest holder, and ~6000 such holders have been installed.

Resolution 7.5 – Wind Turbines and Migratory Species

Resolution 7.9 – Cooperation with Other Bodies and Processes

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde’s and Pygmy Right Whales under the Convention on Migratory Species

Resolution 8.1 – Sustainable Use

Resolution 8.2 – CMS Strategic Plan 2006-2010

Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity Target

Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)

Resolution 8.11 - Co-operation with other Conventions

Resolution 8.13 - **Climate Change** and Migratory Species

The Government adopted the National Climate Change Strategy in February, 2008 covering years 2008-2025. The next step is to adopt a governmental program for the implementation of the strategy for the upcoming 2 years.

Resolution 8.14 – By-Catch

Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans

Resolution 8.24 - National Reports for the Eight and Ninth Meetings of the Conference of the Parties

Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza

Resolution 8.29 - Concerted Actions for Appendix I Species

### **Recommendations**

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

Recommendation 7.7 – America Pacific Flyway Programme

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

Recommendation 8.16 – Migratory Sharks

Recommendation 8.17 – Marine Turtles

Recommendation 8.23 - Central Eurasian and Aridland Mammals

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

Recommendation 8.28 - Cooperative Actions for Appendix II Species

### **Other resolutions/recommendations:**

### **Other remarks:**

## Annex: Updating Data on Appendix II Species

**No changes since last report.**

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP8 in 2005 and Parties which did not submit a National Report in 2005 are requested to complete the entire form.

Parties that did submit a report in 2005 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8).

Species	Range State	Extinct at National level	No information available	Published distribution reference

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).
