

CONVENTION ON MIGRATORY SPECIES

Distr: General

UNEP/CMS/Inf.9.12.27
12 June 2008

Original: English

NINTH MEETING OF THE
CONFERENCE OF THE PARTIES
Rome, 1-5 December 2008
Agenda Item 10a

REVIEW OF IMPLEMENTATION OF THE CONVENTION

National Reports Submitted by Contracting Parties

Report of: **Kenya** (received: 12.06.2008)

The Secretariat is making available, for the information of participants in the Ninth Meeting of the Conference of the Parties to the Convention on Migratory Species, the national reports provided by Contracting Parties. For the most part, the national reports have been reproduced in the form in which they were received, apart from minor formatting.

REVUE DE L'APPLICATION DE LA CONVENTION

Rapports nationaux soumis aux parties contractantes

Rapport de: **Kenya** (reçu: 12.06.2008)

Pour l'information des participants à la Neuvième Réunion de la Conférence des Parties à la Convention sur les Espèces migratrices, le Secrétariat met à leur disposition des rapports nationaux fournis par les parties contractantes. Dans la plupart des cas, les rapports nationaux ont été reproduits dans la forme même sous laquelle nous les avons reçus, abstraction faite de formatages mineurs.

REVISION DE LA APLICACION DE LA CONVENCION

Reportes Nacionales Enviados por los Miembros del Acuerdo

Reporte de: **Kenya** (recibido: 12.06.2008)

Los reportes nacionales enviados por los Miembros del Acuerdo están a disposición de los participantes del Novena Reunión de la Conferencia de los Miembros de la Convención sobre Especies Migratorias en la Secretaría. La mayoría de ellos se encuentran en la versión original en la que se enviaron, con excepción de pequeños ajustes de formato.

Convention on the Conservation of Migratory Species Of Wild Animals

FORMAT FOR NATIONAL REPORT OF PARTIES ON THE IMPLEMENTATION OF THE CONVENTION ON THE CONSERVATION OF MIGRATORY SPECIES OF WILD ANIMALS

Reporting format agreed by the Standing Committee at its 32nd Meeting (Bonn, November 2007) for mandatory use by Parties, for reports submitted to the Ninth Meeting of the Conference of the Parties (COP9) (Rome, 2008).

The questions below combine elements of Resolution 4.1 (Party Reports) adopted by the Fourth Meeting of the Conference of the Parties (Nairobi, June 1994) and Resolution 6.4 (Strategic Plan for the Convention on Migratory Species 2000-2005), adopted by the Sixth Meeting of the Conference of the Parties (Cape Town, November 1999), the COP8 Strategic Plan 2006-2011 and Resolution 8.24 adopted by the Conference of the Parties (Nairobi 2005), as well as commitments arising from other operational Resolutions and Recommendations of the Conference of the Parties.

Parties are encouraged to respond to all questions. Parties are also requested to provide comprehensive answers, including, where appropriate, a summary of activities, information on factors limiting action and details of any assistance required.

This document has been designed with semi-automated text-form fields. Please double click on the grey boxes to enter the field. You can then enter the required information. Continue to do so with each text-field or jump to the next field directly by using the tab key. Where checkboxes are available you might check these with a single click.

Please enter here the name of your country: **KENYA**

Which agency has been primarily responsible for the preparation of this report?

KENYA WILDLIFE SERVICE

Please list any other agencies that have provided input:

National Museums of Kenya

Kenya Marine and Fisheries Research Institute

I(a). General Information

Please enter the required information in the table below:

Party	Kenya
Date of entry into force of the Convention in [KENYA]	May 1999
Period covered	2005 – 2008
Territories to which the Convention applies	Kenya
DESIGNATED NATIONAL FOCAL POINT	
Full name of the institution	Kenya Wildlife Service
Name and title of designated Focal Point	Julius Kipng'etich - (Director) Alternates: 1. James Njogu - (Head, Conventions) Alternate: 2. Richard Odongo (Scientist Information)
Mailing address	PO Box 40241
Telephone	+254 20 600 800
Fax	+254 20 603 792
E-mail	Director@kws.org jgichiah@kws.org oluoch@kws.org
APPOINTMENT TO THE SCIENTIFIC COUNCIL	
Full name of the institution	Kenya Wildlife Service
Name and title of contact officer	Dr. Samuel Kasiki, Deputy Director Biodiversity Research and Monitoring
Mailing address	Po Box, 40241, 00100, Nairobi
Telephone	254-20-600800
Fax	+254 20 603 792
E-mail	skasiki@kws.org
SUBMISSION	
Name and Signature of officer responsible for submitting national report	Name: Dr. James Njogu Address: Po Box, 40241, 00100, Nairobi Tel.: 254-20-600800 Fax: N/A E-mail: jgichiah@kws.org
Date of submission	
Membership of the Standing Committee (if applicable):	Name: Address: Tel.: Fax: E-mail:
Competent Authority:	Kenya wildlife Service
Relevant implemented legislation:	Wildlife Act 1998
Other relevant Conventions/ Agreements (apart from CMS) to which <i>country name</i> is a Party:	African-Eurasian Waterbird Agreement (AEWA), Convention on Biodiversity (CBD), Convention of International Trade on Endangered Species (CITES), Ramsar Convention on Wetlands,
National policy instruments (e.g. national biodiversity conservation strategy, etc.):	National Biodiversity Action Plan 1999, KWS Strategic Plan 2005-2010

Please indicate whether your country is part of the following Agreements/MoU. If so, please indicate the competent national institution

Wadden Sea Seals:	<input type="checkbox"/> Party	<input type="checkbox"/> Non-party Range State
	<input type="checkbox"/> Signed but not yet entered force	<input checked="" type="checkbox"/> Non Range State

1	<p>Which other government departments are involved in activities/initiatives for the conservation of migratory species in your country? (Please list.)</p> <p>National Museums of Kenya-Research and monitoring on migratory birds, Fisheries Department-Fish species, Cetaceans and other marine Wildlife species Kenya Marine and Fisheries Research institute – marine life Kenya Wildlife service all wildlife and focal point</p>
2	<p>If more than one government department is involved, describe the interaction/relationship between these government departments:</p> <p>The government bodies work through MOUs and committees with representation from all the departments dealing with conservation of migratory species. The National Important Bird Areas deals with conservation of birds including migratory species. The Kenya Sea Turtle Conservation Committee (KESCOM) which draws its membership from various government institutions addresses the plight of marine turtles and other marine animals including fish cetaceans, birds and mammals. Kenya marine and Fisheries Research Institute deals with research on fisheries and marine mammals</p>
3	<p>Has a national liaison system or committee been established in your country? Please provide contact information</p> <p><input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>The liaisons system is coordinated by Kenya Wildlife Service which acts as the secretariat.</p>
4	<p>List the main non-governmental organizations actively involved in activities/initiatives for the conservation of migratory species in your country, and describe their involvement:</p> <p>East African Wildlife Society (EAWL):Through its programme “Conservation and Sustainable Management of Wetlands In Kenya” the NGO works to ensure provision of support and assistance for the development of proper policy, legislative and management regimes to secure a sustainable future and functionality of Kenyan Wetlands which are important feeding, spawning and refuge sites for a number of migratory birds.</p> <p>International Union for Conservation of Nature (IUCN): support conservation partnerships for regional marine turtle conservation efforts e.g. sponsors baseline inventory activities, mapping of nesting beaches, feeding grounds for marine turtles and identification of migratory species under threat through the specialist groups.</p> <p>Nature-Kenya: support in monitoring the status of Important Bird Areas (IBA) and key bird species. Promotion of awareness and education on IBA conservation among different communities in the country.</p> <p>Birdlife International: Through Nature Kenya, the organization provides funding for IBA conservation work and education programmes.</p> <p>World Wildlife Fund (WWF): Provide financial and technical support towards research and conservation of marine turtles. Promotes information exchange with other countries through development and maintenance of a regional web-based database on marine turtles.</p> <p>Forest Working Group</p>
4a	<p>Please provide detail on any devolved government/overseas territory authorities involved.</p> <p>Lake Basin authority and Coast development authorities including the local government authorities also contribute to the conservation and management of migratory species. The lake basin and coastal development authorities manage basins and regions important for sustainable development. The local authorities manage protected areas as conservation reserves .</p>
5	<p>Describe any involvement of the private sector in the conservation of migratory species in your country:</p> <p>Conservation of migratory species in Kenya has so far benefited little from the support of private companies. However, few NGOs working along the Kenyan coast benefit from sponsorship from tourism based companies towards conservation of marine turtles, dugongs and other marine resources.</p>
6	<p>Note any interactions between these sectors in the conservation of migratory species in your country:</p> <p>Funding for education and awareness creation activities/events on conservation of marine resources.</p>

I(b). Information about involved Authorities

Identify the ministry, agency/department or organization that is responsible for leading actions relating to Appendix I species

1	Birds	National Museums of Kenya Kenya Wildlife Service Nature Kenya (BirdLife International Partner)
2	Marine Mammals	Kenya Marine & Fisheries Research Institute Kenya Wildlife Service
3	Marine Turtles	Kenya Marine & Fisheries Research Institute Kenya Wildlife Service Fisheries department
4	Terrestrial Mammals	Kenya Wildlife Service
5	Bats	National Museums of Kenya Kenya Wildlife Service
6	Other Taxa	Kenya Wildlife Service National Museums of Kenya

II. Appendix I species

1. BIRDS

1.1 General questions on Appendix I bird species

1	<p>Is the taking of all Appendix I bird species prohibited by the national implementing Legislation cited in Table I (a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I bird species is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7):</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I bird species:</p> <p>By-catch <input type="checkbox"/> Electrocutation <input type="checkbox"/></p> <p>Habitat destruction <input checked="" type="checkbox"/> Wind turbines <input type="checkbox"/></p> <p>Pollution <input checked="" type="checkbox"/></p> <p>Other (please provide details)</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>Habitat rehabilitation and enhanced education and awareness creation on sustainable utilization of wetlands and other IBA sites.</p>
2b	<p>Please report on the progress / success of the actions taken.</p> <p>Closed fishing season in Lake Naivasha has improved food supply for migratory species of birds. The loosed fishing period in lake Victoria reduce exploitation pressure on some species.</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>Funding to monitor impacts of management activities.</p>
3	<p>What are the major threats to Appendix I bird species (transcending mere obstacles to migration)?</p> <p>Illegal trade <input type="checkbox"/> Poaching <input type="checkbox"/></p> <p>Other (please specify) loss of habitat through conversion and encroachment</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger bird species beyond actions to prevent disruption to migrating behaviour?</p> <p>Education and awareness, increased security of important bird areas especially those surrounding protected areas.</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p>Increased awareness has seen members of the community participate in the identification of the species hence reduced killings.</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p>
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p>support for monitoring of the species and habitat protection especially in forest and wetland areas</p>

1.2 Questions on specific Appendix I bird species

In the following section, using the table format below, please fill in each Appendix I bird species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s)</i> <i>Ardeola idea</i>																															
1	Please provide published distribution reference: IBA Directory of Kenya Birds, Northern Bird Atlas of Kenya																														
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/> This decrease is mainly caused by habitat loss																														
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>																														
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): <table style="width: 100%; border: none;"> <tr> <td style="width: 50%;">Research</td> <td style="width: 10%; text-align: center;"><input checked="" type="checkbox"/></td> <td style="width: 40%;"></td> </tr> <tr> <td>Identification and establishment of protected areas</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td>Wildlife Act 1998</td> </tr> <tr> <td>Monitoring</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td>Bi annual water bird counts</td> </tr> <tr> <td>Education/awareness rising</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td>Nature Kenya, National Museums of Kenya , KWS</td> </tr> <tr> <td>Species protection</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td>Wildlife Act 1998</td> </tr> <tr> <td>Control hunting / poaching</td> <td style="text-align: center;"><input checked="" type="checkbox"/></td> <td></td> </tr> <tr> <td>Species restoration</td> <td style="text-align: center;"><input type="checkbox"/></td> <td></td> </tr> <tr> <td>Habitat protection</td> <td style="text-align: center;"><input type="checkbox"/></td> <td></td> </tr> <tr> <td>Habitat restoration</td> <td style="text-align: center;"><input type="checkbox"/></td> <td></td> </tr> <tr> <td>Other</td> <td style="text-align: center;"><input type="checkbox"/></td> <td></td> </tr> </table>	Research	<input checked="" type="checkbox"/>		Identification and establishment of protected areas	<input checked="" type="checkbox"/>	Wildlife Act 1998	Monitoring	<input checked="" type="checkbox"/>	Bi annual water bird counts	Education/awareness rising	<input checked="" type="checkbox"/>	Nature Kenya, National Museums of Kenya , KWS	Species protection	<input checked="" type="checkbox"/>	Wildlife Act 1998	Control hunting / poaching	<input checked="" type="checkbox"/>		Species restoration	<input type="checkbox"/>		Habitat protection	<input type="checkbox"/>		Habitat restoration	<input type="checkbox"/>		Other	<input type="checkbox"/>

2. MARINE MAMMALS

2.1 General questions on Appendix I marine mammals

1	Is the taking of all Appendix I marine mammals prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:
1a	If the taking of Appendix I marine mammals is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):
2	Identify any obstacles to migration that exist in relation to Appendix I marine mammals: By-catch <input checked="" type="checkbox"/> Collision with fishing traffic <input checked="" type="checkbox"/> Pollution <input type="checkbox"/> Illegal hunting <input checked="" type="checkbox"/> Other threats to migration (please provide details)
2a	What actions are being undertaken to overcome these obstacles? Education and awareness
2b	Please report on the progress / success of the actions taken. Communities now aware of the need to protect marine mammals
2c	What assistance, if any, does your country require in order to overcome these obstacles?
3	What are the major pressures on Appendix I marine mammal species (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> By-catch <input checked="" type="checkbox"/> Other (please specify) illegal hunting
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine mammal beyond actions to prevent disruption to migrating behaviour? security patrols along the cost, enlisting of support from local fisher men, publishing importance of protecting marine mamals
3b	Please report on the progress / success of the actions taken. Local communities now take keen interest in marine mammals as they also attract tourists
3c	Describe any factors that may limit action being taken in this regard: Limited funding to educate communities and increased poverty levels, status of some marine mammals not known, research and monitoring required for the dugong.
3d	What assistance, if any, does your country require to overcome these factors? funding for community enterprise for local communities and reseach and monitoring funding

2.2 Questions on specific Appendix I marine mammals

In the following section, using the table format below, please fill in each Appendix I marine mammal species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name – Common Name(s) Dugong dugon</i>																															
1	Please provide published distribution reference:																														
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>																														
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>

Miscellaneous information or comments on Appendix I marine mammals in general:

3 MARINE TURTLES

3.1 General questions on Appendix I marine turtles

1	<p>Is the taking of all Appendix I marine turtles prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If <i>other</i> legislation is relevant, please provide details:</p>
1a	<p>If the taking of Appendix I marine turtles is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):</p>
2	<p>Identify any obstacles to migration that exist in relation to Appendix I marine turtles:</p> <p>By-catch <input checked="" type="checkbox"/> Pollution <input checked="" type="checkbox"/></p> <p>Other threats to migration (please provide details) Trawling and illegal fishing gear, fishing nets entangle turtles and consumption of plastic bags by the turtles</p>
2a	<p>What actions are being undertaken to overcome these obstacles?</p> <p>Education awareness to local communities targeting fisher men, Legal enforcement and patrols to stop killing of turtles and use of appropriate fishing nets. Collection and reduction of use of plastic bags</p>
2b	<p>Please report on the progress / success of the actions taken.</p> <p style="padding-left: 40px;">Few cases are being reported meaning there is compliance to enforcement and increased voluntary reporting of any killing of turtle</p>
2c	<p>What assistance, if any, does your country require in order to overcome these obstacles?</p> <p>lobbying for the players to reduce or ban the use of plastic bags</p>
3	<p>What are the major pressures on Appendix I marine turtles (transcending mere obstacles to migration)?</p> <p>Collection of eggs <input type="checkbox"/> Predation of eggs <input type="checkbox"/></p> <p>Destruction of nesting beaches <input checked="" type="checkbox"/></p> <p>Other (please specify) Poaching for meat and by-catch</p>
3a	<p>What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of marine turtles beyond actions to prevent disruption to migrating behaviour?</p> <p style="padding-left: 40px;">Community education, security patrols and enforcement, publication of mortality reports.</p>
3b	<p>Please report on the progress / success of the actions taken.</p> <p style="padding-left: 40px;">Community is more aware and are reporting illegal cases.</p>
3c	<p>Describe any factors that may limit action being taken in this regard:</p> <p style="padding-left: 40px;">Limited funding to facilitate community education programmes, alternative livelihoods to reduce the dependency on fishing. Increasing poverty levels making communities more dependant on fishing.</p>
3d	<p>What assistance, if any, does your country require to overcome these factors?</p> <p style="padding-left: 40px;">Funding for development of alternative livelihoods cantered around conservation of turtles.</p>

3.2 Questions on specific Appendix I marine turtles

In the following section, using the table format below, please fill in each Appendix I marine turtle species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i>	Common Name(s)
<i>Chelonia mydas</i> -	Green turtle
<i>Eretmochelys imbricate</i> -	Hawksbill
<i>Dermochelys coriacea</i> -	Leatherback
<i>Lepidochelys kempii</i> -	Kemps ridley
<i>Lepidochelys olivace</i> -	Olive ridley
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input checked="" type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p><u>Research</u> <input checked="" type="checkbox"/> Nest relocation</p> <p>Identification and establishment of protected areas <input checked="" type="checkbox"/> additional nesting beach have been identified and protection planned</p> <p><u>Monitoring</u> <input checked="" type="checkbox"/> Active involvement of all the stakeholders along the coast line including Government institutions, NGOs and CBOs.</p> <p>Education / awareness raising <input checked="" type="checkbox"/> beach operators awareness for the conservation of turtle</p> <p>Species protection <input checked="" type="checkbox"/> wildlife act enforced through security patrols</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Turtle conservation groups and beach management units report all the cases to security patrol teams who acts on them.</p> <p>Species restoration <input checked="" type="checkbox"/> Establishment of artificial hatcheries where natural nests are not safe. Hatchlings release and turtle release programmes have been implemented.</p> <p>Habitat protection <input checked="" type="checkbox"/> Regular beach cleanups.</p> <p>Habitat restoration <input checked="" type="checkbox"/> Mangrove replanting to ameliorate beach erosion has been done with and in conjunction with local communities to stop the development of structures on turtle nesting beaches</p> <p>Other <input type="checkbox"/></p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	<p>Describe any future activities that are planned for this species:</p> <p style="padding-left: 40px;">Formation of more turtle conservation groups all along the coastline. Consultative meetings and workshops with all the stakeholders. Monitoring to estimate the population. Erection of signages in all the nesting beaches.</p> <p>Development of turtle conservation strategy</p>

Miscellaneous information or comments on Appendix I marine turtles in general:

4 TERRESTRIAL MAMMALS (OTHER THAN BATS)

4.1 General questions on Appendix I terrestrial mammals (other than bats)

1	Is the taking of all Appendix I terrestrial mammals (other than bats) prohibited by the national implementing legislation cited in Table I(a) (General Information)? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If <i>other</i> legislation is relevant, please provide details:												
1a	If the taking of Appendix I terrestrial mammals (other than bats) is prohibited by law, have any exceptions been granted to the prohibition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):												
2	Identify any obstacles to migration that exist in relation to Appendix I terrestrial mammals (other than bats): <table style="width: 100%; border: none;"> <tr> <td style="width: 50%;">Lack of information <input type="checkbox"/></td> <td style="width: 50%;">By-catch <input type="checkbox"/></td> </tr> <tr> <td>Habitat fragmentation <input checked="" type="checkbox"/></td> <td>Electrocution <input type="checkbox"/></td> </tr> <tr> <td>Wind turbines <input type="checkbox"/></td> <td>Poaching <input type="checkbox"/></td> </tr> <tr> <td>Insufficient legislation <input type="checkbox"/></td> <td>Lack of trans-boundary management <input type="checkbox"/></td> </tr> <tr> <td>Poor communication amongst Range States <input type="checkbox"/></td> <td>Man-made barriers <input checked="" type="checkbox"/></td> </tr> <tr> <td>Climate change and drought <input checked="" type="checkbox"/></td> <td></td> </tr> </table> Other threats to migration (please provide details)	Lack of information <input type="checkbox"/>	By-catch <input type="checkbox"/>	Habitat fragmentation <input checked="" type="checkbox"/>	Electrocution <input type="checkbox"/>	Wind turbines <input type="checkbox"/>	Poaching <input type="checkbox"/>	Insufficient legislation <input type="checkbox"/>	Lack of trans-boundary management <input type="checkbox"/>	Poor communication amongst Range States <input type="checkbox"/>	Man-made barriers <input checked="" type="checkbox"/>	Climate change and drought <input checked="" type="checkbox"/>	
Lack of information <input type="checkbox"/>	By-catch <input type="checkbox"/>												
Habitat fragmentation <input checked="" type="checkbox"/>	Electrocution <input type="checkbox"/>												
Wind turbines <input type="checkbox"/>	Poaching <input type="checkbox"/>												
Insufficient legislation <input type="checkbox"/>	Lack of trans-boundary management <input type="checkbox"/>												
Poor communication amongst Range States <input type="checkbox"/>	Man-made barriers <input checked="" type="checkbox"/>												
Climate change and drought <input checked="" type="checkbox"/>													
2a	What actions are being undertaken to overcome these obstacles? Education and awareness among local communities on the need to allow migration routes for wildlife. Identification and demarcation of migratory corridors and dispersal areas. Lease of land to allow migratory species to migrate to important feeding and breeding sites												
2b	Please report on the progress / success of the actions taken. Migratory corridors and dispersal areas have been identified in key conservation areas, critical migratory routes have been identified and negotiations done to allow migration of species. In other areas land leasing has been employed to allow the movement of the species into certain critical areas.												
2c	What assistance, if any, does your country require in order to overcome these obstacles? Assistance to lobby for enactment of land use policy that provides for migratory corridors and dispersal areas. A land policy already developed and requires political good will to en act.												
3	What are the major threats to Appendix I terrestrial mammals (transcending mere obstacles to migration)? <table style="width: 100%; border: none;"> <tr> <td style="width: 33%;">Lack of information <input type="checkbox"/></td> <td style="width: 33%;">Habitat fragmentation <input checked="" type="checkbox"/></td> <td style="width: 33%;"></td> </tr> <tr> <td>Poaching <input checked="" type="checkbox"/></td> <td>Insufficient legislation <input type="checkbox"/></td> <td></td> </tr> <tr> <td>Illegal trade <input type="checkbox"/></td> <td>Other (please specify) <input type="checkbox"/></td> <td>bush meat</td> </tr> </table>	Lack of information <input type="checkbox"/>	Habitat fragmentation <input checked="" type="checkbox"/>		Poaching <input checked="" type="checkbox"/>	Insufficient legislation <input type="checkbox"/>		Illegal trade <input type="checkbox"/>	Other (please specify) <input type="checkbox"/>	bush meat			
Lack of information <input type="checkbox"/>	Habitat fragmentation <input checked="" type="checkbox"/>												
Poaching <input checked="" type="checkbox"/>	Insufficient legislation <input type="checkbox"/>												
Illegal trade <input type="checkbox"/>	Other (please specify) <input type="checkbox"/>	bush meat											
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of terrestrial mammal (other than bats) beyond actions to that prevent disruption to migratory behaviour? Identification of migratory species for intensive management programmes which conservation strategies have been developed to guide the management of the species inside and outside protected areas. The actions in these strategies include winning more land for migratory species through education and partnerships with land owners. Development of benefit sharing mechanisms that encourage conservation of the species. Development of intensive breeding programmes for those populations that are too low or isolated.												
3b	Please report on the progress / success of the actions taken. Species such and the African wild dog, the Grevy's zebra have been put under intensive management leading to more awareness on the need to conserve the species. Communities have appreciated the importance of some of the migratory species and have set aside corridors and dispersal areas for the species.												
3c	Describe any factors which limit action being taken in this regard: limited funding and expanding land use systems not compatible with migrating species												
3d	What assistance/measures, if any, does your country require to overcome these factors? Funding to conserve threatened migratory species												

4.2 Questions on specific Appendix I terrestrial mammals (other than bats)

In the following section, using the table format below, please fill in each Appendix I terrestrial mammal species (other than bats) for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s) Equus grevyi (Grevy's Zebra)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input checked="" type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	<p>Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available):</p> <p>Research <input checked="" type="checkbox"/> conservation genetics and ecology of Grevy's zebra</p> <p>Identification and establishment of <input checked="" type="checkbox"/> public and private protected areas, most distribution areas protected outside protected areas</p> <p>Monitoring <input checked="" type="checkbox"/> Two monitoring activities undertaken during the reporting period</p> <p>Education / awareness rising <input checked="" type="checkbox"/> Community awareness undertaken in the area and has led to the establishment of a community sanctuary</p> <p>Species protection <input checked="" type="checkbox"/> protection provided by local communities and private ranchers</p> <p>Control hunting / poaching <input checked="" type="checkbox"/> Awareness undertaken in the area and has led to the establishment of a community sanctuary awareness undertaken in the range area and has led to the establishment of community sanctuary</p> <p>Species restoration <input checked="" type="checkbox"/> translocation to restock other areas within the range and immunization against anthrax</p> <p>Habitat protection <input checked="" type="checkbox"/> provision of security in range areas</p> <p>Habitat restoration <input checked="" type="checkbox"/> Exclusion of domestic stock from Grevy's zebra grazing areas</p> <p>Other <input type="checkbox"/></p>
4	If no activities have been carried out for this species in the reporting period, what has prevented such action being taken?
5	Describe any future activities that are planned for this species? increase awareness among communities, monitor the status of the species on private land, maintain a long term surveillance of anthrax and other relevant diseases

Miscellaneous information or comments on Appendix I terrestrial mammals (other than bats) in general:

5. BATS

5.1 General questions on Appendix I bats

1	Is the taking of all Appendix I bats prohibited by the national implementing legislation cited in Table I(a) (General Information)? If <i>other</i> legislation is relevant, please provide details:	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
1a	If the taking of Appendix I bats is prohibited by law, have any exceptions been granted to the prohibition? If Yes, please provide details (Include the date on which the exception was notified to the CMS Secretariat pursuant to CMS Article III(7)):	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	Identify any obstacles to migration that exist in relation to Appendix I bats: Vandalism of bat caves <input checked="" type="checkbox"/> Other threats to migration (please provide details) Killing of bat as a traditional belief that they are evil	
2a	What actions are being undertaken to overcome these obstacles? Education and awareness on the need to keep the caves and not to kill them especially fruit bats	
2b	Please report on the progress / success of the actions taken.	
2c	What assistance, if any, does your country require in order to overcome these obstacles? more research funding for bats within Kenya	
3	What are the major threats to Appendix I bats (transcending mere obstacles to migration)? Pollution <input type="checkbox"/> Habitat fragmentation and loss <input checked="" type="checkbox"/> Other (please specify)	
3a	What actions have been taken to prevent, reduce or control factors that are endangering or are likely to further endanger species of bats beyond actions to prevent disruption to migrating behaviour? Protection of Cave within protected areas and outside, education and awareness to local community on the need for conservation of bats and their importance.	
3b	Please report on the progress / success of the actions taken. caves in protected areas and forest reserves have remained good habitats for the bats.	
3c	Describe any factors that may limit action being taken in this regard: inadequate knowledge on the distribution of bats and the threats they face	
3d	What assistance/measures, if any, does your country require to overcome these factors? increase funding for research	

5.2 Questions on specific Appendix I bat species

In the following section, using the table format below, please fill in each Appendix I bat species for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on trends (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2c	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness raising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such actions from being undertaken?
5	Describe any future activities that are planned for this species:

Miscellaneous information or comments on Appendix I bats in general :

6.2 Questions on specific Appendix I species belonging to other taxa

In the following section, using the table format below, please fill in each Appendix I species belonging to taxa not included in sections 1-5 above, for which your country is considered to be a Range State. Please complete each table as appropriate, providing information in summary form. Where appropriate, please cross-reference to information already provided in national reports that have been submitted under other conventions (e.g. Convention on Biological Diversity, Ramsar Convention, CITES). (Attach annexes as necessary.)

<i>Species name</i> – Common Name(s)	
1	Please provide published distribution reference:
2a	Summarise information on population size (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
2b	Summarise information on distribution (if known): increasing <input type="checkbox"/> decreasing <input type="checkbox"/> stable <input type="checkbox"/> not known <input type="checkbox"/> unclear <input type="checkbox"/>
3	Indicate (with an 'X') and briefly describe any activities that have been carried out in favour of this species in the reporting period. (Please provide the title of the project and contact details, where available): Research <input type="checkbox"/> Identification and establishment of protected areas <input type="checkbox"/> Monitoring <input type="checkbox"/> Education / awareness raising <input type="checkbox"/> Species protection <input type="checkbox"/> Control hunting / poaching <input type="checkbox"/> Species restoration <input type="checkbox"/> Habitat protection <input type="checkbox"/> Habitat restoration <input type="checkbox"/> Other <input type="checkbox"/>
4	If no activities have been carried out for this species in the reporting period, what has prevented such actions from being taken?
5	Describe any future activities that have been planned for this species:

Miscellaneous information or comments on Appendix I species belonging to other taxa in general bats in general:

7 LISTING OF OTHER ENDANGERED MIGRATORY SPECIES IN APPENDIX I

1	<p>Is your country a Range State for any other endangered migratory species¹ not currently listed in Appendix I? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details: some of the species include (<i>Anas sparsa</i> (African Back Duck), <i>Anas erythrorhyncha</i> (Red-Billed Duck), <i>Anas undulate</i>, (Yellow-Billed Duck) <i>Rynchops flavirostris</i> (African Skimmer) <i>Accipiter tachiro</i> (African Goshawk)</p> <p>N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.</p>
1a	<p>Is your country taking any steps to propose listing any of these species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details:</p>
1b	<p>What assistance/measures, if any, does your country require to initiate the listing of these species?</p>

¹ according to the latest IUCN red data list

III. Appendix II Species

1. INFORMATION ON APPENDIX II SPECIES

Information pertaining to the conservation of Appendix II species that are the object of CMS Agreements will have been provided in periodic Party reports to those instruments. It will suffice therefore to reference (below), and preferably append, a copy of the latest report that has been submitted to the Secretariat of each of the Agreements/MoUs to which your country is a Party.

WADDEN SEA SEALS (1991)	
Date of last report:	Period covered:
SIBERIAN CRANE MoU (1993/1999)	
Date of last report:	Period covered:
EUROBATS (1994)	
Date of last report:	Period covered:
ASCOBANS (1994)	
Date of last report:	Period covered:
SLENDER-BILLED CURLEW MoU (1994)	
Date of last report:	Period covered:
MARINE TURTLES – AFRICA MoU (1999)	
Date of last report: 2008	Period covered: 2005-2008
AEWA (1999)

PACIFIC ISLANDS CETACEANS (2006)	
Date of last report:	Period covered:
MEDITERRANEAN MONK SEAL (2007)	
Date of last report:	Period covered:

2. QUESTIONS ON CMS AGREEMENTS

2.1 Questions on the development of new CMS Agreements relating to birds

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bird species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bird species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require on initiating or participating in the instrument's development?	
4	Is the development of any CMS Agreement for birds, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input type="checkbox"/> No

2.2 Questions on the development of new CMS Agreements relating to marine mammals

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine mammal species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine mammal species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine mammals, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.3 Questions on the development of new CMS Agreements relating to marine turtles

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II marine turtles? If Yes, what is the current state of development? agreement and MoU is completed	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II marine turtles? If Yes, please provide details: agreement and MoU is completed	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for marine turtles, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: Kenya has developed and signed MoU on conservation and management of marine turtles of the Indian ocean and South East Asia	<input type="checkbox"/> Yes <input type="checkbox"/> No

2.4 Questions on the development of new CMS Agreements relating to terrestrial mammals (other than bats)

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, what is the current state of development? Kenya is proposing the listing of African Wild dog with the aim of developing MOUs with range countries and implementation of the national strategy. The proposal is considering Target 4.4, which proposes to develop a framework to co-ordinate management and conservation of transboundary cheetah and wild dog populations within one to three years.	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II terrestrial mammal species (other than bats)? If Yes, please provide details: Listing of the Cheetah	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development? Technical assistance and support	
4	Is the development of any CMS Agreement for terrestrial mammals (other than bats), including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details: African Wild dog MoU and possibly the Cheetah MoU within the range states	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

2.5 Questions on the development of new CMS Agreements relating to bats

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II bat species? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of Appendix II bat species? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	
4	Is the development of any CMS Agreement for bats, including Memoranda of Understanding, planned by your country in the future? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

2.6 QUESTIONS ON THE DEVELOPMENT OF NEW CMS AGREEMENTS RELATING TO OTHER TAXA

1	In the current reporting period, has your country initiated the development of any new CMS Agreements, including Memoranda of Understanding, to address the conservation needs of Appendix II species belonging to taxa not included in sections 1-5 above? If Yes, what is the current state of development?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
2	In the current reporting period, has your country participated in the development of any new CMS Agreements, including Memoranda of Understanding, which address the conservation needs of species belonging to taxa not included in sections 1-5 above? If Yes, please provide details:	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
3	If your country has initiated or is participating in the development of a new Agreement or Memorandum of Understanding, what assistance, if any, does your country require in order to initiate or participate in the instrument's development?	

4	Is the development of any CMS Agreement for other taxa, including Memoranda of Understanding, planned by your country in the foreseeable future? If Yes, please provide details:	<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
---	---	------------------------------	--

3. LISTING OF MIGRATORY SPECIES IN APPENDIX II

1	Is your country a Range State for any migratory species that has an unfavourable conservation status, but is <u>not</u> currently listed in Appendix II and could benefit from the conclusion of an Agreement for its conservation? If Yes, please provide details: (<i>Anas sparsa</i> (African Back Duck), <i>Anas erythrorhyncha</i> (Red-Billed Duck), <i>Anas undulate</i> ,(Yellow-Billed Duck) <i>Rynchops flavirostris</i> (African Skimmer) <i>Accipiter tachiro</i> (African Goshawk) N.B.: States in which a species occurs as a vagrant (i.e. not "on its normal migration route") should not be treated as Range States. Please refer to Article 1 of the Convention for clarification.	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
1a	Is your country taking any steps to propose the listing of this/these species in Appendix II? If Yes, please provide details: discussions to develop proposals for listing have been initiated	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
1b	What assistance, if any, does your country require to initiate the listing of this/these species?		

IV. National and Regional Priorities

1	What priority does your country assign to the conservation and, where applicable, sustainable use of migratory species in comparison to other biodiversity-related issues	<input type="checkbox"/> Low <input type="checkbox"/> Medium <input checked="" type="checkbox"/> High																																
2	Are migratory species and their habitats addressed by your country's national biodiversity strategy or action plan? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please indicate and briefly describe the extent to which it addresses the following issues:																																	
	<input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of migratory species Kenya has ratified most of the international agreements, treaties, conventions, and protocols that are considered to be in harmony with the country's plans for sustainable development. Migratory species are given special emphasis in the implementation of the treaties and agreements.																																	
	<input checked="" type="checkbox"/> Conservation, sustainable use and/or restoration of the habitats of migratory species, including protected areas Areas important for conservation in Kenya are also key areas for migratory species. Special emphasis is given to the highland and tropical forest areas, the riftvalley wetlands and the coastal strip that are critical for migratory species. Kenya has 63 protected areas; the protected area system covers a reasonable area important for migratory species.																																	
	<input checked="" type="checkbox"/> Actions to prevent, reduce or control factors that are endangering or are likely to further endanger migratory species (e.g. alien invasive species or by-catch) Kenya has identified specific alien species that may affect the migratory species. Kenya has established an invasive species monitoring and control programme coordinated by KWS and involves key stakeholders in conservation. Kenya has awareness programmes that ensure that by-catch is reduced significantly .It has advocated for the modification of fishing net to allow turtles to escape. During fishing and extensive turtle monitoring, a programme has been established supported by development partners																																	
	<input checked="" type="checkbox"/> Minimizing or eliminating barriers or obstacles to migration Effective environmental impact assessment programmes have been established supported by national environmental coordination act of 1999 that gives emphasis to fragile ecosystems and migratory corridors. These EIA programmes aim at minimising barriers to migration.																																	
	<input checked="" type="checkbox"/> Research and monitoring of migratory species Kenya has a number of monitoring programmes that support the monitoring of migratory species some include bi-annual water bird monitoring, turtle monitoring programmes (using satellite), aerial and ground wildlife counts . Research has been undertaken on the migratory species and their habitats some include research on the dugong, sea turtle, water bird migration in Rift valley and the wildebeest migration to mention a few.																																	
	<input checked="" type="checkbox"/> Transboundary co-operation Within the east African region Kenya has imitated Trans-boundary programmes geared towards enhancing the conservation of migratory species these include the wildebeest migration research programme bird ringing programme, elephant assessment programme and satellite turtle monitoring programmes.																																	
3	Does the conservation of migratory species currently feature in any other national or regional policies/plans (apart from CMS Agreements) <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If Yes, please provide details: AEWA, Lusaka Agreement, NEPAD, WIOMSA and the Nile Basin agreement , East African Community under the Lake basin commission																																	
3a	Do these policies/plans cover the following areas (if Yes, please provide details): <table style="width: 100%; border: none;"> <tr> <td style="width: 10%;"></td> <td style="width: 10%; text-align: center;">Yes</td> <td style="width: 10%; text-align: center;">No</td> <td></td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Exploitation of natural resources (e.g. fisheries, hunting, etc.)</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Economic development</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Land-use planning</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Pollution control</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Designation and development of protected areas</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Development of ecological networks</td> </tr> <tr> <td><input type="checkbox"/></td> <td><input type="checkbox"/></td> <td></td> <td>Planning of power lines</td> </tr> </table>			Yes	No		<input checked="" type="checkbox"/>	<input type="checkbox"/>		Exploitation of natural resources (e.g. fisheries, hunting, etc.)	<input checked="" type="checkbox"/>	<input type="checkbox"/>		Economic development	<input type="checkbox"/>	<input type="checkbox"/>		Land-use planning	<input checked="" type="checkbox"/>	<input type="checkbox"/>		Pollution control	<input type="checkbox"/>	<input type="checkbox"/>		Designation and development of protected areas	<input checked="" type="checkbox"/>	<input type="checkbox"/>		Development of ecological networks	<input type="checkbox"/>	<input type="checkbox"/>		Planning of power lines
	Yes	No																																
<input checked="" type="checkbox"/>	<input type="checkbox"/>		Exploitation of natural resources (e.g. fisheries, hunting, etc.)																															
<input checked="" type="checkbox"/>	<input type="checkbox"/>		Economic development																															
<input type="checkbox"/>	<input type="checkbox"/>		Land-use planning																															
<input checked="" type="checkbox"/>	<input type="checkbox"/>		Pollution control																															
<input type="checkbox"/>	<input type="checkbox"/>		Designation and development of protected areas																															
<input checked="" type="checkbox"/>	<input type="checkbox"/>		Development of ecological networks																															
<input type="checkbox"/>	<input type="checkbox"/>		Planning of power lines																															

	<input type="checkbox"/> <input type="checkbox"/> Planning of fences <input type="checkbox"/> <input type="checkbox"/> Planning of dams <input type="checkbox"/> <input type="checkbox"/> Other environmental management strategies and invasive species
4	Results – please describe the positive outcomes of any actions taken

V. Protected Areas

1	<p>Are migratory species taken into account in the selection, establishment and management of protected areas in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details: Protected area system has identified the migratory and dispersal areas of species conservation efforts outside protected areas are aimed at maintaining these routes and ensuring that that species migration processes area sustained. The protected area planning process considers an ecosystem approach that integrates the protected areas and the processes that support the species within the protected area.</p>
1a	Please identify the most important national sites for migratory species and their protection status:
1b	<p>Do these protected areas cover the following areas? (If Yes, please provide details and include the amount of protected areas coverage and the number of protected areas):</p> <p>Yes No</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Terrestrial 51 protected areas covering 46,898 sq kilometres</p> <p><input type="checkbox"/> <input type="checkbox"/> Aquatic</p> <p><input checked="" type="checkbox"/> <input type="checkbox"/> Marine 10 marine protected areas covering 140 sq kilometres</p>
1c	Identify the agency, department or organization responsible for leading on this action in your country: Kenya Wildlife Service
2	Results – please describe the positive outcomes of any actions taken

VI. Policies on Satellite Telemetry

1	<p>In the current reporting period, has your country undertaken conservation/research projects that use satellite telemetry? <input type="checkbox"/> Yes <input type="checkbox"/> No</p> <p style="text-align: center;"><input checked="" type="checkbox"/> In preparation <input type="checkbox"/> on-going <input type="checkbox"/> completed</p>
2	<p>Are any future conservation/research projects planned that will use Satellite telemetry? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (including the expected timeframe for these projects): 2008 december</p> <p>If No, please explain any impediments or requirements in this regard:</p>
3	Results – please describe the positive outcomes of any actions taken

VII. Membership

1	<p>Have actions been taken by your country to encourage non- Parties to join CMS and its related Agreements? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details. (In particular, describe actions taken to recruit the non-Parties that have been identified by the Standing Committee as high priorities for recruitment.)</p>
1a	Identify the agency, department or organization responsible for leading on this action in your country: Kenya Wildlife Service
2	Results – please describe the positive outcomes of any actions taken

VIII. Global and National Importance of CMS

1	<p>Have actions been taken by your country to increase national, regional and/or global awareness of the relevance of CMS and its global importance in the context of biodiversity conservation? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details: When Kenya hosted the last COP it created awareness in the country and the region on CMS this awareness has been maintained by involving government and non governmental institutions in the conservation of migratory species and subsequent report on progress. Implementation of projects that focus on migratory species such as the turtle, grevy's zebra and the African wild dog</p>
2	Identify the agency, department or organization responsible for leading on this action in your country:
3	Results – please describe the positive outcomes of any actions taken

IX. Mobilization of Resources

1	<p>Has your country made financial resources available for conservation activities having direct benefits for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities): Kenya has invented resource in the implementation of sea Turtle conservation in the protection of turtle nesting sites the removal of barriers at the beach, relocation of beech traders away from turtle nesting sites and the monitoring of turtle.</p>
2	<p>Has your country made voluntary contributions to the CMS Trust Fund to support requests from developing countries and countries with economies in transition? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details: Kenya is a developing country and requires support in conservation of migratory species</p>
3	<p>Has your country made other voluntary financial contributions to support conservation activities having direct benefits for migratory species in other countries (particularly developing countries)? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
4	<p>Has your country provided technical and/or scientific assistance to developing countries to facilitate initiatives for the benefit of migratory species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
5	<p>Has your country received financial assistance/support from the CMS Trust Fund, via the CMS Secretariat, for national conservation activities having direct benefits for migratory species in your country? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities):</p>
6	<p>Has your country received financial assistance/support from sources other than the CMS Secretariat for conservation activities having direct benefit for migratory species in your country? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No</p> <p>If Yes, please provide details (Indicate the migratory species that have benefited from these activities): the US government has supported the conservation of sea turtle in the Kenyan coast and the programme runs from 2006 to 2010. The Grevy Zebra has also received support from local and international NGO the programme runs from 2007 -2009.</p>

X. Implementation of COP Resolutions and Recommendations

Please provide information about measures undertaken by your country relating to recent Resolutions and Recommendations since the last Report. For your convenience please refer to the list of COP Resolutions and Recommendations listed below.

Resolutions

Resolution 6.2 – By-catch, and Recommendation 7.2 – Implementation of Resolution 6.2 on By-catch

In the year 2006 the year of the turtle Kenya initiated an expanded education and awareness amid at reducing by catch while encouraging ocean trawlers to have turtle exclusion devises on their nets. Significant fisher forks awareness has been achieved and fisher men report reduced by catch shipped into the shores.

Resolution 6.3 – Southern Hemisphere Albatross Conservation

Resolution 7.2 – Impact Assessment and Migratory Species

Under the environmental management Act of 1999 the government of Kenya has provided a requirement for impact assessment for all developments that may affect migratory species. Emphasis have been on maintenance of the migration corridors of birds and their habitats along the rift valley, the restoration of forest in the highlands especially the Mau forest which from the catchment of the Masai Mara river and rehabilitation of Mt. Kenya forest . At the coast the government has identified lead agencies dealing with the environment to over see the environmental protection and promotion of environmental management systems that reduce impacts on migratory species.

Resolution 7.3 – Oil Pollution and Migratory Species

Kenya has taken action on oil pollution by developing partnerships with other developed courtiers in the methodologies of reducing oil pollution. Kenya has developed and GIS data base on oil spill sensitivity that would guide clean up of spills. Coastal areas management programmes have been developed that guide mechanisms and strategies for reducing pollution. These are implemented by a number of agencies in the coastal area. Kenya has also established mechanism to implement the polluter pays principle and is in the process of claiming 1 million USD for the clean up of oil spill

Resolution 7.4 – Electrocution of Migratory Birds

Resolution 7.5 – Wind Turbines and Migratory Species

Kenya has maintained its coastal area free of turbines

Resolution 7.9 – Cooperation with Other Bodies and Processes

Resolution 7.15 – Future Action on the Antarctic Minke, Bryde's and Pygmy Right Whales under the Convention on Migratory Species

Kenya is a member of the International Whaling Commission (IWC) and is against commercial whaling. Kenya has not licensed any commercial whaling and is keen to maintain the whale population at the Kenyan coast.

Resolution 8.1 – Sustainable Use

Kenya advocates for the sustainable use of resources and dose not licence the use of migratory species and advocates to sustainable use of resource that migratory species depend on. The recreantly developed notional policies such as the fisheries policy, the water policy the environmental management and coordination act, the forest master plan and policy advocate for sustainable development. Kenya has incorporated sustainable development issues in the development of its policy. The draft wildlife policy and the land tenure policy before parliament and cabinet include sustainable use of those recourses

Resolution 8.2 – CMS Strategic Plan 2006-2010

Kenya has taken into consideration the CMS strategic plan and has incorporated targets on migratory species into its national work programme and institutional programmes that deal with environmental protection and wildlife management.

Resolution 8.5 - Implementation of Existing Agreements and Development of Future Agreements

Kenya is implementing the MoU on conservation and management of Marine Turtle of the Indian Ocean and South–East Asia. An effective Turtle conservation project has been initiated the awareness and the profile of the Marine turtle is high in Kenya, it has attracted a lot of national and international support. Kenya is also implementing the African elephant MoU. The Kenyan elephant population has grown steadily, with the support of other nations also managed to secure a 9 year moratorium on ivory trade. Kenya is proposing the listing of the African wild dog for listing in Appendix II and supporting the listing of the cheetah by the republic of Tanzania. These two steps are expected to enhance the conservation of the wild dog and the Cheetah. Kenya has developed the Cheetah and the African wild dog strategic plan and is currently under implementation.

Resolution 8.7 - Contribution of CMS in Achieving the 2010 Biodiversity Target

Kenya has put in place several strategies to significantly reduce biodiversity loss by 2010 at the policy level several legislations have been revised to address issues related to the loss of biodiversity these include the new wetland policy, the NEAP, the forest master plan and the new forest act, the environmental and the wildlife policy and the land policy drafts provide legal frameworks that lay emphasis on sustainable development with conservation directions that aim at reducing biodiversity loss. A number of strategies have been developed to effectively manage the species and their habitats that are threatened some of the strategies include the African wild dog and cheetah conservation and management strategy, the Lion and Hyena conservation strategy, the African elephant conservation strategy (under development) the Grevy's Zebra conservation strategy. National programmes to reduce invasive species have been initiated to reduce their spread and national strategy is under development. Regular monitoring programmes have been developed to identify problems that may lead to loss of biodiversity, these programmes shape the direction of interventions where priorities are laid on the most pressing and urgent biodiversity concern.

Resolution 8.9 - Review of GROMS (Global Register on Migratory Species)

Resolution 8.11 - Co-operation with other Conventions

Resolution 8.13 - Climate Change and Migratory Species

Resolution 8.14 – By-Catch

See resolution 6.2 and recommendation 7.2 above

Resolution 8.22 - Adverse Human Induced Impacts on Cetaceans

Resolution 8.24 - National Reports for the Eight and Ninth Meetings of the Conference of the Parties

Resolution 8.27 - Migratory Species and Highly Pathogenic Avian Influenza

Resolution 8.29 - Concerted Actions for Appendix I Species

Recommendations

Recommendation 7.5 – Range State Agreement for Dugong (*Dugong dugon*) Conservation

Kenya has taken action on creating awareness on the conservation of the dugong mainly aimed discouraging hunting , reducing accidental drowning by fishing nets and reducing pollution especially in areas identified to have suitable habitats for the dugong.

Recommendation 7.6 – Improving the Conservation Status of the Leatherback Turtle (*Dermochelys coriacea*)

Recommendation 7.7 – America Pacific Flyway Programme

Recommendation 8.12 - Improving the conservation status of raptors and owls in the African Eurasian region

The conservation of owls and Raptors has been identified as one of the areas that require urgent attention by government institutions responsible for wildlife conservation. The two groups of species have been identified to need critical conservation intervention. Management structures are being develop to address their conservation.

Recommendation 8.16 – Migratory Sharks

Recommendation 8.17 – Marine Turtles

Kenya has a well established sea turtle conservation programme that aims at ensuring the survival of the species the activities undertaken include protection of identified important nesting areas, identification and implementing mechanism of protecting important foraging habitats, security patrols with the aim of eliminating poaching of eggs and adult nesting turtles, education and awareness to reduce capture by fishermen, strict enforcement of fisheries regulations, has established elaborate tagging programme among other activities.

Recommendation 8.23 - Central Eurasian and Aridland Mammals

Recommendation 8.26 - Grassland Bird Species and their Habitats in Southern South America

Recommendation 8.28 - Cooperative Actions for Appendix II Species

Other resolutions/recommendations:

Other remarks:

Annex: Updating Data on Appendix II Species

The tables below contain the list of all species listed in Appendix II.

New Parties which have acceded since COP8 in 2005 and Parties which did not submit a National Report in 2005 are requested to complete the entire form.

Parties that did submit a report in 2005 need only which information has changed (e.g. new published distribution references and details concerning species added to Appendix II at COP8).

Species	Range State	Extinct at National level	No information available	Published distribution reference

<i>Larus melanocephalus</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Larus genei</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Larus audouinii</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Larus armenicus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna nilotica nilotica</i> (West Eurasian and African populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna caspia</i> (West Eurasian and African populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna maxima albidorsalis</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna bergii</i> (African and Southwest Asian populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna bengalensis</i> (African and Southwest Asian populations)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna sandvicensis sandvicensis</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna dougallii</i> (Atlantic population)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna hirundo hirundo</i> (populations breeding in the Western Palearctic)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna paradisaea</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Species	Range State	Extinct at National level	No information available	Published distribution reference
(Atlantic populations)				
<i>Sterna albifrons</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna saundersi</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna balaenarum</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sterna repressa</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Chlidonias niger niger</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Chlidonias leucopterus</i> (West Eurasian and African population)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
COLUMBIFORMES				
<i>Streptopelia turtur turtur</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
CORACIIFORMES				
<i>Merops apiaster</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Coracias garrulus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
PSITTACIFORMES				
<i>Amazona tucumana</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
PASSERIFORMES				
<i>Hirundo atrocaerulea</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Pseudocolopteryx dinellianus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Polystictus pectoralis pectoralis</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Sporophila ruficollis</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acrocephalus paludicola</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
TESTUDINATA				
<i>Chelonia depressa</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Chelonia mydas</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Caretta caretta</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Eretmochelys imbricata</i>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Lepidochelys kempii</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Lepidochelys olivacea</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Dermochelys coriacea</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Podocnemis expansa</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
CROCODYLIA				
<i>Crocodylus porosus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
ACIPENSERIFORMES				
<i>Huso huso</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Huso dauricus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser baerii baicalensis</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser fulvescens</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser gueldenstaedtii</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser medirostris</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser mikadoi</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser naccarii</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser nudiventris</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser persicus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser ruthenus</i> (Danube population)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser schrenckii</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser sinensis</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser stellatus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Acipenser sturio</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Pseudoscaphirhynchus kaufmanni</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

Species	Range State	Extinct at National level	No information available	Published distribution reference
<i>Pseudoscaphirhynchus hermanni</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Pseudoscaphirhynchus fedtschenkoi</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<i>Psephurus gladius</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
ORECTOLOBIFORMES				
<i>Rhincodon typus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
LAMNIFORMES				
<i>Carcharodon carcharias</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
LEPIDOPTERA				
<i>Danaus plexippus</i>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

All species of each of the Families below are listed in Appendix II. If your country is a Range State for any of the species in these Families, please enter the species name in the first column, under the relevant Family heading. Please indicate (with a 'X') whether your country is a Range State or the species is extinct and, where appropriate, please provide published distribution references. (Space is provided for ten species in each Family. If additional lines are required, please attach the information as an annex).

Species	Range State	Extinct	Published distribution reference
Order FALCONIFORMES, Family Cathartidae			
<i>Stercorarius parasiticus</i>	<input checked="" type="checkbox"/> Range State	<input type="checkbox"/> Extinct	T. Stevenson and J. Fanshawe 2006 Birds of E. Africa
<i>Catharacta antarctica</i>	<input checked="" type="checkbox"/> Range State	<input type="checkbox"/> Extinct	T. Stevenson and J. Fanshawe 2006 Birds of E. Africa
