

# CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/Inf.9.12.45  
1 July 2008

Original: English

---

NINTH MEETING OF THE  
CONFERENCE OF THE PARTIES  
Rome, 1-5 December 2008  
Agenda Item 10a

## REVIEW OF IMPLEMENTATION OF THE CONVENTION

National Reports Submitted by Contracting Parties

Report of: **Netherlands** (received: 1.07.2008)

The Secretariat is making available, for the information of participants in the Ninth Meeting of the Conference of the Parties to the Convention on Migratory Species, the national reports provided by Contracting Parties. For the most part, the national reports have been reproduced in the form in which they were received, apart from minor formatting changes.

## REVUE DE L'APPLICATION DE LA CONVENTION

Rapports nationaux soumis aux parties contractantes

Rapport de: **Pays-Bas** (reçu: 1.07.2008)

Pour l'information des participants à la Neuvième Réunion de la Conférence des Parties à la Convention sur les Espèces migratrices, le Secrétariat met à leur disposition des rapports nationaux fournis par les parties contractantes. Dans la plupart des cas, les rapports nationaux ont été reproduits dans la forme même sous laquelle nous les avons reçus, abstraction faite de formatages mineurs.

## REVISION DE LA APLICACION DE LA CONVENCION

Reportes Nacionales Enviados por los Miembros del Acuerdo

Reporte de: **Países Bajos** (recibido: 1.07.2008)

Los reportes nacionales enviados por los Miembros del Acuerdo están a disposición de los participantes del Novena Reunión de la Conferencia de los Miembros de la Convención sobre Especies Migratorias en la Secretaría. La mayoría de ellos se encuentran en la versión original en la que se enviaron, con excepción de pequeños ajustes de formato.

# Convention on the Conservation of Migratory Species of Wild Animals

## NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

**The Kingdom of the Netherlands  
2005-2007**

**Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Ninth Meeting of the Conference of the Parties (COP9) (Rome, 2008).**

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country: **KINDGOM OF THE NETHERLANDS**

Which agency has been primarily responsible for the preparation of this report?

Ministry of Agriculture, Nature and Food Quality

Please list any other agencies that have provided input:

Alterra

Ministry of Public Health & Social Development (VSO) of the Netherlands Antilles

6	Other Taxa: <i>Carcharias caracharodon</i>	Ministry of Public Health and Social Development, Department of Environment (Antilles)

## II. Appendix I species

### 1. BIRDS

#### 1.1 General questions on Appendix I bird species

1	Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):
2	Identify any obstacles to migration that exist in relation to <b>Appendix I bird species</b> : By-catch <input type="checkbox"/> Electrocutation <input type="checkbox"/> Habitat destruction <input type="checkbox"/> Wind turbines <input type="checkbox"/> Pollution <input type="checkbox"/> Other (please provide details)                      Not for Appendix I species
2a	What actions are being undertaken to overcome these obstacles? Not applicable
2b	Please report on the progress / success of the actions taken. Not applicable
2c	What assistance, if any, does your country require in order to overcome these obstacles? None
3	What are the major threats to Appendix I bird species (transcending mere obstacles to migration)? Illegal trade <input type="checkbox"/> Poaching <input type="checkbox"/> Other (please specify)                      None of the above
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour? Not applicable
3b	Please report on the progress / success of the actions taken. Not applicable
3c	Describe any factors that may limit action being taken in this regard: Not applicable
3d	What assistance, if any, does your country require to overcome these factors? None

## 1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

In 1981 a reintroduction project was set up in Swedish Lapland to guide the geese via a safe route to the North Sea countries. Nowadays every winter some 100 birds are seen in the Netherlands. SOVON report 2005/06 (Koffijberg et al) describes an increase from ca 20 individuals around 1990 to ca 120 from 2003/04 onwards. There are 6 core sites for this species, where 87% of all observations took place. Average peak numbers vary from 50 individuals near Anjum to 5 elsewhere. The majority are of Swedish origin. It is also estimated that 96% of the reintroduced Swedish birds winter in the Netherlands. Two breeding records + 1 mixed pair were recorded but it was assumed they were of feral origin.

3a	What actions are being undertaken to overcome these obstacles?
3b	Please report on the progress / success of the actions taken.
3c	What assistance, if any, does your country require in order to overcome these obstacles?
4	What are the major threats to Appendix I species belonging to taxa not included in sections 1-5 above (transcending mere obstacles to migration)? Other (please specify)
4a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species belonging to taxa not included in section 1-5 above beyond actions to prevent disruption to migrating behaviour?
4b	Please report on the progress / success of the actions taken.
4c	Describe any factors that may limit action being taken in this regard:
4d	What assistance, if any, does your country require to overcome these factors?

## 6.2 Questions on specific Appendix I species belonging to other taxa

**In the following section, using the table format below, please fill in each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)**

5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I species belonging to taxa not included in sections 1-5 above:  
 No Appendix I other taxa occur in the Netherlands or the Netherlands Antilles.

## 7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	Is your country a Range State for any other endangered migratory species <sup>1</sup> not currently listed in Appendix I? <span style="float: right;"><input type="checkbox"/> Yes    <input checked="" type="checkbox"/> No</span> If Yes, please provide details:  N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
1a	Is your country taking any steps to propose listing any of these species? <span style="float: right;"><input type="checkbox"/> Yes    <input checked="" type="checkbox"/> No</span> If Yes, please provide details:
1b	What assistance/measures, if any, does your country require to initiate the listing of these species? None

## 2. QUESTIONS ON CMS AGREEMENTS

### 2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details: <ul style="list-style-type: none"><li>• The Netherlands participated in the Loch Lomond conference in 2007 on development of an MoU and action plan for migratory birds of prey</li></ul>	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? NA	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

### 2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details: The Netherlands participated in the meeting of West-African Talks on Cetaceans and their Habitats (WATCH)	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? NA	
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

### 2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

	If Yes, please provide details:	
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? NA	
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
<b>2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)</b>		

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

<b>2.5 Questions on the development of new CMS Agreements relating to bats</b>
--

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

<b>2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA</b>
--

1	In the current reporting period, has your country <b>initiated</b> the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-6 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country <b>participated</b> in the development of any new CMS Agreements, including Memoranda of Understanding, which address	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

	the conservation needs of species belonging to taxa not included in sections 1-6 above? If Yes, please provide details: The Netherlands participated in the first global meeting on Shark conservation under CMS
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? NA
4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:

### 3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.
1a	Is your country taking any steps to propose the listing of this /these species in Appendix II? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details:
1b	What assistance, if any, does your country require to initiate the listing of this/these species? None

## IV. National and Regional Priorities

## VI. Policies on Satellite Telemetry

1	<p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p><input type="checkbox"/> In preparation <input checked="" type="checkbox"/> on-going <input type="checkbox"/> completed</p> <ul style="list-style-type: none"> <li>• In close cooperation with the German <a href="#">"Institute of Avian Research"</a> SOVON participates in a large international research programme financed by the <a href="#">"European Space Agency" (ESA)</a>. Partners in this programme are <a href="#">"Computational Biogeography and Physical Geography (UvA)"</a> and <a href="#">"Centre for Limnology (NIOO-KNAW)"</a>. The project focuses on following the movements of Lesser Black-backed Gulls, Herring Gulls and Barnacle Geese using satellite transmitters. The overall aim of the <a href="#">FlySafe</a> programme is to prove the added value of the integration of space-based systems (meteorology, earth observations, telecommunication etc.) and earth-based systems to improve flight safety. For some years Alterra has followed, in cooperation with the German goose researcher Helmut Kruckenberger intensively the movements of marked <i>Anser albifrons</i>. Some thousands have been marked with neck bands and since 2006 some of them are followed by satellite telemetry. In this way the geese can be followed more accurately than only by neck bands. <a href="http://www.blessgans.de/">http://www.blessgans.de/</a></li> <li>• Since the summer of 2007 purple herons are followed by telemetry in a project of Vogelbescherming Nederland en Bureau Waardenburg. 2	<p>Are any future conservation/research projects planned that will use satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects):</p> <ul style="list-style-type: none"> <li>• Continuing of above mentioned research projects</li> <li>• Research will be extended to <i>Branta leucopsis</i></li> </ul> <p>If No, please explain any impediments or requirements in this regard: Lack of funding (in the Netherlands Antilles)</p>
3	Results – please describe the positive outcomes of any actions taken

	<p>The research programmes give insight in the migration routes, breeding biology and use of wintering areas. The results of the research on geese are used to define the most important wintering areas where geese can graze undisturbed and where the farmers are compensated for the damage to the agricultural grasslands on one hand and areas where eventually the damage will not be compensated and geese may be scared away. Besides the knowledge of flyways is used in the research on avian influenza.</p> <p>The sea turtle tracking programme has provided insight as to where sea turtles nesting in Bonaire and St. Eustatius go to forage. The daily tracking updates provided on a website generated enormous public interest, a powerful tool in raising public awareness.</p>

3	<p>Results – please describe the positive outcomes of any actions taken</p> <p>The presentation contributed to the awareness on the role of CMS and daughter agreements for migratory birds.</p>

## IX. Mobilization of Resources

1	<p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? <span style="float: right;"><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <ul style="list-style-type: none"> <li>• National Ecological Network and Natura 2000: habitat conservation</li> <li>• Additional species conservation measures through the new 'habitat approach'</li> <li>• Agri-environmental programme (SAN) for inter alia breeding migratory waders</li> <li>• Policies to reconcile agriculture and wintering geese and wigeons (Beleidskader Faunabeheer)</li> </ul>
2	<p>Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? <span style="float: right;"><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details:</p> <p>Project in FYROM</p>
3	<p>Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? <span style="float: right;"><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>Both in Eastern Europe and developing countries projects have been supported, Those on wetlands and migratory birds have been listed in an annex to the national report to Ramsar and the national report to AEWA.</p>
4	<p>Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? <span style="float: right;"><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>The above-mentioned projects partly contained scientific components; in addition the Alterra institute held the chairmanship of the Goose Working Group of Wetlands International; support was also provided on reporting on goose populations in the CAF.</p>
5	<p>Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? <span style="float: right;"><input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</span></p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
6	<p>Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? <span style="float: right;"><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</span></p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p> <p>Different forms of EU-funding apply, especially cofunding from the CAP's 2<sup>nd</sup> pillar (rural development: agri-environmental programme) and LIFE.</p>

## X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

### Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch  
Bycatch in the IJsselmeer (fresh water) is currently subject to research.

As for bycatch on sea (discards) the European Commission is preparing proposals for measures.

### Resolution 6.3 – Southern Hemisphere Albatross Conservation

Not applicable.

### Resolution 7.2 – Impact Assessment and Migratory Species

EIA and SEA take migratory birds into account.

### Resolution 7.3 – Oil Pollution and Migratory Species

Since august 1999 each form of oil dumping is prohibited. The Dutch policy and standards are based on the MARPOL-convention. Coast guards intensively monitor oil pollution from the air.

### Resolution 7.4 – Electrocutation of Migratory Birds

not applicable (risky lines underground)

### Resolution 7.5 – Wind Turbines and Migratory Species

(2005:) For new wind turbines article 9 of the flora and fauna law is relevant. This article forbids killing or injuring of birds. This means that new wind turbines are not allowed in places with many possible victims. Recently a planned wind mill park near the northern coast was cancelled in relation to the SEA.

### Resolution 7.9 – Cooperation with Other Bodies and Processes

### Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species

(2005:) This resolution is under investigation

### Resolution 8.1 – Sustainable Use

Not applicable (examination by the Scientific Council).

### Resolution 8.2 – CMS Strategic Plan 2006-2010

The Netherlands supports one of the actions financially.

### Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

The Netherlands have participated in the meetings on birds of prey, on sharks, and WATCH.

Though not in the context of the new Gorilla agreement, the Netherlands financially support gorilla conservation in the Great Lakes region in Africa, mainly by providing alternatives for the people around the parks in terms of fuel, wood, water and medicine.

**Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity Target**

The Netherlands have contributed to a related initiative, namely the EEA's SEBI indicator project.

**Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)**

Not applicable

**Resolution 8.11 - Co-operation with other Conventions**

Regarding the role of Parties, the Netherlands have supported the cooperation among and between conventions and promoted coordination of national reporting; the cooperation between CBD and Ramsar on wetlands was welcomed and national positions in different for a are always coordinated.

Research on AI is implemented by Dutch institutions such as NIOO and Alterra.

**Resolution 8.13 - Climate Change and Migratory Species**

Currently no comprehensive information available.

**Resolution 8.14 – By-Catch**

Bycatch in the IJsselmeer (fresh water) is currently subject to research.

As for bycatch on sea (discards) the European Commission is preparing proposals for measures.

**Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans**

Research is underway on the impact of under water sounds on marine mammals.

**Resolution 8.24 - National Reports for the Eight and Ninth Meetings of the Conference of the Parties**

COP 9: this report.

**Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza**

The Netherlands have financed the translation of the CMS/AEWA/UNEP/FAO brochure on AI into Chinese, French and Russian in order to help to spread this information.

Research on AI is implemented by Dutch institutions such as NIOO and Alterra.

**Resolution 8.29 - Concerted Actions for Appendix I Species**

The Netherlands have not taken part in these concerted actions but gorilla conservation in the Great Lakes region was financially supported . See also under resolution 8.5.

## **Recommendations**

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

not applicable

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

not applicable

Recommendation 7.7 – America Pacific Flyway Programme

not applicable

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

The Netherlands participated in the preparatory conference in 2008

Recommendation 8.16 – Migratory Sharks

The Netherlands participated in the preparatory conference in 2008

Recommendation 8.17 – Marine Turtles

not applicable

Recommendation 8.23 - Central Eurasian and Aridland Mammals

not applicable

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

not applicable

Recommendation 8.28 - Cooperative Actions for Appendix II Species

In the Netherlands this is only applicable to *Crex crex*.. The national single species action plan expired but the species continues to get attention under the new 'habitat approach' (apart from the general conservation measures in the framework of the National Ecological Network).

## **Other resolutions/recommendations:**

## **Other remarks:**

## Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP8 in 2005 and Parties which did not submit a National Report in 2005 are requested to complete the entire form.

Parties that did submit a report in 2005 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8).
