List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:

- Georgian Centre for Nature Conservation (GCCW).
 - a) GCCW conducted International Mid Winter Counts (IWC) in Kolkheti lowlands beginning from 1997 with financial support of BP, but not regularly. The most large scaled counts were conducted in 2003 with support of Wetlands international at the most important sites for wintering birds.
 - b) Javakheti Wetlands Management Project. This project was started in 1996. as a result of different conducted works in the research and education fields, the recommendations for sustainable development and different single conservational activities have been elaborated.
 - c) Important Bird Areas of Georgia Project (IBA) started in 2001. IBA is a worldwide initiative of Birdlife International aimed at identification and protection of networks of critical sites. 31 IBA have been identified in Georgia and an action plan has been developed. The objectives of Georgian IBA program were to: 1) Finalize the identification of sites of global and regional importance for the conservation of avian fauna; 2) Monitor the conservation status of identified IBAs; 3) Ensure adequate protection status of all IBAs; 4) Ensure adequate management of all IBAs; 5) Remove the existing or potential threats to IBAs; 6) Involve institutions, conventions and other groups of individuals at local, national and international levels.
 - d) Wildlife Inventory in Georgia (1995 - 1998). GCCW conducted surveys of wildlife species distribution, statuses and threats in different districts of Georgia during 1995-1998 period through support from the World Bank Small Grants Program, USAID/ISAR and Open Society Georgia Foundation.
- WWF Caucasus

The following regional Single Species Action Plans for South Caucasus are under development at the Caucasus office of WWF:

- b) Dalmatian Pelican (*Pelecanus crispus*)
- c) Lesser white fronted goose (*Anser erythropus*)
- d) Marbled Teal (*Anas angustirostris*)
- e) White headed duck (*Oxiura leucocephala*)

Besides that WWF Caucasus takes active part in establishment of Javakheti Protected Area, one of the most important areas for waterbird species.

- Field researchers Union CAMPESTER
 - a) Development and Capacity Building of Transboundary Bats Monitoring Network in the Caucasus (Financed by Critical Ecosystems Partnership Fund - CEPF), 2006-2008; Outcome of the project: Regional Action Plan for 4 countries: Russia, Armenis, Azerbaijan and Georgia;

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	<p>Is the taking of all Appendix I bird species prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>Red List of Georgia includes most of the species of Appendix I, which are distributed also in Georgia. Only two species <i>Numenius tenuirostris</i> and <i>Aythya nyroca</i> are not in the Red List of Georgia. However, they are protected from hunting. There is a special Hunting List of species, which are allowed for hunting. Hunting on the rest of them is prohibited. No species from Appendix I are listed in the Hunting List.</p> <p>If other legislation is relevant, please provide details:</p>												
1a	<p>If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):</p>												
2	<p>Identify any obstacles to migration that exist in relation to Appendix I bird species:</p> <table style="width: 100%; border: none;"> <tr> <td style="width: 30%;">By-catch</td> <td style="width: 10%; text-align: center;"><input type="checkbox"/></td> <td style="width: 30%;">Electrocution</td> <td style="width: 10%; text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Habitat destruction</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td>Wind turbines</td> <td style="text-align: center;"><input type="checkbox"/></td> </tr> <tr> <td>Pollution</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td></td> <td></td> </tr> </table> <p>Other (please provide details)</p>	By-catch	<input type="checkbox"/>	Electrocution	<input type="checkbox"/>	Habitat destruction	<input checked="" type="checkbox"/>	Wind turbines	<input type="checkbox"/>	Pollution	<input checked="" type="checkbox"/>		
By-catch	<input type="checkbox"/>	Electrocution	<input type="checkbox"/>										
Habitat destruction	<input checked="" type="checkbox"/>	Wind turbines	<input type="checkbox"/>										
Pollution	<input checked="" type="checkbox"/>												
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>A number of protected areas have been established and for the time being two more protected areas are under development. One of them, Javakheti Protected Area, is of high importance for migratory waterbirds. Besides that, Department of Integrated Environmental Management and Biodiversity of the Ministry of Environment Protection and National Resources of Georgia is being developed a National Monitoring System for the whole country biodiversity.</p>												
2b	<p>Please report on the progress / success of the actions taken.</p> <p>1. Environmental Inspectorate has been established to control illegal taking of the species, not listed in the Hunting List.</p> <p>2. During the last period a number of Protected Areas have been established.</p> <p>Kolkheti National Park was established in 1998. Management Plan is in force.</p> <p>Central Caucasus Protected Areas, consisting of 4 reserves and National Parks was established 2003.</p> <p>Mtiral National Park was established 2007. Management plan is prepared and waiting for endorsement.</p> <p>Imereti Caves Natural Monument was established in 2007. Management Plan is under preparation.</p> <p>Javakheti Protected Area is under development. The development is supported by KfW and implementation is being conducted by WWF. Management Plan is also under development by WWF</p>												
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>The basic problem of biodiversity management in general is the absence of common data base which would have contained all inventory data. Moreover, it should be noted, that inventories for many of species, as well as habitats, have not been conducted since the sixties of last century. Actually, all data are scattered among different scientific and non-governmental organizations and are not gathered due to different reasons. Nobody is interested to submit their own data, obtained through separate projects, or studies to the governmental structures. Besides that, they seemingly are obtained by using different methodologies. Though the National Monitoring System is under development, assistance in trainings, methodology, exchange of relevant experience would be appreciated. Fund rising, if there is such experience among other countries, for conducting monitoring, will be appreciated.</p>												
3	<p>What are the major threats to Appendix I bird species (transcending mere obstacles to migration)?</p>												

	Illegal trade <input type="checkbox"/> Poaching <input checked="" type="checkbox"/> Other (please specify) Habitat destruction
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?</p> <p>A number of Protected Areas, one of the reasons for which was to protect migration behaviour, have been established. Environmental Inspectorate was created to protect species from illegal hunting and poaching.</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>Progress can be assessed as very moderate due to low level of control.</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <ul style="list-style-type: none"> • Low public awareness • Economic difficulties • Lack of human resources
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>Assistance is needed to provide inventories and monitoring, trainings of Environmental Inspectorate and rangers, in education and rising of public awareness.</p>
