DRAFT RESOLUTION

**SINGLE SPECIES ACTION PLAN FOR THE LOGGERHEAD TURTLE
(*Caretta caretta*) IN THE SOUTH PACIFIC OCEAN**

(Submitted by Australia)

Noting that the Loggerhead Turtle (*Caretta caretta*) was listed on CMS Appendix II in 1979 and Appendix I in 1985 and was designated for Concerted Actions for the period 2012-2014;

Noting also that there are numerous existing instruments and mechanisms that address sea turtles in the South Pacific and the Eastern Pacific, including the Secretary of the Pacific Regional Environment Programme (SPREP) the Inter-American Sea Turtle Convention (IAC), and the Permanent Commission of the South Pacific (CPPS) as well as fora that address sea turtle bycatch, such as the Western and Central Pacific Fisheries Commission, the South Pacific Regional Fisheries Management Organisation (SPRFMO) and the Inter-American Tropical Tuna Commission (IATTC);

Aware that, while there is one management unit for *Caretta caretta* in the South Pacific Ocean, there are no international instruments that address conservation issues of this species across the entire Pacific Ocean;

Noting with appreciation the efforts of the COP Appointed Councillor for Marine Turtles in the development of this Action Plan; and

Further noting with appreciation the role of the Australian Government in funding a Meeting of Range States, convened by CMS in Brisbane, Australia, 25-27 March 2014 to develop a draft Single Species Action Plan;

*The Conference of the Parties to the
Convention on the Conservation of Migratory Species of Wild Animals*
